**Underwater** Marisa Reichardt, 2016-01-12 Morgan didn't mean to do anything wrong that day. Actually, she meant to do something right. But her kind act inadvertently played a role in a deadly tragedy. In order to move on, Morgan must learn to forgive—first someone who did something that might be unforgivable, and then, herself. But Morgan can't move on. She can't even move beyond the front door of the apartment she shares with her mother and little brother. Morgan feels like she's underwater, unable to surface. Unable to see her friends. Unable to go to school. When it seems Morgan can't hold her breath any longer, a new boy moves in next door. Evan reminds her of the salty ocean air and the rush she used to get from swimming. He might be just what she needs to help her reconnect with the world outside. *Underwater* is a powerful, hopeful debut novel about redemption, recovery, and finding the strength it takes to face your past and move on.

**Underwater** Rebecca Elliott, 2021-01-05 Communities around the United States face the threat of being underwater. This is not only a matter of rising waters reaching the doorstep. It is also the threat of being financially underwater, owning assets worth less than the money borrowed to obtain them. Many areas around the country may become economically uninhabitable before they become physically unlivable. In *Underwater*, Rebecca Elliott explores how families, communities, and governments confront problems of loss as the climate changes. She offers the first in-depth account of the politics and social effects of the U.S. National Flood Insurance Program (NFIP), which provides flood insurance protection for virtually all homes and small businesses that require it. In doing so, the NFIP turns the risk of flooding into an immediate economic reality, shaping who lives on the waterfront, on what terms, and at what cost. Drawing on archival, interview, ethnographic, and other documentary data, Elliott follows controversies over the NFIP from its establishment in the 1960s to the present, from local backlash over flood maps to Congressional debates over insurance reform. Though flood insurance is often portrayed as a rational solution for managing risk, it has ignited recurring fights over what is fair and valuable, what needs protecting and what should be let go, who deserves assistance and on what terms, and whose expectations of future losses are used to govern the present. An incisive and comprehensive consideration of the fundamental dilemmas of moral economy underlying insurance, *Underwater* sheds new light on how Americans cope with loss as the water rises.

**Underwater Dogs** Seth Casteel, 2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation. From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In

Underwater Dogs, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

Adventures Beneath the Sea Kenneth Mallory, 2010-10-01 What would it be like to live sixty feet below the ocean waves? Author Ken Mallory and photographer Brian Skerry found out. They spent a week in the Aquarius underwater laboratory on a coral reef off the Florida Keys. They lived in cramped quarters. They went scuba diving every day—to study the fish of the reef and to use the underwater outhouse. They slept in bunks with the constant crackle of snapping shrimp coming through the shell of their underwater home. Skerry's photographs from the pages of National Geographic Magazine capture the stunning sights of a strange undersea habitat in this winner of the John Burroughs Nature Books for Young Readers Award.

*How to Breathe Underwater* Julie Orringer, 2007-12-18 A New York Times notable book and winner of The Northern California Book Award for Best Short Fiction, these nine brave, wise, and spellbinding stories make up this debut. In *When She is Old and I Am Famous* a young woman confronts the inscrutable power of her cousin's beauty. In *Note to Sixth-Grade Self* a band of popular girls exert their social power over an awkward outcast. In *Isabel Fish* fourteen-year-old Maddy learns to scuba dive in order to mend her family after a terrible accident. Alive with the victories, humiliations, and tragedies of youth, *How to Breathe Underwater* illuminates this powerful territory with striking grace and intelligence. These stories are without exception clear-eyed, compassionate and deeply moving.... Even her most bitter characters have a gift, the sharp wit of envy. This, Orringer's first book, is breathtakingly good, truly felt and beautifully delivered.—The Guardian

**Underwater** Debbie Levy, 2013-08-01 Twelve-year-old Gabe has ambitions to be the next Jacques Cousteau...or Bill Gates...or who? Gabe's anxiety about growing up is matched by his fear that he'll be crazy (like his brother). But he finds some relief in his underwater computer game, setting up his own aquarium, and swimming on the local team. Could it be that some things will just take care of themselves?

