The Subversive Copy Editor Carol Fisher Saller, 2009-08-01 Each year writers and editors submit over three thousand grammar and style questions to the Q&A page at The Chicago Manual of Style Online. Some are arcane, some simply hilarious—and one editor, Carol Fisher Saller, reads every single one of them. All too often she notes a classic author-editor standoff, wherein both parties refuse to compromise on the rights and wrongs of prose styling: This author is giving me a fit. I wish that I could just DEMAND the use of the serial comma at all times. My author wants his preface to come at the end of the book. This just seems ridiculous to me. I mean, it's not a post-face. In *The Subversive Copy Editor*, Saller casts aside this adversarial view and suggests new strategies for keeping the peace. Emphasizing habits of carefulness, transparency, and flexibility, she shows copy editors how to build an environment of trust and cooperation. One chapter takes on the difficult author; another speaks to writers themselves. Throughout, the focus is on serving the reader, even if it means breaking rules along the way. Saller's own foibles and misadventures provide ample material: I mess up all the time, she confesses. It's how I know things. Writers, Saller acknowledges, are only half the challenge, as copy editors can also make trouble for themselves. (Does any other book have an index entry that says terrorists. See copy editors?) The book includes helpful sections on e-mail etiquette, work-flow management, prioritizing, and organizing computer files. One chapter even addresses the special concerns of freelance editors. Saller's emphasis on negotiation and flexibility will surprise many copy editors who have absorbed, along with the dos and don'ts of their stylebooks, an attitude that their way is the right way. In encouraging copy editors to banish their ignorance and disorganization, insecurities and compulsions, the Chicago Q&A presents itself as a kind of alter ego to the comparatively staid *Manual of Style*. In *The Subversive Copy Editor*, Saller continues her mission with audacity and good humor.

PostSecret Frank Warren, 2005-11-29 The project that captured a nation's imagination. The instructions were simple, but the results were extraordinary. You are invited to anonymously contribute a secret to a group art project. Your secret can be a regret, fear, betrayal, desire, confession, or childhood humiliation. Reveal anything -- as long as it is true and you have never shared it with anyone before. Be brief. Be legible. Be creative. It all began with an idea Frank Warren had for a community art project. He began handing out postcards to strangers and leaving them in public places -- asking people to write down a secret they had never told anyone and mail it to him, anonymously. The response was overwhelming. The secrets were both provocative and profound, and the cards themselves were works of art -- carefully and creatively constructed by hand. Addictively compelling, the cards reveal our deepest fears, desires, regrets, and obsessions. Frank calls them graphic haiku, beautiful, elegant, and small in structure but powerfully emotional. As Frank began posting the cards on his website, PostSecret took on a life of its own, becoming much more than a simple art project. It has grown into a global phenomenon, exposing our individual aspirations, fantasies, and frailties -- our common humanity. Every day dozens of postcards still make their way to Frank, with postmarks from around the world, touching on every aspect of human experience. This extraordinary collection brings together the most powerful, personal, and beautifully intimate secrets Frank Warren has received -- and brilliantly illuminates that human emotions can be unique and universal at the same time.

Best Tips and Tricks for Bloggers and Webmasters Shashikant Nishant Sharma, Blog Marketing for Beginners Marissa Harper, 2013-07-08 Whether you are a new blogger, or one that has been blogging for a while, you are probably wondering how to get more sales, visitors, and readers to your blog on a weekly basis. Marketing your blog the right way will give you the results that you are looking for. You are going to find that you cannot just make a blog, post in it a couple of times, and then expect for the world to find you. That just will not happen no matter how much you wish for it. However, you can market your blog effectively, and get the results that you are looking for. Blog marketing is pretty easy if you have a marketing mind. You are going to find that many people use blogs as a diary, and many times these blogs that are used for this purpose are not intended to make them money, but simply a way to put their thoughts out there and find others that are going through the same thing. If you have never even had a blog before, the simplest thing that you can do is to start one, and just journal in it for a while. This will allow you to learn just what it takes and what it is all about to keep up a blog. When you are just journaling your thoughts and what is on your mind, you have nothing to lose and nothing to gain. You don't even have to make your blog public if you don't want others to read what you have to say. That is a personal preference. However, doing this will let you see how it works. Then you can move on to trying to market a product or a service.
