Social Status and Power in Java Leslie H. Palmier,2021-06-23 This book is a closely-observed anthropological study of life in two small Javanese towns and, at the same time, it attempts a general analysis on sociological lines of some key characteristics of contemporary Javanese society. In particular, the author's examination of the manner in which a pre-existing authoritarian system is being adapted to republican institutions grounded in democratic ideas helps us to understand many of Indonesia's present-day social and political problems.

Women in Mycenaean Greece Barbara A. Olsen,2014-04-24 Women in Mycenaean Greece is the first book-length study of women in the Linear B tablets from Mycenaean Greece and the only to collect and compile all the references to women in the documents of the two best attested sites of Late Bronze Age Greece - Pylos on the Greek mainland and Knossos on the island of Crete. The book offers a systematic analysis of women's tasks, holdings, and social and economic status in the Linear B tablets dating from the 14th and 13th centuries BCE, identifying how Mycenaean women functioned in the economic institutions where they were best attested - production, property control, land tenure, and cult. Analysing all references to women in the Mycenaean documents, the book focuses on the ways in which the economic institutions of these Bronze Age palace states were gendered and effectively extends the framework for the study of women in Greek antiquity back more than 400 years. Throughout, the book seeks to establish whether gender practices were uniform in the Mycenaean states or differed from site to site and to gauge the relationship of the roles and status of Mycenaean women to their Archaic and Classical counterparts to test if the often-proposed theories of a more egalitarian Bronze Age accurately reflect the textual evidence. The Linear B tablets offer a unique, if under-utilized, point of entry into women's history in ancient Greece, documenting nearly 2000 women performing over fifty task assignments. From their decipherment in 1952 one major gap in the scholarly record remained: a full accounting of the women who inhabited the palace states and their tasks, ranks, and economic

contributions. Women in Mycenaean Greece fills that gap recovering how class, rank, and other social markers created status hierarchies among women, how women as a group functioned relative to men, and where different localities conformed or diverged in their gender practices.

Intelligence analysis in social media Emil Girdan,2021-02-28 The global security environment, dominated and dependent on information and communication technology, generates an accumulation of disruptive factors for society. This volume, in direct accordance with technological developments that have facilitated information avalanche and (anonymous) communication, has required interdisciplinary research in areas such as: psychology, sociology, computer science, social media communication and legislation. The research aims to establish whether social media platforms, through the actions they facilitate, can pose risks and threats to national security and to identify premises in order to stimulate strategies that should be followed to avoid transforming various forms of online communication into a potentiating and generating factor of crime, radical or extremist opinions, mass manipulation, etc. At the same time, the research offers an alternative vision on approaching the concept of intelligence in the context of the development of social media networks (SocMInt) and promotes ways to improve and streamline how to achieve objectives that can be successfully applied, including in business intelligence. In this regard, a case study is conducted on the effects of CoVid-19 pandemic (SARS-CoV-2 coronavirus) from the perspective of law enforcement agencies. Although the individually exploitation of SocMInt does not provide a comprehensive answer, it must be used in the initial stages of decision-making and effort-making, due to the low costs compared to other Int disciplines. The volume does not present a solution to current problems, but through its didactic, documentary and informative nature it offers professional support at high standards to analysts and managers in decision making.

Defense Support of Civil Authorities (ADP 3-28) Headquarters Department of the Army,2019-09-27 Army doctrine publication (ADP) 3-28 is the doctrinal foundation for the Army's contribution to defense support of civil authorities (DSCA). ADP 3-28 explains how the Army conducts DSCA missions and National Guard civil support missions as part of unified land operations. ADP 3-28 focuses on achieving unity of effort among the Army battalions, brigades, division headquarters, and Army Service component commands conducting DSCA with support from the institutional force and in cooperation with joint and interagency partners. (See Introductory Figure, on page viii for the complete ADP 3-28 logic chart.) The principal audience for ADP 3-28 is all members of the Army profession. Commanders and staffs of Army headquarters serving as joint task force headquarters should also refer to applicable joint doctrine concerning the range of military operations and joint forces.
