Chemistry Nivaldo J. Tro,2011-11-21 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This innovative text explains difficult concepts in a relevant, student-oriented manner. Chemistry is presented visually through multi-level images—macroscopic, molecular and symbolic representations—helping you see the connections among the formulas (symbolic), the world around you (macroscopic), and the atoms and molecules that make up the world (molecular). Among other revisions, the Second Edition offers a crisp new design, adds more challenging problems, and significantly revises coverage of electrochemistry. This is just the standalone book if you want the book/access kit order: 0321706153 / 9780321706157 Chemistry: A Molecular Approach with MasteringChemistry® Package consists of: 0321651782 / 9780321651785 Chemistry: A Molecular Approach 0321695348 / 9780321695345 MasteringChemistry® with Pearson eText Student Access Kit for Chemistry: A Molecular Approach

Tro Nivaldo J.. Tro,2014-08-11 For one-semester courses in Preparatory Chemistry Make chemistry relevant to students Now in its fifth edition, Introductory Chemistry continues to foster deep engagement in the course by showing how chemistry manifests in students' daily lives. Author Nivaldo Tro draws upon his classroom experience as an award-winning instructor to extend chemistry from the laboratory to the student's world, capturing student attention with relevant applications and a captivating writing style. This program provides a better teaching and learning experience—for you and your students. It will help you to: * * Enable deep conceptual understanding: Several new Conceptual Checkpoints and Self-Assessment Quizzes help students better grasp key concepts. * Foster development of problem-solving skills: A step-by-step framework encourages students to think logically rather than simply memorize formulas. Additional worked examples, enhanced with audio and video, reinforce challenging problems. * Encourage interest in chemistry: The inclusion of concrete examples of key ideas throughout the program keeps students engaged in the material. Personalize learning with (optional) MasteringChemistry(R): This data-validated online homework, tutorial, and assessment program helps students quickly master concepts, and enables instructors to provide timely intervention when necessary.

Introductory Chemistry Nivaldo J. Tro, 2017-01-04 For one-semester courses in Preparatory Chemistry Builds 21st century and problem solving skills, preparing students for success Now in its 6th Edition, the best-selling Introductory Chemistry continues to encourage student interest by showing how chemistry manifests in students' daily lives. Author Nivaldo Tro draws upon his classroom experience as an award-winning instructor to extend chemistry from the laboratory to the student's world, capturing student attention with relevant applications and an engaging writing style. The text provides a superior teaching and learning experience, enabling deep conceptual understanding, fostering the development of problem-solving skills, and encouraging interest in chemistry with concrete examples. Extending chemistry from the lab to the student's world, the text reveals that anyone can master chemistry. Refined to meet its purpose of teaching relevant skills, the 6th Edition includes new questions, data, and sections to help students build the 21st century skills necessary to succeed in introductory chemistry and beyond. Already a visual text, in this edition the art has been further refined and improved, making the visual impact sharper and more targeted to student learning. The new edition also includes new Conceptual Checkpoints, a widely embraced feature that emphasizes understanding rather than calculation, as well as a new category of end-of-chapter questions called Data Interpretation and Analysis, which present real data in real life situations and ask students to analyze and interpret that data. Also available with Mastering Chemistry. Mastering(tm) Chemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content and encourage critical thinking and retention with in-class resources such as Learning Catalytics(tm). Students can further master concepts through homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. This idea is the entire factor for his seminal new text-- Chemistry: Structure and Properties. Dr. Tro emphasizes the relationship between structure and properties, establishes a unique approach to teaching chemistry by presenting atomic and bonding theories early in the text, and stresses key themes throughout. The book is organized to present chemistry as a logical, cohesive story from the microscopic to the macroscopic, so students can fully grasp

