Studio Sally Coulthard, 2017-03-16 Discover what kind of stunning spaces for creative work you can build in your own home no matter your budget with this inspirational DIY guide. Art, craft and all things homemade have never been more popular and the trend for working from home continues apace. But it can be tricky to carve out a space in your house that lets you indulge your passion or earn a living from your creativity. Studio and study spaces are special places—full of creative spirit and practical potential—and there's never been a greater demand for a book that shows you how to carve out a corner that allows you to not only practice your craft, but inspires and facilitates the very work you create. Real-life case studies from seven different countries, ranging from crafters, writers, designers and artists, show readers just what can be achieved on every budget. Many of the studio owners featured have a dedicated and ever-expanding social media following, including fashion designers Kiel James Patrick and Sarah Vickers, woodworker Ariele Alasko, designer Sarah Sherman Samuel, fine artist Lisa Congdon and decor blogger Holly Becker. Detailed chapters outline the vital pieces needed to create a functioning and inspirational studio space, while also taking an in-depth look into different styles of studios for craft and creative activities. With *Studio*, Sally Coulthard shows you that spaces for creativity can be easy to make, look beautiful, and fitted into any home. Praise for *Studio* "A visual feast of a sourcebook . . . features real-life home offices to inspire even the most spatially challenged of us." —Fabric magazine "A fantastic and inspiring volume." —Holly Becker "A lovely peek into lots of different creative studios, from potters to knitters, textile designers to fine artist, and every one is a delight." —The Women's Room "Working from home has never been so stylish." —Ham & High

In the Studio Todd Hignite, 2007-09-21 Nine critically acclaimed cartoonists and graphic novelists invite us into their studios to discuss their art and inspirations. These studio visits with some of today's most popular and innovative comic artists present an unparalleled look at the cutting edge of the comic medium. The artists, some of whom rarely grant interviews, offer insights into the creative process, their influences and personal sources of inspiration, and the history of comics. The interviews amount to private gallery tours, with the artists commenting, now thoughtfully, now passionately, on their own work as well as the works of others. The book is generously illustrated with full-color reproductions of the artists' works, including some that have been published and others not originally intended for publication, such as sketchbooks and personal projects. Additional illustrations show behind-the-scenes working processes of the cartoonists and particular works by others that have influenced or inspired them. Through the eyes of these artists, we see with a new clarity the achievement of contemporary cartoonists and the extraordinary possibilities of comic art.

Cézanne in the Studio Carol Armstrong, 2004-11-01 In the last years of his life Paul Cézanne produced a stunning series of watercolors, many of them still lifes. Still Life with Blue Pot is one of these late masterpieces that is now in the collection of the Getty Museum. In *Cézanne in the Studio: Still Life in Watercolors*, Carol Armstrong places this great painting within the context of Cézanne's artistic and psychological development and of the history of the genre of still life in France. Still life—like the medium of watercolor—was traditionally considered to be “low” in the hierarchy of French academic paintings. Cézanne chose to ignore this hierarchy, creating monumental still-life watercolors that contained echoes of grand landscapes and even historical paintings in the manner of Poussin—the “highest” of classical art forms. In so doing he changed his still lifes with new meanings, both in terms of his own notoriously difficult personality and in the way he used the genre to explore the very process of looking at, and creating, art. Carol Armstrong's study is a fascinating exploration of the brilliant watercolor paintings that brought Cézanne's career to a complex, and triumphant, conclusion. The book includes new photographic studies of the Getty's painting that allow the reader to encounter this great watercolor as never before, in all of its richness and detail.

Studio Studies Ignacio Farías, Alex Wilkie, 2015-10-14 Consider the vast array of things around you, from the building you are in, the lights illuminating the interior, the computational devices mediating your life, the music in the background, even the crockery, furniture and glassware you are in the presence of. Common to all these objects is that their concrete, visual and technological forms were invariably conceived, modelled, finished and tested in sites characterised as studios. Remarkably, the studio remains a peculiar lacuna in our understanding of how cultural artefacts are brought into being and how 'creativity' operates as a located practice. *Studio Studies* is an agenda setting volume that presents a set of empirical case studies that explore and examine the studio as a key setting for aesthetic and material production. As such, *Studio Studies* responds to three contemporary concerns in social and cultural thought: first, how to account for the situated nature of creative and cultural production; second, the challenge of reimagining creativity as a socio-materially distributed practice rather than the cognitive privilege of the individual; and finally, to unravel the parallels, contrasts and interconnections between studios and other sites of cultural-aesthetic and technoscientific production, notably laboratories. By enquiring into the operations, topologies and displacements that shape and format studios, this volume aims to demarcate a novel and important object of analysis for empirical social and cultural research as well to develop new conceptual repertoires to unpack the multiple ways studio processes shape our everyday lives.

Warner Bros David Thomson, 2017-08-08 Behind the scenes at the legendary Warner Brothers film studio, where four immigrant brothers transformed themselves into the moguls and masters of American fantasy Warner Bros charts the rise of an unpromising film studio from its shaky beginnings in the early twentieth century through its ascent to the pinnacle of Hollywood influence and popularity. The Warner Brothers—Harry, Albert, Sam, and Jack—arrived in America as unschooled Jewish immigrants, yet they founded a studio that became the smartest, toughest, and most radical in all of Hollywood. David Thomson provides fascinating and original interpretations of Warner Brothers pictures from the pioneering talkie *The Jazz Singer* through black-and-white musicals, gangster movies, and such dramatic romances as *Casablanca*, *East of Eden*, and *Bonnie and Clyde*. He recounts the storied exploits of the studio's larger-than-life stars, among them Al Jolson, James Cagney, Bette Davis, Errol Flynn, Humphrey Bogart, James Dean, Doris Day, and Bugs Bunny. The Warner brothers' cultural impact was so profound, Thomson writes, that their studio became "one of the enterprises that helped us see there might be an American dream out there."

In the Studio Brian R. Jacobson, 2020-07-21 Studios are, at once, material environments and symbolic forms, sites of artistic creation and physical labor, and nodes in networks of resource circulation. They are architectural places that generate virtual spaces—worlds built to build worlds. Yet, despite being icons of corporate identity, studios have faded into the background of critical discourse and into the margins of film and media history. In response, *In the Studio* demonstrates that when we foreground these worlds, we gain new insights into moving-image culture and the dynamics that quietly mark the worlds on our screens. Spanning the twentieth century and moving globally, this unique collection tells new stories about studio icons—Pinewood, Cinecittà, Churubusco, and CBS—as well as about the experimental workplaces of filmmakers and artists from Aleksandr Medvedkin to Charles and Ray Eames and Hollis Frampton.
