United Cerebral Palsy (UCP). , United Cerebral Palsy (UCP), based in Washington, D.C., is an organization dedicated to advancing the independence, productivity, and full citizenship of people with cerebral palsy and other disabilities. UCP discusses the UCP Research Foundation, sponsorships and donations, advocacy and public policy, and public awareness of cerebral palsy.

The Lofts of SoHo Aaron Shkuda, 2016-04-18 American cities entered a new phase when, beginning in the 1950s, artists and developers looked upon a decaying industrial zone in Lower Manhattan and saw, not blight, but opportunity: cheap rents, lax regulation, and wide open spaces. Thus, SoHo was born. From 1960 to 1980, residents transformed the industrial neighborhood into an artist district, creating the conditions under which it evolved into an upper-income, gentrified area. Introducing the idea—still potent in city planning today—that art could be harnessed to drive municipal prosperity, SoHo was the forerunner of gentrified districts in cities nationwide, spawning the notion of the creative class. In *The Lofts of SoHo*, Aaron Shkuda studies the transition of the district from industrial space to artists' enclave to affluent residential area, focusing on the legacy of urban renewal in and around SoHo and the growth of artist-led redevelopment. Shkuda explores conflicts between residents and property owners and analyzes the city's embrace of the once-illegal loft conversion as an urban development strategy. As Shkuda explains, artists eventually lost control of SoHo's development, but over several decades they nonetheless forced scholars, policymakers, and the general public to take them seriously as critical actors in the twentieth-century American city.

UCP's Guide to Uncovering the Right on Campus WRIS/University Conversion Project, 1994
From A to UCP 2nd Edition Kim Sindberg, C.S Vijaya Kumar, 2022-11-04 This book explains 38

key documentary credit concepts in a clear and simple manner. But not only that; also taking it out of its context so that one can approach one concept when it is appropriate. The idea is to describe each of these concepts as short as possible (and present them in alphabetic order) and primarily from the perspective of the documentary credit.

Ucp 600 Search and Check Publishers,2020-01-31 Commercial letters of credit are the lifeblood of the international trade system and, for more than 70 years, the International Chamber of Commerce (ICC) has established the rules governing documentary credits worldwide. Used by letter of credit practitioners (including bankers, traders, lawyers, transporters, academics and all who deal with letter of credit transactions worldwide), Uniform Customs and Practice for Documentary Credits (UCP) are the most successful private rules for trade ever developed. UCP 600 entered into force on July 1, 2007 and contains substantive changes to the existing rules that all international business professionals need to know. This version of UCP 600 also includes eUCP (ICC's supplement to the UCP governing presentation of documents in electronic or part-electronic form) and a glossary of international trading terms.

Anais de Iniciação Científica: XVI Jornada de Iniciação Científica da UCP ,2014-10-29 A XVI Jornada de Iniciação Científica da Universidade Católica de Petrópolis faz parte do espírito de celebração acadêmica, de diálogo científico e de reconhecimento que movem nossa comunidade de ensino e pesquisa. Dentre as principais tarefas da XVI Jornada de Iniciação Científica, destacam-se a celebração das metas já alcançadas, a consciência dos limites dos saberes adquiridos, o reconhecimento da complementariedade na diversidade dos temas, problemas e métodos científicos, e, a projeção do futuro de nossa comunidade sobre o vasto universo da pesquisa. A ampliação dos horizontes de nossa Universidade exige sempre mais daqueles que se unem em razão da busca da

