The Trail Meika Hashimoto,2017-07-25 An exciting and deeply moving story of survival, courage, and friendship on the Appalachian Trail. Toby has to finish the final thing on The List. It's a list of brave, daring, totally awesome things that he and his best friend, Lucas, planned to do together, and the only item left is to hike the Appalachian Trail. But now Lucas isn't there to do it with him. Toby's determined to hike the trail alone and fulfill their pact, which means dealing with little things -- the blisters, the heat, the hunger -- and the big things -- the bears, the loneliness, and the memories. When a storm comes, Toby finds himself tangled up in someone else's mess: Two boys desperately need his help. But does Toby have any help to give? The Trail is a remarkable story of physical survival and true friendship, about a boy who's determined to forge his own path -- and to survive.

Set authentically in the High Sierra and fused with insightful accounts of history and ecology, The Trail illustrates how wilderness can serve as our greatest guide.

The Flames Sophie Haydock,2023-03-14 Set in the extravagant, Bohemian art world of early 20th century Vienna, the electrifying untold story of the four women who posed for and inspired the groundbreaking erotic art of controversial painter Egon Schiele Amid an opulent society living under the shadow of war are four muses, women whose bodies were shown in intimate detail, depicted by the charming yet controversial artist Egon Schiele. Adele, his passionate and fierce admirer; Gertrude, his sister who survived their blighted childhood but is possessive, single-minded, and jealous; his mistress Vally, a poor young woman from a bad background but with steel at her core; and the two, very different, Harms sisters, Edith and Adele, both of whom vie to become Schiele's wife. Over the course of little more than a decade, the four women risk everything—their reputations, their most precious relationships, and their sanity and souls—as they try to hold on to the man they adore. As World War I throws their lives off course forever, and the Spanish influenza pandemic ravages Europe, threatening everyone in its path, one question remains: Will any of them emerge unscathed from their relationship with this man? Sophie Haydock's The Flames reimagines the intertwining lives of these women: four wild, blazing hearts longing to be known. In an elegant Bohemian city like 1900s Vienna, everything seems possible. But just as a flame has the power to mesmerize, it can also destroy.
