Esoteric Principles Of Vedic Astrology Bepin Behari, This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

The Magic of SarvotBhadra Chakra Anu Kumari, Vijay Dubey, 2021-07-06 Sarvatobhadra Chakra is a tool used as part of planetary transits. The word Savtobhadra means overall auspiciousness (Sarva- overall; Bhadra- auspiciousness) and takes into account almost all the factors in Vedic astrology, namely, 28 constellations, 12 zodiac signs, 30 tithis, 7 days of the week and 50 letters (Sanskrit). letters)) and hence can be used for various analyzes of planetary transits. Though the main focus here is analysis of transits, it can also be used for horoscope analysis, dasha analysis etc. This chart has $9 \times 9 = 81$ boxes containing constellations, signs, dates, weekdays or letters. For reference purposes, I have named the columns 1 to 9 and the rows A to 1, although this is not the case in astrological texts and other astrologers. I think naming the rows and columns would make it easier to refer to a particular box. In a later article, the boxes will be referred to as A1 (Row A, Column 1), I9 (Row I, Column 9), etc.

Astrology and Cosmology in the World's Religions Nicholas Campion,2012-06-11 When you think of astrology, you may think of the horoscope section in your local paper, or of Nancy Reagan's consultations with an astrologer in the White House in the 1980s. Yet almost every religion uses some form of astrology: some way of thinking about the sun, moon, stars, and planets and how they hold significance for human lives on earth. Astrology and Cosmology in the World's Religions offers an accessible overview of the astrologies of the world's religions, placing them into context within theories of how the wider universe came into being and operates. Campion traces beliefs about the heavens among peoples ranging from ancient Egypt and China, to Australia and Polynesia, and India and the Islamic world. Addressing each religion in a separate chapter, Campion outlines how, by observing the celestial bodies, people have engaged with the divine, managed the future, and attempted to understand events here on earth. This fascinating text offers a unique way to delve into comparative religions and will also appeal to those intrigued by New Age topics.

Rahu and Ketu in Predictive Astrology: North and South Nodes of the Moon Dr Prem Kumar Sharma,Manisha Koushik,2024-02-24 It is a well-established fact that since Vedic astrology has its basis in Vedic knowledge, it is as old as human creation and has been used from time immemorial to dispel the unfounded horrors and prejudices of the human mind. Rahu and Ketu, the two nodal points of the Moon, constitute the core of Vedic astrology. Ancient Indian seers visualised the north and the south nodes of the Moon as the most interesting and mysterious planetary influences. However, Rahu and Ketu have either been ignored or misunderstood in studies of Vedic astrology. This book is an attempt to dispel the darkness that surrounds Rahu and Ketu so that they can be better understood and their importance in Vedic astrology appreciated. By no means the final word on Rahu and Ketu, this book attempts to provide readers with a practical understanding of these two nodes so that they can be placed in perspective. The

book also provides other insights into Vedic astrology. The use of horoscopes of some prominent persons makes an understanding of Rahu and Ketu easier both for astrology enthusiasts and for other readers.