the theories and framework behind the chemical facts. Every topic has been carefully crafted to convey to students that the relationship between structure and properties is the thread that weaves all of chemistry together. While developed independently of other Tro texts, *Chemistry: Structure and Properties* incorporates the author's vivid writing style, chemical rigor, dynamic multi-level images, and tested features. His consistent conceptual focus and step-by-step problem-solving framework encourages you to think through processes rather than simply memorize content. Interactive media within MasteringChemistry® complements the book's problem-solving approach, thus creating a comprehensive program that enables you to learn both in and out of the classroom. This program presents a better teaching and learning experience-for you. Personalized learning with MasteringChemistry: This online homework, tutorial, and assessment program is designed to improve results by helping you quickly master concepts. You'll benefit from self-paced tutorials, featuring specific wrong-answer feedback and hints that emulate the office-hour experience. Developed with a central theme and by a teaching community: As part of a community that teaches with the understanding that matter is composed of particles and the structure of those particles determines the properties of matter, Dr. Tro took great lengths in the text to ensure that everything from organization, art, and pedagogy reinforce this theme. The result of this emphasis is that the topic order has been constructed to make key connections earlier, stronger, and more often than the traditional approach. Linking conceptual understanding with problem-solving skills: Throughout each chapter, numerous Conceptual Connections encourage comprehension of the most complex concepts while a consistent step-by-step framework in the worked examples allows you to think logically through the problem-solving process. Visualizing and understanding chemistry: Revolutionary multipart images illustrate and reinforce the theme of the text and allows you to see and experience the molecules responsible for the structures and properties of matter. Note: You are purchasing a standalone product; MasteringChemistry does not come packaged with this content. If you would like to purchase both the physical text and MasteringChemistry search for ISBN-10: 0321729730/ISBN-13: 9780321729736. That package includes ISBN-10: 0321834682/ISBN-13: 9780321834683 and ISBN-10: 0321934105/ISBN-13: 9780321934109. Chemistry in Focus Nivaldo J. Tro, 1998-07 What does matter look like at the molecular and atomic level? Why are leaves green? Why do colored fabrics fade upon repeated exposure to sunlight? Why does a pencil leave a mark when dragged across a sheet of paper? All of these basic questions have molecular answers that teach and illustrate chemical principles. Nivaldo Tro introduces each concept with a thought experiment, then develops the chemical principles and concepts involved in a molecular understanding of the experiment. Once students have grasped the basic concepts, they are introduced to consumer applications and environmental problems related to the concepts. Mathematical aspects of chemistry are optional.

Know It All Chemistry Nivaldo Tro, 2017-06-01 Chemistry can be a daunting subject for someone on the outside, that's exactly why Know It All Chemistry is here to show you the basics! As the central science that bridges biology and physics, chemistry explains the diversity of all things tangible at a molecular level. If you come to understand the inner workings of chemistry, you can understand everything, because chemistry is the science of matter -- its composition, structure, properties, and how it changes. Know It All Chemistry is your key to jumping into this massive subject. As you read through this beautifully designed book, you'll learn why some things oxidize and others explode; why food is good to eat and coal is not. As you come to understand chemistry and know what reasonable expectations you can have of a product, and how to separate fact from fiction. Chemistry is the heart of cooking, it can keep you safe, and it explains why things work. This book brings the subject out of the lab and boils it down to its essential elements.

Chemistry in Focus: A Molecular View of Our World Nivaldo Tro, 2008-08-13 A MOLECULAR VIEW OF OUR WORLD, 4e helps students truly connect with the microscopic world. Thoroughly revised and updated with the latest research and developments, the fourth edition develops students' appreciation for the molecular world as it stresses the fundamental role it plays in their daily lives. Packed with insightful

illustrations, the text helps students understand the major scientific, technological, and environmental issues affecting our society by clearly identifying and explaining connections between the molecular world and microscopic world as well as between principles and applications. Renowned for his student-friendly writing style, Dr. Tro helps students understand the importance and relevance of chemistry to their world. The text's comprehensive coverage includes unique chapters on Nanotech, Light/Color, and more. Innovative study aids and technological tools help students maximize their success in the course. It contains learning objectives, chapter summaries and outlines, as well as examples, self tests and concept questions.

Tro' Kel's War Dann Miller, 2015-07-21 Tro' Kel, horribly disfigured and left for dead as a young boy, is saved by a member of the Asyr Scourge Hunters. Rescued by the man who was to become his mentor, Tro' Kel learns the ways of the A.S.H. to become a powerful fighter in the war against the Mul Scourge - the cruel force that killed his family and left him to die. Sworn on a personal mission to enact his revenge on those that did this, Tro' Kel is willing to do anything it takes to complete this all-consuming obsession. Rising through the ranks to become one of the most recognized hunters in history, Tro' Kel's skill and prowess in battle quickly set him apart from the others. In a world that is struggling to survive from the ravages of a catastrophic event that changed the face of the planet and the oppression of the Scourge who are bent on controlling everything, the A.S.H. do what they can to keep hope alive. With the help of those around him, Tro' Kel fights for the ultimate goal of the A.S.H. - freedom, but secretly all he wishes to do is be the one to give the death blow to those that changed his life forever. In the course of Tro' Kel's journey, he is confronted by many physical, mental, and spiritual obstacles that he must overcome. Assisted by an eager protege, a no-nonsense mechanic, and the guidance of his father's and mentor's words, Tro' Kel battles against the Scourge and himself. Will he give in to his rage and choose his personal vendetta, or will he accept the role of the much-needed leader of the A.S.H.?