verdade através da pesquisa acadêmica. Graças à maturidade de seus cursos de graduação e à gradativa consolidação de seus programas de pós-graduação stricto sensu, a Universidade Católica de Petrópolis oferece um campo cada vez mais amplo de oportunidades e desafios para a iniciação à investigação científica. A publicação dos Anais da XVI Jornada de Iniciação Científica da Universidade Católica de Petrópolis demonstra o compromisso institucional com a divulgação da produção científica. Ao serem publicados na forma de Anais, os resumos dos projetos de pesquisa oferecem um panorama sintético do que se realiza com os recursos do Conselho Nacional de Desenvolvimento Científico e Tecnológico (CNPq) e da Fundação Celso da Rocha Miranda (FCRM). Os organizadores da presente publicação agradecem à Reitoria da Universidade pela confiança nos trabalhos de iniciação científica, desenvolvidos pelo seu corpo docente e discente. Agradecem aos docentes, externos e internos, responsáveis pela criteriosa seleção dos projetos contemplados pelo Programa Institucional de Bolsas de Iniciação Científica (PIBIC/CNPq e PIBIC/FCRM). Agradecem também a todos os que aderiram à atual proposta de publicação, enviando no prazo os seus resumos aos cuidados da Coordenação Geral de Pesquisa e Pós-Graduação. Agradecem, enfim, aos funcionários da UCP, que tornaram possível a realização em 29 de outubro de 2014 da XVI Jornada de Iniciação Científica da Universidade Católica de Petrópolis. Esperamos que essa obra seja uma justa memória e, sobretudo, um sincero reconhecimento aos professores e aos jovens pesquisadores da UCP pela perseverança na árdua e gratificante busca do saber.

The Fraud Rule in the Law of Letters of Credit: A Comparative Study Xiang Gao, 2002-01-01 Dr. Gao finds the best provisions and practices in respect of the fraud rule in the United States, the United Kingdom, Canada, and Australia, and applies these standards to the reformulation of the fraud rule in the PRC. In the process he surveys the entire field of the fraud rule in the law of letters of credit in its substantive aspects, thus going deeper than mere banking law analyses and revealing, for the benefit of jurists everywhere, the fundamental legal issues that must underlie all sound judicial reasoning in the area. In more practical terms, this approach also allows judges to meet their essential responsibility - that of giving an answer when a case is put before them - with the widest and best possible degree of discernment.--BOOK JACKET.

Case Studies on Documentary Credits Under UCP 500 Charles del Busto, 1995 Case Studies on Documentary Credits under UCP 500 analyzes real cases involving ICC's Uniform Customs and Practice for Documentary Credits, UCP 500. Taken from formal and informal queries submitted to the ICC, Case Studies sets out the facts of each case, poses the key questions to be answered and provides clear and detailed responses from the ICC. Each of the 33 case studies in this book is referenced to a specific Article of the UCP 500. Each case study is then presented in four parts: Background: Type of Credit, Application, Issuing Bank, Advising Bank, Negotiating Bank, Availability, Expiry Circumstances: Specific facts of the case Queries: Questions to be answered Answers to the Questions: Answers provided by the ICC Answers to the queries are grouped, case by case, in Part Two of the book in order to encourage individual comprehension and training. Case Studies also includes: -- Sample Documents -- A test highlighting possible discrepancies in the documents -- Index of key words and UCP Articles to which cases refer -- Full text of UCP 500 and related ICC Position Papers Case Studies on Documentary Credits under UCP 500 is a practical,

user-friendly workbook designed to bring an added dimension to your knowledge of the UCP rules. Ideal for bankers, traders, lawyers, students of international trade and international banking. Unarmed Civilian Protection Ellen Furnari, Randy Janzen, Rosemary Kabaki, 2023-06 The frequent failure of military or armed interventions to protect civilians is well known. This edited collection provides a comprehensive account of a different, effective paradigm: unarmed civilian protection (UCP). The principles and methods of UCP have been used for many decades to protect both specific, threatened individuals as well as whole communities. Featuring contributions from around the world, this book brings together a wide range of UCP practices in order to examine their underlying theory and interrelated strategies. The book provides an important illustration of the contributions UCP can make, while also discussing its limitations and failures.

