The Studio SOS Book Paul White, Hugh Robjohns, Dave Lockwood, 2013-05-29 Professional studio design is a specialized science, with more than a touch of black magic thrown in. Over the past few years, Sound on Sound magazine has made one trip each month to a reader's studio. These visits have demonstrated that it is fairly simple to make a huge improvement to an untreated project-studio room, without spending a fortune. However, they've also proven that beginners' attempts at DIY acoustic treatments often cause more problems than they solve. Utilizing knowledge from dozens of visits to readers' home and project studios, the SOS team imparts easy-to-understand, organized troubleshooting advice. Learn how to rid yourself of monitoring problems and get an accurate monitoring system, how to enhance the sound of your recording space, and how to perfect your instrumental and vocal recordings. Decrease the time you spend re-recording and mixing, simply by improving your room with advice from the guys who have seen it all when it comes to make-do small studios. Contains: A structured look at the problems that most often plague small studios, with individual studio case studies addressing each issue Real solutions that you can both afford and implement; no thousand-dollar investments or idealized studio designs that don't work with your space! Case studies that look at small studios' specific problems, with additional break-outs tips that address quick fixes to common problems

**Inside the Painter's Studio** Joe Fig, 2012-06-19 Inside an art gallery, it is easy to forget that the paintings there are the end products of a process involving not only creative inspiration, but also plenty of physical and logistical details. It is these cruder, more mundane aspects of a painter's daily routine that motivated Brooklyn artist Joe Fig to embark almost ten years ago on a highly unorthodox, multilayered exploration of the working life of the professional artist. Determined to ground his research in the physical world, Fig began constructing a series of diorama-like miniature reproductions of the studios of modern art's most legendary painters, such as Jackson Pollock and Willem de Kooning. A desire for firsthand references led Fig to approach contemporary artists for access to their studios. Armed with a camera and a self-made Artist's Questionnaire, Fig began a journey through the workspaces of some of today's most exciting contemporary artists.

**Shoebox Studio** Stéphane Coutelle, Camille Saint-Jacques, 2012 Shoebox Studio records a moment in a fashion model's career that is rarely seen by a wider public: the model's first getting-acquainted photoshoot, in which no attempt is made to beautify or exaggerate her face, pose or expression. Having produced photo campaigns for some of the world's premier beauty clients (Lancôme, L'Oréal, Revlon), French photographer and painter Stéphane Coutelle is ideally placed to make these portraits of vulnerability and aspiration: his Shoebox Studio sees an unending parade of young women, newly arrived from all over the world and pursuing their first career. His first meeting with a model aims to establish their character and psychology, before professional reflexes take hold, and before complicity is established between photographer and model. Shoebox Studio gathers portraits of aspiring models taken between 2006 and 2010.

**Cézanne in the Studio** Carol Armstrong, 2004-11-01 In the last years of his life Paul Cézanne produced a stunning series of watercolors, many of them still lifes. Still Life with Blue Pot is one of these late masterpieces that is now in the collection of the Getty Museum. In Cézanne in the Studio: Still Life in Watercolors, Carol Armstrong places this great painting within the context of Cézanne's artistic and psychological development and of the history of the genre of still life in France. Still life—like the medium of watercolor—was traditionally considered to be “low” in the hierarchy of French academic paintings. Cézanne chose to ignore this hierarchy, creating monumental still-life watercolors that contained echoes of grand landscapes and even historical paintings in the manner of Poussin—the “highest” of classical art forms. In so doing he changed his still lifes with new meanings, both in terms of his own notoriously difficult personality and in the way he used the genre to explore the very process of looking at, and creating, art. Carol Armstrong's study is a fascinating exploration of the brilliant watercolor paintings that brought Cézanne's career to a complex, and triumphant, conclusion. The book includes new photographic studies of the Getty's painting that allow the reader to encounter this great watercolor as never before, in all of its richness and detail.
