What intellectual, social and political assets did they bring to the White House, and how quickly did they deplete or mortgage that capital? How well did they cope with crises, foreign and domestic? How much attention did they pay to their election pledges after they were elected? How did they use the media, old and new? Above all, how did they conduct themselves in office and what legacy did they leave to their successors? Graubard provides original analysis in each case, and reaches many surprising conclusions.

Presidents and Presidencies in American History [4 volumes] Jolyon P. Girard,2019-10-07 This innovative encyclopedia explores the life and times of America's forty-five presidents—from the first administration to that of Donald Trump. Forty-five men have served as President of the United States since George Washington swore the oath of office in 1789 in New York City. Some have proved exceptional leaders, and others have not. Some have faced serious crises, both foreign and domestic. Franklin Roosevelt was elected to four terms, leading the country through a major economic depression and a world war, while one held the office for only a

single month. Each, however, played a key role in the evolution of United States history. Each of their histories therefore remains a critical civics lesson to consider. This four-volume encyclopedia provides an expansive analysis of the life and times of each United States president in chronological order from George Washington to Donald Trump. Each chapter includes a timeline, a biographical sketch, a historical overview, and an analytical essay concerning the president and his presidency. Each also includes a substantial selection of related primary documents presenting important presidential speeches and correspondence. A suggested reading list for further study of each president rounds out each entry.
