**Tweak** Nic Sheff, 2012-12-11 THE NEW YORK TIMES BESTSELLER NOW A MAJOR FILM, STARRING STEVE CARELL AND BAFTA AND GOLDEN GLOBE NOMINATED TIMOTHEE CHALAMET 'It was like being in a car with the gas pedal slammed down to the floor and nothing to do but hold on and pretend to have some semblance of control. But control was something I'd lost a long time ago.' Nic Sheff was drunk for the first time at age 11. In the years that followed, he would regularly smoke pot, do cocaine and ecstasy, and develop addictions to crystal meth and heroin. Even so, he felt like he would always be able to quit and put his life together whenever he needed to. It took a violent relapse one summer to convince him otherwise. In a voice that is raw and honest, Nic spares no detail in telling us the compelling true story of his relapse and the road to recovery. He paints an extraordinary picture for us of a person at odds with his past, with his family, with his substances, and with himself. *Tweak* is a raw, harrowing, and ultimately hopeful tale of the road from relapse to recovery and complements his father's parallel memoir, *Beautiful Boy*. Praise for Nic Sheff:- 'Difficult to read and impossible to put down.' Chicago Tribune 'Nic Sheff's wrenching tale is told with electrifying honesty and insight.' Armistead Maupin

Tweak to Transform Mike Hughes, 2002-06-01 Improving teaching is the key to genuine and sustainable school improvement. Improvement involves persuading teachers to change and develop their practice but, as anyone who has ever tried will testify, this is far from easy. The focus of Tweak to Transform is what head teachers and school leaders can do to manage the change process and improve the quality of teaching in a school. Essentially, Tweak to Transform is a practical handbook that seeks to address three questions: - What do we know about change? - What do we know about learning? - What do we know about leading and managing the improvement process? While there is no single successful recipe for improving teaching in a school, this book attempts to establish some key principles. The result is a collection of thoughts, activities strategies and models that have been developed and successfully implemented in a wide range of schools.

*Regulation of Tissue Responses: The TWEAK/Fn14 Pathway and other TNF/ TNFR Superfamily Members that Activate Noncanonical NFkB Signaling* Linda C. Burkly, Timothy S. Zheng, John Silke, 2016-01-21 The immune system mediates tissue responses under both physiological and pathological conditions, impacting the inflammatory, fibrogenic and regenerative components. In addition to various leukocyte subsets, it is now recognized that epithelial, endothelial and other non-hematopoietic tissue cell types actively contribute to the interplay shaping tissue responses. Further understanding the molecular pathways and mechanisms mediating these tissue responses is of great interest. In the past decade, TNF-like weak inducer of apoptosis (TWEAK) and its receptor, FGF-inducible molecule-14 (Fn14), members of the TNF/TNFR superfamily, have emerged as a prominent molecular axis regulating tissue responses. Generally leukocyte-derived, TWEAK signals through Fn14 which is highly induced in injured and diseased tissues on the surface of parenchymal, stromal and progenitor cells, thereby orchestrating a host of tissue-shaping responses, including inflammation, angiogenesis, cell proliferation or death, and the regulation of progenitor cells. Compelling preclinical results indicate that whereas transient TWEAK/Fn14 activation promotes productive tissue responses after acute injury, excessive or persistent TWEAK/Fn14 activation drives pathological tissue responses, leading to progressive damage and degeneration in target organs of injury, autoimmune and inflammatory diseases and cancer. Given that the highly inducible pattern of Fn14 expression is well conserved between mouse and man, the role of TWEAK/Fn14 in human disease is an area of intense investigation. Recent findings have also begun to shed light on how the TWEAK/Fn14 pathway fits into the immune network, interplaying with other well-established pathways, including TNF $\alpha$ , IL-17, IL-13 and TGF $\beta$ , in regulating tissue responses. The noncanonical nuclear factor  $\kappa$ B (NF $\kappa$ B) pathway plays a role in immunity and disease pathologies and appears to be activated by only a subset of TNF/ TNFR superfamily members. Of the various signaling pathways downstream of TWEAK/Fn14, particular attention has been placed on the noncanonical NF $\kappa$ B pathway given that TWEAK induces acute activation of canonical NF $\kappa$ B but prolonged activation of noncanonical pathway. Thus dovetailing of the TWEAK/Fn14 axis with noncanonical NF $\kappa$ B pathway activation may be a key mechanism underlying tissue responses. Also of great interest is a deeper understanding of where, when and how tissue responses are regulated by other TNF/ TNFR superfamily members that can signal through noncanonical NF $\kappa$ B. This Research Topic issue will cover: 1. TWEAK/Fn14 pathway biology, role in tissue responses, injury, and disease pathogenesis 2. Role of noncanonical NF $\kappa$ B signaling cascade in tissue responses 3. Translational studies of relevance of TWEAK/Fn14 and noncanonical NF $\kappa$ B in human disease 4. Other TNF superfamily members' signaling through noncanonical NF $\kappa$ B in the regulation of tissue responses 5. Reviews and Perspectives on the above

Tweaked: A Crystal Meth Memoir Patrick Moore, 2017-04-26 This candid memoir of addiction and recovery shares an intimate chronicle of life from Midwestern childhood to NYC's drug-fueled underground. Patrick Moore's account of life as a crystal meth addict combines heartbreaking honesty with rare insight and surprising humor. It chronicles a twenty-year trip stretching from Moore's lonely childhood in Iowa to the day he sits, naked, in a Los Angeles rental, hallucinating about psycho-robbers while talking to a possum he's sure is God. Along the way, there are acid trips at the V.F.W., Dexetrim study halls, teeth-grinding nights of dancing and anonymous sex in New York City's hottest eighties clubs. He takes pictures of Andy Warhol, loses friends and lovers, and navigates a Byzantine underworld of cooks, users, club kids, dealers, and colorful characters as intense as the drug itself. Through Patrick's vivid retelling, you'll meet Lee, the glamorous bad boy with a taste for danger; Tony, the tweaker who likes to remove his eyebrows; Ding-Dong, the Depends-wearing, nearly blind housemate; Hisako, the artist and squatter with a fondness for hot plate cooking; Mother Judy, the tough, butch rehab counselor who takes no prisoners, and countless others on the road from crystal meth hell to eventual sobriety.
