**Are You Ready to Play 3D Tic Tac Toe ?** Unsung Heroes,2020-01-26 Really GOOD as a gift to your friend and families or your enemies.Instructions:This is a game for two players.One player chooses X and one chooses OEach player takes it in turns to place their mark (X or O) on an empty square in the grid The winner is the first player to get four in a row in any direction - horizontally,vertically or diagonally.Winning lines can stretch across all four grids as long as they make a straight line from corner to corner.A variation of this game is instead of playing to make one row of four, the goal is to make as many rows of three as possible.3D Tic Tac Toe is an advanced version of the regular Tic Tac Toe game.This game was particularly popular in the 1970s when Parker Bros. released a board game called Qubic, 3M sold a printed pad of Tic Tac Toe games and Atari released a video game version. Qubic is no longer available but the rules and strategy tips are still available on Hasbro's website here: <https://www.hasbro.com/common/instruct/Qubic.pdf>At the time of launching this update, '3D Tic Tac Toe' gets 56,500 monthly searches on Google and there are NO 3D Tic Tac Toe books available on Amazon. The game is played on a 4x4x4 cubic grid. 3x3x3 versions have been made but they aren't a fun game play experience as the game is usually quickly won! This game is easy to learn but the strategy is complex to master.

*Social Studies* Laurie E. Westphal,2007 Differentiating Instruction With Menus offers teachers everything they need to create a student-centered learning environment based on choice. Addressing the four main subject areas (language arts, math, science, and social studies) and the major concepts taught within these areas, these books provide a number of different types of menus that elementary-aged students can use to select exciting products that they will develop so teachers can assess what has been learned—instead of using a traditional worksheet format. Each book contains attractive reproducible menus, each based on the levels of Bloom's revised taxonomy, for students to use to guide them in making decisions as to which products they will develop after studying a major concept or unit. Using creative and challenging choices found in Tic-Tac-Toe Menus, List Menus, 2-5-8 Menus, Baseball Menus, and Game Show Menus, students will look forward to sharing their newfound knowledge throughout the year. Also included are specific guidelines for products, rubrics for assessing student products, and teacher introduction pages for each menu. This book includes menus that teach students about ancient history, American history, government, U.S. documents, people in history, and geography.
