Learning about Social Issues through Scripts for Learners aged 11–16 John Rainer,Kirsty Walters,2014-05-09 Learning about Social Issues through Scripts for Learners aged 11-16 offers secondary drama teachers a new and exciting approach to exploring social issues with their students. Focusing on the issues that matter to young people, it includes a wide range of classroom and performance materials carefully tailored for differing abilities and ages. The book is based around four original play scripts exploring themes of antisocial behaviour, eating disorders, the effects of war on families and riots – that have been tried, tested and proven to motivate and engage young people. As well as building performance skills, each script is accompanied by detailed schemes of work to help students explore what the issues mean to them and develop their problem solving and thinking skills. The book also includes cross references to pedagogical techniques and approaches, assessment for learning and ‘learning to learn’. Written by an experienced author team, Learning about Social Issues through Scripts for Learners aged 11-16 provides a ‘one-stop shop’ for teachers to explore relevant and stimulating themes and topics that will engage students in lively debate, promote empathy and produce creative dramatic responses.

Script and Society Philip J. Boyes,2021-03-15 By the 13th century BC, the Syrian city of Ugarit hosted an extremely diverse range of writing practices. As well as two main scripts – alphabetic and logographic cuneiform - the site has also produced inscriptions in a wide range of scripts and languages, including Hurrian, Sumerian, Hittite, Egyptian hieroglyphs, Luwian hieroglyphs and Cypro-Minoan. This variety in script and language is accompanied by writing practices that blend influences from Mesopotamian, Anatolian and Levantine traditions together with what seem to be distinctive local innovations. *Script and Society: The Social Context of Writing Practices in Late Bronze Age Ugarit* explores the social and cultural context of these complex writing traditions from the perspective of writing as a social practice. It combines archaeology, epigraphy, history and anthropology to present a highly interdisciplinary exploration of social questions relating to writing at the site, including matters of gender, ethnicity, status and other forms of identity, the relationship between writing and place, and the complex relationships between inscribed and uninscribed objects. This forms a case- study for a wider discussion of interdisciplinary approaches to the study of writing practices in the ancient world.

Flipping the Script A. J. Gibson,2018 Life is complicated and messy, but every now and then life gives you a syndicated talk show on a major network - and then fires your ass for not being gay enough. Then it sends your born-again Christian sister to take you out to lunch on your birthday, only to tell you she suddenly believes you can pray your gay away and that your show was shit anyways because you weren't using it to do anything for Christ. Then again, that specific situation may have only happened to AJ Gibson.... Either way, he knows what it's like when life feels like a rollercoaster, and in his self-help book *Flipping the Script*, he's not going to sugar-coat the truth. After all, this isn't Hollywood. Er... anymore. Know you're not alone: AJ's journey from a closeted gay boy from Ohio to that guy that people kinda, sorta recognize from Hollywood and TV seems glossy, but the truth is anything but. In *Flipping the Script*, AJ shows how his life has been a series of lemons. Every time he thinks he's in the clear, he finds a new way to crash and burn. Let's just say insecurity was once a pretty close friend of his. So he knows what you feel like. Really, he does. Luckily he's pretty smart and moderately witty, always finding his way out of life's rock bottom moments - and you can too-- Provided by publisher.

Orthography as Social Action Alexandra Jaffe,Jannis Androutsopoulos,Mark Sebba,Sally Johnson,2012-07-04 The chapters in this edited volume explore the

sociolinguistic implications of orthographic and scriptural practices in a diverse range of communicative contexts, ranging from schoolrooms to internet discussion boards. The focus is on the way that scriptural practices both index and constitute social hierarchies, identities and relationships and in some cases, become the focus for public language ideological debates. Capitalizing on the now robust body of literature on orthographic choice and debate in sociolinguistics and anthropological linguistics, the volume addresses a number of cross-cutting themes that connect orthographic practices to areas of contemporary interest in sociolinguistics and linguistic anthropology. These themes include: the different social implications of self vs. other representation and the permeability of the personal/social and the public/private; how scriptural practices (inscription) serve as sites for social discipline; the historical and intertextual frameworks for the meaning potentials of orthographic choice (relating to issues of genre and style); and writing as a broader semiotic field: the visual and esthetic dimensions of texts and metalinguistic play in spelling and its ambiguous implications for writer stance.

Scripting with Idioms Carla Butorac, MAT,SLP,Matslp Carla Butorac,2016-12-13 Idioms are difficult to understand when encountered only in a written context. Studies have shown that in teaching children on the autism spectrum about idioms, the key is application. Students need to see how they can use idioms in everyday conversations. Instead of simply writing another textbook about the meanings of these challenging phrases, Carla Butorac, MAT, SLP, has created an interactive workbook full of scripted conversations, quizzes, and other features to help students practice. Butorac, who has spent her career as a speech-language pathologist and consultant for special education programs, includes 775 common idioms, like wrong side of the tracks, best of both worlds, and it won't hurt to ask for students to practice. Many people don't realize how many idioms we use in everyday conversation, and Butorac's work significantly lessens the confusion for those who don't grasp figurative language quickly. Butorac's scripts take students into simple conversations sprinkled with idioms. Students may be discussing vacation plans with parents, chatting with a friend about schoolwork, or meeting a new neighbor. Scripting with Idioms was specifically designed not only to be used by educators, but also by parents, caregivers, and families. Many will find idioms easier to understand and use with Butorac's guide.

Social Psychology Tony Malim,1997-11-11 This second edition of this successful textbook has been completely rewritten, updated and revised and now contains some of the most recent research and theory on most areas of social psychology. The emphasis on social cognition provides a unifying theme and topics covered include material on conflict and cooperation, including sections on prejudice, aggression and helping behaviour. How we attribute personality characteristics from observation of the behaviour of other people and ourselves is examined, along with leadership, group decisions and different types of relationships. Fully illustrated and written in an easily accessible form, each chapter provides learning objectives and self assessment questions to provide a comprehensive introduction.

The Cartoon and Script Curriculum for Teaching Social Behavior and Communication Vera Bernard-Opitz,2017 This book summarizes specific methods of Autism-specific Behavior Therapy (ABT), such as the basic discrete trial, naturalistic methods, visual support, and cognitive behavior interventions.--Publisher.

EBook: Social Psychology 3e David Myers,Jackie Abell,Fabio Sani,2020-08-21 Social psychology has a profound influence on our everyday lives; from our shopping habits to our interactions at a party. It seeks to answer questions that we often think and talk about; questions such as: - What circumstances prompt people to help, or not to help? - What factors influence the ups and downs of our close relationships? - Why do some people behave differently when on their own compared to in a group? - What leads individuals sometimes to hurt, and other times to help one another? - Why are we attracted to certain types of people? - How do some persuade others to do what they want? This new edition of Social Psychology has been revised to introduce a more flexible structure for teaching and studying. It includes up-to-date, international research with an emphasis throughout on its critical evaluation. Applied examples across the chapters help to highlight the relevance, and hence the impact, that the theories and methods of this fascinating subject have upon the social world. Key Features Include: - Research Close-Up: Following a brand-new style, this feature matches the layout used in research papers, providing an accessible introduction to journal articles and the research methods used by social psychologists. - Focus On: Fully revised, these boxes look at opposing viewpoints, controversial research or alternative approaches to the topics. This offers a more critical outlook and prompts the questioning of the validity of published research - Recommended Readings: New to this edition, recommended further readings of both classic and contemporary literature have been added to each chapter, providing a springboard for further consideration of the topics.
