Ticker Mimi Swartz,2019-09-10 It wasn't supposed to be this hard. If America could send a man to the moon, shouldn't the best surgeons in the world be able to build an artificial heart? In Ticker, Texas Monthly executive editor and two time National Magazine Award winner Mimi Swartz shows just how complex and difficult it can be to replicate one of nature's greatest creations. Part investigative journalism, part medical mystery, Ticker is a dazzling story of modern innovation, recounting fifty years of false starts, abysmal failures and miraculous triumphs, as experienced by one the world's foremost heart surgeons, O.H. "Bud" Frazier, who has given his life to saving the un-savable. His journey takes him from a small town in west Texas to one of the country's most prestigious medical institutions, The Texas Heart Institute, from the halls of Congress to the animal laboratories where calves are fitted with new heart designs. The roadblocks to success –medical setbacks, technological shortcomings, government regulations – are immense. Still, Bud and his associates persist, finding inspiration in the unlikeliest of places. A field beside the Nile irrigated by an Archimedes screw. A hardware store in Brisbane, Australia. A seedy bar on the wrong side of Houston. Until post WWII, heart surgery did not exist. Ticker provides a riveting history of the pioneers who gave their all to the courageous process of cutting into the only organ humans cannot live without. Heart surgeons Michael DeBakey and Denton Cooley, whose feud dominated the dramatic beginnings of heart surgery. Christian Barnard, who changed the world overnight by performing the first heart transplant. Inventor Robert Jarvik, whose artificial heart made patient Barney Clark a worldwide symbol of both the brilliant promise of technology and the devastating evils of experimentation run amuck. Rich in supporting players, Ticker introduces us to Bud's brilliant colleagues in his quixotic quest to develop an artificial heart: Billy Cohn, the heart surgeon and inventor who devotes his spare time to the pursuit of magic and music; Daniel Timms, the Brisbane biomedical engineer whose design of a lightweight, pulseless heart with but a single moving part offers a new way forward. And, as government money dries up, the unlikeliest of backers, Houston's furniture king, Mattress Mack. In a sweeping narrative of one man's obsession, Swartz raises some of the hardest questions of the human condition. What are the tradeoffs of medical progress? What is the cost, in suffering and resources, of offering patients a few more months, or years of life? Must science do harm to do good? Ticker takes us on an unforgettable journey into the power and mystery of the human heart.

Hope's courage and determination enables her to withstand many trials. Only through the eyes of a child can one believe all things are possible. Ticker Tittle Tattles is a book for the child in all of us.

Ticker Tape Tammy Marshall,2021-07-28 Marvin Wineski is a washed-up Vietnam War veteran who gets a second chance at life. He grudgingly participates in the New York City ticker tape parade in honor of Vietnam vets. This one event is the catalyst for all that follows. With the unexpected support of someone from his past, his journey will take him back to Vietnam to find his true purpose. If you believe in second (and third or even fourth) chances, like I do, then join Marvin on his quest to rebuild a life that was hijacked by war.

Ticker Mark Neely,2021 Mark Neely's third collection, Ticker, follows the life of its main character, Bruce, as he navigates marriage, children, aging parents, politics, race, religion, global catastrophe, and the irrelevance of middle age. Throughout the book the dueling voices in Bruce's head, which range from comic to bitter to revelatory, compete for control of his inner life. From formal to freewheeling, Neely's poems showcase a unique and essential voice in American poetry.

The Ticker Robert M. Davis,2013-08

Ladies of the Ticker George Robb,2017-08-16 Long overlooked in histories of finance, women played an essential role in areas such as banking and the stock market during the late nineteenth and early twentieth centuries. Yet their presence sparked ongoing controversy. Hetty Green's golden touch brought her millions, but she outraged critics with her rejection of domesticity. Progressives like Victoria Woodhull, meanwhile, saw financial acumen as more important for women than the vote. George Robb's pioneering study sheds a light on the financial methods, accomplishments, and careers of three generations of women. Plumbing sources from stock brokers' ledgers to media coverage, Robb reveals the many ways women invested their capital while exploring their differing sources of information, approaches to finance, interactions with markets, and levels of expertise. He also rediscovers the forgotten women bankers, brokers, and speculators who blazed new trails--and sparked public outcries over women's unsuitability for the predatory rough-and-tumble of market capitalism. Entertaining and vivid with details, Ladies of the Ticker sheds light on the trailblazers who transformed Wall Street into a place for women's work.
