The Retreat of Liberal Democracy Gábor Scheiring, 2020-08-26 This book is the product of three years of empirical research, four years in politics, and a lifetime in a country experiencing three different regimes. Transcending disciplinary boundaries, it provides a fresh answer to a simple yet profound question: why has liberal democracy retreated? Scheiring argues that Hungary's new hybrid authoritarian regime emerged as a political response to the tensions of globalisation. He demonstrates how Viktor Orbán's Fidesz exploited the rising nationalism among the working-class casualties of deindustrialisation and the national bourgeoisie to consolidate illiberal hegemony. As the world faces a new wave of autocratisation, Hungary's lessons become relevant across the globe, and this book represents a significant contribution to understanding challenges to democracy. This work will be useful to students and researchers across political sociology, political science, economics and social anthropology, as well democracy advocates.
