A Stopwatch from Grampa Loretta Garbutt, 2020-04-07 A

touching portrayal of the loss of a grandparent. “When summer started, I got Grampa’s stopwatch,” a small child says. “I don’t want his stopwatch. I want him.” Grampa used to time everything. A race to the end of the street and back: 24 seconds. Eating bubblegum ice cream: 1 minute, 58 seconds. But now, Grampa’s gone. “There are no more Grampa minutes, Grampa seconds,” the child says. “Time just stops.” But as time goes on, the stopwatch becomes a cherished symbol of remembrance, and the child uses it to carry on Grampa’s favorite pastimes and traditions. A treasured ritual from the past can sometimes offer the perfect bridge to the future.

KEEPING WATCH PB Michael O'Malley, 1996-04-17 Focusing on the period from 1820 to 1920, *Keeping Watch* details the far-reaching changes in American society brought about by the transition from natural to mechanical sources of time -- from farmers' almanacs and religious formulations of time to regional time zones, synchronized watches, and factory punch clocks. Michael O'Malley shows how the pressures of industrialization, the emergence of the telegraph, and the spread of railroads led to a demand for uniform, consistent schedules. Chronicling particular communities' resistance to standard time and, later, daylight saving time, *Keeping Watch* also examines the cut-and-paste manipulation of real time in motion pictures. The cumulative impact of these technological changes, O'Malley argues, was momentous, creating a harsher ethic of punctuality and an unprecedented degree of labor regimentation. Book jacket.