Dreamscapes of Modernity Sheila Jasanoff, Sang-hyun Kim, 2015-09-02 Dreamscapes of Modernity offers the first book-length treatment of sociotechnical imaginaries, a concept originated by Sheila Jasanoff and developed in close collaboration with Sang-Hyun Kim to describe how visions of scientific and technological progress carry with them implicit ideas about public purposes, collective futures, and the common good. The book presents a mix of case studies—including nuclear power in Austria, Chinese rice biotechnology, Korean stem cell research, the Indonesian Internet, US bioethics, global health, and more—to illustrate how the concept of sociotechnical imaginaries can lead to more sophisticated understandings of the national and transnational politics of science

and technology. A theoretical introduction sets the stage for the contributors' wide-ranging analyses, and a conclusion gathers and synthesizes their collective findings. The book marks a major theoretical advance for a concept that has been rapidly taken up across the social sciences and promises to become central to scholarship in science and technology studies.

Rules and Restraint David M. Primo, 2007-10 Publisher description

Building Resilience Daniel P. Aldrich, 2012-08-15 The factor that makes some communities rebound quickly from disasters while others fall apart: "A fascinating book on an important topic."—E.L. Hirsch, in *Choice* Each year, natural disasters threaten the strength and stability of communities worldwide. Yet responses to the challenges of recovery vary greatly and in ways that aren't explained by the magnitude of the catastrophe or the amount of aid provided by national governments or the international community. The difference between resilience and disrepair, as Daniel P. Aldrich shows, lies in the depth of communities' social capital. *Building Resilience* highlights the critical role of social capital in the ability of a community to withstand disaster and rebuild both the infrastructure and the ties that are at the foundation of any community. Aldrich examines the post-disaster responses of four distinct communities—Tokyo following the 1923 earthquake, Kobe after the 1995 earthquake, Tamil Nadu after the 2004 Indian Ocean Tsunami, and New Orleans post-Katrina—and finds that those with robust social networks were better able to coordinate recovery. In addition to quickly disseminating information and financial and physical assistance, communities with an abundance of social capital were able to minimize the migration of people and valuable resources out of the area. With governments increasingly overstretched and

natural disasters likely to increase in frequency and intensity, a thorough understanding of what contributes to efficient reconstruction is more important than ever. Building Resilience underscores a critical component of an effective response.

From Lived Experience to the Written Word Pamela H. Smith, 2022-09-23 This book focuses on how literate artisans began to write about their discoveries starting around 1400: in other words, it explores the origins of technical writing. Artisans and artists began to publish handbooks, guides, treatises, tip sheets, graphs and recipe books rather than simply pass along their knowledge in the workshop. And they tried to articulate what the new knowledge meant. The popularity of these texts coincided with the founding of a new philosophy that sought to investigate nature in a new way. Smith shows how this moment began in the unceasing trials of the craft workshop, and ended in the experimentation of the natural scientific laboratory. These epistemological developments have continued to the present day and still inform how we think about scientific knowledge--

Stuck in Place Patrick Sharkey, 2013-05-15 In the 1960s, many believed that the civil rights movement's successes would foster a new era of racial equality in America. Four decades later, the degree of racial inequality has barely changed. To understand what went wrong, Patrick Sharkey argues that we have to understand what has happened to African American communities over the last several decades. In *Stuck in Place*, Sharkey describes how political decisions and social policies have led to severe disinvestment from black neighborhoods, persistent segregation, declining economic opportunities, and a growing link between African American communities and the criminal justice system. As a result, neighborhood inequality that existed in the 1970s has been passed down to the current generation of African Americans. Some of the most persistent forms of racial inequality, such as gaps in income and test scores, can only be explained by considering the

neighborhoods in which black and white families have lived over multiple generations. This multigenerational nature of neighborhood inequality also means that a new kind of urban policy is necessary for our nation's cities. Sharkey argues for urban policies that have the potential to create transformative and sustained changes in urban communities and the families that live within them, and he outlines a durable urban policy agenda to move in that direction.
