<u>Awake</u> Angelo DiLullo, Jr.,2021-05-17 A user's manual for the awakening process.

The Leap Steve Taylor, 2017-02-14 What does it mean

to be enlightened or spiritually awakened? In The Leap, Steve Taylor shows that this state is much more common than is generally believed. He shows that ordinary people — from all walks of life — can and do regularly "wake up" to a more intense reality, even if they know nothing about spiritual practices and paths. Wakefulness is a more expansive and harmonious state of being that can be cultivated or that can arise accidentally. It may also be a process we are undergoing collectively. Drawing on his years of research as a psychologist and on his own experiences, Taylor provides what is perhaps the clearest psychological study of the state of wakefulness ever published. Above all, he reminds us that it is our most natural state — accessible to us all, anytime, anyplace.

Spiritual Awakening Oziris M. Stoltz, 2012-03-22 The wisdom that the 2012 code can inspire in us is to look directly at our lives, right here and now: What are our spiritual guiding principles? How can we live in greater harmony with all our personal relations? How can we embody genuine compassion? How can we become increasingly aware and self-reflective? How can we deepen our humility? How can we share our talents and gifts as a way to influence our culture and help manifest the new paradigm? How can we be of service to life, and positively contribute to the whole? How can we cultivate a balance of being and doing, receptivity and action? On this diverse planet, we all have different strengths, different abilities, different callings. Rather than looking to the world to show us our path, we need to look deep within our spiritual being and listen to our inner sense of how to navigate these times of the great unknown. It is essential we learn to hear the voice of our inner wisdom, our spiritual self. No one can give us wisdom; it is within all of us, born of our own direct experience. We each have our own direct connection to our

spirit, and we must keep learning how to hear our divine, intuitive directives, whispering within. Th is ability to hear the voice of our inner guidance is the most practical skill we can cultivate in these times. It is what will inform us to how to synchronize in the right place at the right time.

When Spirit Leaps Bonnie L. Greenwell,2018-05-01 Whether it happens all at once or gradually over time, spiritual awakening is an experience that may be accompanied by great insight, ecstatic bliss, or a mystical infusion of light, love, and vision. But it can be an overwhelming experience, too, leaving those to whom it's occurred searching for answers and understanding. Written by a transpersonal psychologist and non-dual teacher, this book will help you understand the phenomenon of spiritual awakening, and provide guidance and support for you on

your spiritual journey. At the heart of most spiritual traditions is the understanding that we are one with all of existence. This realization, also known as spiritual awakening or spiritual emergence, can occur spontaneously, after years of spiritual practice, or through many other portals. Although awakening is often considered a purely positive experience, many people are not prepared for the ramifications of such a life-altering event. When your perception of yourself and reality has been altered, you may find yourself with more questions than answers. Where can you turn? Based on over thirty years of case studies, as well as the author's own experiences, When Spirit Leaps explores the why and what of spiritual awakening, revealing how this phenomenon occurs across all traditions, and exploring the various ways it can happen. Including discussions on kundalini energy, meditation, yoga and gigong, breathwork, near-death experiences, and much more, this inspirational book offers companionship and practical solutions to common challenges along the spiritual path of awakening. With this book as your guide, you'll gain a deep understanding of the process and different portals of awakening, and find comfort and support in the real-life stories of those who have experienced this shift in consciousness and faced its challenges. Most importantly, you'll learn how you can embody this awakening and live joyfully and effectively without attachment to a personal sense of self, but as the oneness with all that is your true nature. No matter where you are on your spiritual journey, this book will help you along the way.

What Really Matters Isaac George,2007-09 The world is changing, very rapidly. So much has changed and is changing, that one might say the entire planet is suffering from stress. Great suffering seems to be everywhere, with a great many people living from day-to-day in survival mode, whether due to economic circumstances, war or disease. Even in those countries that are experiencing enormous wealth and material prosperity, the suffering of many is a spiritual suffering, a longing for more and more things or relationships, while at the same time questioning it all. Is this all there is? could be the very question that creates the change that is so needed. Indeed, the survival of the species and the Planet may hinge on how we respond to the

Foundations of a Global Spiritual Awakening Edgar John Burns, 2003-06-27 Blood. Thick, red, still. I shivered in spite of the comfortable temperature in the room. Staring fixedly at the ooze, I watched the edges curl inward as if it were trying to remove itself from the white linoleum, embarrassed by its own unseemly appearance. Except for the blood, all was normal in the primate biology lab of Loma University. Situated in upscale San Larimor, the campus's property nestles in the rolling hills just northwest of Los Angeles renowned for stately Mediterranean style mansions and frequent celebrity sightings. San Larimor Police Detective, Cate Blaine becomes embroiled in a puzzle of blood, a missing security guard and a deadly chase against time. While searching for the answers to the case, Cate is searching for clues to solving her own inner battle dealing with the senseless loss of her son and husband. As she moves between the real world of crime and the inner chaos of her emotions, she is in jeopardy of loosing her job and her sanity. Thrown into an unwelcome partnership with LU's Private Security chief, Sloane Stevens, Cate fights the impulse to keep case details from the blue-eyed, ex-cop, when . . . The flashlight reflecting off the industrial plastic, made Stan's face and body just visible. Blank eyes stared back at us, a silent scream contorting his features. Sloane's involvement proves almost too much, as Cate races against

time . . . murders and the possibility of her safety.

