Why States Recover Greg Mills, 2015-01-03 State failure takes many forms. Somalia offers one extreme. The country's prolonged civil war led to the collapse of central authority, with state control devolving to warlord-led factions that competed for the spoils of local commerce, political power, and international aid. Malawi, on the other hand, is at the other end of the scale. During President Bingu's second term in office, the country's economy collapsed as a result of poor policies and Bingu's brand of personal politics. On the surface, Malawi's economy seemed largely stable; underneath, however, the polity was fractured and the economy broken. In between these two extremes of state failure are all manner of examples, many of which Mills explores in the fascinating and profoundly personal *Why States Recover*. Throughout he returns to his key questions: how do countries recover? What roles should both insiders and outsiders play to aid that process? Drawing on research in more than thirty countries, and incorporating interviews with a dozen leaders, Mills examines state failure and identifies instances of recovery in Latin America, Asia, and Africa. For anyone interested in the reasons behind states' failure, and remedies to ensure future economic stability, it is important reading.

Helping Your Child Recover from Sexual Abuse Caren Adams, Jennifer J. Fay, 2015-09-01 The sexual abuse of a child creates a devastating family crisis. Topics covered: What to do when abuse is first disclosed; Helping a child cope with the legal system; Responding to the reactions of friends and loved ones; Children's reactions to abuse; How parents and children grieve differently; Rebuilding a child's self-esteem; Dealing with confusion about sexuality; Helping a child feel safe and in control; Typical problems at different ages; Recognizing when a child is getting better.
