A Place to Hide a Place to Seek Thelma Mabry,2014-07-31 Are you going through a personal storm this very minute? Did you just come out of a storm that left you battered, bruised, and weakened? Do you have days when it seems like the storms just wont cease? If you answered yes to either of these questions, you need a place of refuge. You need a place to hide to prevent further damage and to heal. You also need a place to seek Gods guidance and direction for your life. We may not be able to prevent the storms from coming into our lives, but we can have a place of refuge to prepare us to withstand any level of damage. A Place to Hide, A Place to Seek is designed to take you on a journey to achieving the power God wants to see working in our lives. It is designed to prepare you for whatever level of force any storm may bring. The journey begins in the City of Praise. We will then travel a short distance to the City of Prayer. After we have spent some time on our knees, we will journey to the City of Promise. The next important city is the City of Peace. After we have peace, we need the City of Perseverance. We must be able to hang in there. The next city is the City of Prosperity. You have probably been waiting for this city. The last city, the one we need for God to do exceedingly, abundantly in our lives, is the City of Power. Let the journey begin!

The Right to Seek Refugee Status in the European Union Sylvie Da Lomba,2004 This book measures EC/EU asylum initiatives against international refugee and human rights standards and makes law reform proposals to ensure compliance with international standards. It identifies four areas of concern: the interpretation of the 1951 Convention definition of a refugee; access to asylum procedures; the establishment of fair and effective procedures; and the asylum seekers' status pending the determination of their asylum claims. The author argues that any departure from international standards by the EU and its Member States risks undermining the right to seek refugee status and protection as a humanitarian concept. The author also considers Member states' laws and practices, with special emphasis on the United Kingdom and France. This inclusion reflects the mutual influence that national and European measures exercise on one another and reveals existing discrepancies and tensions between national laws and practices. The author urges the European Union to remain true to its commitment to the Treaty of Amsterdam and its humanitarian tradition and vision.

Learning to Seek Walter Truett Anderson,James A. Dator,Majid Tehranian,2011-12-31 The accelerating technological transformation in learning has necessitated an ability to search and differentiate among the one billion web pages, libraries, databases, books, newspapers, magazines, radio and television stations, and opinion columns available online. This volume focuses on the normative challenges that the current technological transformation presents to all professionals engaged in higher education. Part I concentrates on the current social and technological trends. David Snyder presents an outline of technologies that have made open knowledge systems possible. Majid Tehranian argues that the new technological environment has made learning to seek out information more possible than ever before. Robert Fuller calls for an egalitarian rather than hierarchical approach to communication systems. Harlan Cleveland proposes integrative learning, broad thinking, and globally aware citizenship through education for wisdom. Part II focuses on problems of governance and finance in the new technological environment. John Hinchcliff takes up the problem of values and argues for the maintenance of traditional altruistic rather than Promethean goals. Karou Yamaguchi comes to the problem of the futures with the tools of system dynamics. William Bergquist calls for a reorganization of higher education to meet the needs for creation, transfer, and inculcation of knowledge and skills. Hamid Shirvani calls for the core values of transparency, integrity, open communication, and dignitarian approach as the guideposts in educational leadership. Walter Truett Anderson concludes by attempting to bring the complex technological, social, economic, and political variables into a holistic approach for the management of higher education. In 2005, at the Universities of the Future Conference, participants were asked to envision the future of higher education. Part III, presents their visions.

How to Seek the Kingdom of Heaven Within You Richard Franza,2019-03-13 This book is an invaluable book to possess because in this book, I provide the reader with certain important ideas in life and a way on how anyone can seek the kingdom of heaven within themselves. This book is a must-read book especially for those individuals who are Christians, but anyone can gain by reading this book. I had went out of my way to write this book with the hope that I will encourage the reader of it to search for the kingdom of heaven within themselves, if they are not doing this already. I strongly suggest that you at least read this book once and see for yourself that it is of immense value in life.