The Spiritual Awakening Guide Mary Mueller Shutan, 2015-08-11 The first modern, comprehensive resource on spiritual awakenings, this pragmatic, clear guide covers everything from the first step on a spiritual journey to enlightenment, and the different types of spiritual awakenings, from mild to dramatic, we may go through. Using the concept of the twelve layers that cover an awakened state Mary Mueller Shutan addresses every step of the spiritual journey, starting with the Self and showing how family, ancestral, past lives, karmic, archetypal, and other larger layers such as societal, cultural, global, and cosmic energies condition us to sleep and obscure our realization of an awakened state. Instructions for how to navigate through each of these layers and how to recognize where we are in our spiritual journey are included each step of the way along with common physical, emotional, and spiritual symptoms that may be experienced. By addressing post-awakening states, oneness, dark nights of the soul, ego death, near-death and severe illness, psychic abilities, addictions, dietary changes, the God self, personal and collective shadow, and psychosis vs. awakening we understand the experiences we may go through while struggling with spiritual awakenings. This practical book opens new understandings of how to live in the world while going through an awakening process, and offers the revolutionary idea that we are meant to be humans, to have a physical body with physical, sensate experiences and emotions. We are meant to live in the world and be a part of it even as fully awakened individuals. This guide proposes a look at the possibility of leading a grounded, earth-bound life of work, family, friends, and other experiences in an awakened state.

My Eyes Are Open Janet DiTroia, 2014-12-31 At age

forty-seven, lanet woke up from existing to living passionately. As a speaker, new author, life coach, and energy medicine consultant, Janet provides inspiration with wisdom, using ideas, suggestions, and tools to empower others to question their own lives and to make positive shifts in how they view themselves and the world around them. Janet tells a variety of short stories that may be tearful, funny, provocative, realistic, and spiritual. Her memoirs share personal episodes in the first forty-seven years of life; then she demonstrates how her shift in consciousness now impacts her world from the inside out. There are points in everyones life when they question who they are and what their purpose is. It is common to wonder and ask questions. In fact, it is the way one learns to remember who they are on the inside. When you question, you seek to expand your mind, body, and spirit experiences. So many of us live on autopilot. Is it that we are so scared to question things we have come to make our everyday truths? Or is it the fact that we are so afraid to crawl out from underneath the blanket of security, safety, and protection, to see how really powerful we are Do you realize you can make an amazing impact within yourself and the world around you? I challenge you to explore these questions and to come up with what holds truth in your life.

Spiritual Awakening and Enlightenment Guy Berchik,2023-11-14 Enlightenment or Spiritual awakening is a psychological phenomenon where something of the mind develops, awakens, and unifies, and something else of the mind drops off or surrenders. Some desire spiritual awakening very directly and indeed, very intensely, but it is very difficult to achieve, because spiritual enlightenment is something that happens rather than something that we do. And on the other hand, spiritual awakening does not really happen by itself. There is always some preparation for some

time in whatever form. Some develop intensity through the development of deep understanding that later leads to more intense curiosity that ultimately leads to seeing through the obstacles of the mind, and then a profound surrender occurs as a permanent state of being. Others develop intensity through desire and developing powerful emotions that may lead to the higher awakened state, where the heart blissfully awakens and unites with consciousness. And still others develop intensity through the proper use of suffering, where suddenly they find themselves transformed into awakened conscious beings. This short book describes what happens in the actual experience of spiritual awakening and how to prepare and thus speed up the process. The book also discusses the profound benefits of enlightenment, powers associated with mind development, healing oneself, accomplishing in life, and how to prepare for life after death.

Enlightened-Ish Gail Dickert, 2013-02-12 Enlightenedish is one of the most approachable, down-to-Earth books for anyone seeking a self-guided spiritual awakening. Gails work is honest, inspiring and undoubtedly a refreshing read in a market of deeply esoteric and trite testimonies about spiritual enlightenment and self-empowerment. Gails story begins with the unexpected death of her father. She dedicates herself to writing Enlightened-ish and the belief that this event will guide her to confront death and loss in a way that few have had the courage to do. She comes forward with experiences from childhood and adulthood with an outrageous audacity and authenticity. She confronts the death of her father, the loss of a spiritual community and the effects of witnessing a violent suicide, a health crisis and a break-up - all events which occurred in an 10month period! Her ability to use storytelling as a means of identifying the universal truths that she calls the Twelve Freedoms of Enlightened-ish Living keeps the reader engaged in a polite spiritual voyeurism that has not been matched. Without exception, her tenacity about being fully human and fully enlightened-ish will change the trajectory of spiritualists in every religion. Never before has a memoir been written with so much conviction and humility, then

packaged so powerfully that readers everywhere will be awakened to the power of storytelling. Enlightened-ish is raw, conversational and unforgettable!