**Breathing Underwater** Sarah Allen, 2021-03-30 A Junior Library Guild Selection “In *Breathing Underwater*, Sarah Allen has created characters so alive and compelling that readers will root for them every mile of this moving, heartfelt journey.” —Dan Gemeinhart, author of *The Remarkable Journey of Coyote Sunrise* A sparkly, moving middle grade novel from Sarah Allen, and a big-hearted exploration of sisterhood, dreams, and what it means to be there for someone you love. Olivia is on the road trip of her dreams, with her trusty camera and her big sister Ruth by her side. Three years ago, before their family moved from California to Tennessee, Olivia and Ruth buried a time capsule on their favorite beach. Now, they’re taking an RV back across the country to uncover the memories they left behind. But Ruth’s depression has been getting worse, so Olivia has created a plan to help her remember how life used to be: a makeshift scavenger hunt across the country, like pirates hunting for treasure, taking pictures and making memories along the way. All she wants is to take the picture that makes her sister smile. But what if things can never go back to how they used to be? What if they never find the treasure they’re seeking? Through all the questions, loving her sister, not changing her, is all Olivia can do—and maybe it’s enough.

**Girl Underwater** Claire Kells,2015-03-31 An adventurous debut novel that cross cuts between a competitive college swimmer's harrowing days in the Rocky Mountains after a major airline disaster and her recovery supported by the two men who love her—only one of whom knows what really happened in the wilderness. Nineteen-year-old Avery Delacorte loves the water. Growing up in Brookline, Massachusetts, she took swim lessons at her community pool and captained the local team; in high school, she raced across bays and sprawling North American lakes. Now a sophomore on her university's nationally ranked team, she struggles under the weight of new expectations but life is otherwise pretty good. Perfect, really. That all changes when Avery's red-eye home for Thanksgiving makes a ditch landing in a mountain lake in the Colorado Rockies. She is one of only five survivors, which includes three little boys and Colin Shea, who happens to be her teammate. Colin is also the only person in Avery's college life who challenged her to swim her own events, to be her own person—something she refused to do. Instead she's avoided him since the first day of freshman year. But now, faced with sub-zero temperatures, minimal supplies, and the dangers of a forbidding nowhere, Avery and Colin must rely on each other in ways they never could've imagined. In the wilderness, the concept of survival is clear-cut. Simple. In the real world, it's anything but.

**Underwater Babies** Seth Casteel,2015-04-07 Babies as you've never seen them before, from New York Times bestselling author and photographer Seth Casteel Seth Casteel's innovative underwater photography has won him fans around the world. In what he has called some of the most exciting shoots of his career, Casteel has found a remarkable new way to capture the wonder and freedom babies feel when they're underwater. Chubby-cheeked, curious, and mischievous, these tiny swimmers remind us all of the joy of discovery--and the irresistible beauty of babies.

Marx,1990-01-01 The noted marine archaeologist and treasure-hunting diver's history of diving, from the free divers of the ancient world to those using modern research equipment. The Underwater Eye Margaret Cohen, 2022-04-12 A rich history of underwater filmmaking and how it has profoundly influenced the aesthetics of movies and public perception of the oceans In *The Underwater Eye*, Margaret Cohen tells the fascinating story of how the development of modern diving equipment and movie camera technology has allowed documentary and narrative filmmakers to take human vision into the depths, creating new imagery of the seas and the underwater realm, and expanding the scope of popular imagination. Innovating on the most challenging film set on earth, filmmakers have tapped the emotional power of the underwater environment to forge new visions of horror, tragedy, adventure, beauty, and surrealism, entertaining the public and shaping its perception of ocean reality. Examining works by filmmakers ranging from J. E. Williamson, inventor of the first undersea film technology in 1914, to Wes Anderson, who filmed the underwater scenes of his 2004 *The Life Aquatic with Steve Zissou* entirely in a pool, *The Underwater Eye* traces how the radically alien qualities of underwater optics have shaped liquid fantasies for more than a century. Richly illustrated, the book explores documentaries by Jacques Cousteau, Louis Malle, and Hans Hass, art films by Man Ray and Jean Vigo, and popular movies and television shows such as *20,000 Leagues Under the Sea*, *Creature from the Black Lagoon*, *Sea Hunt*, the Bond films, *Jaws*, *The Abyss*, and *Titanic*. In exploring the cultural impact of underwater filmmaking, the book also asks compelling questions about the role film plays in engaging the public with the remote ocean, a frontline of climate change.

Meet Me Underwater Michael Patrick O'Neill, 2021-09 Premium quality photography book by Michael Patrick O'Neill showcasing Florida's aquatic wonders, from coral reefs and springs to the Everglades and beyond.

The Underwater Museum Jason deCaires Taylor, Carlo McCormick, Helen Scales, 2014-03-11 A guide to the undersea sculptures of the award-winning British artist whose works "are both enchanting and ecologically meaningful" (Discover). A one-of-a-kind blend of art, nature, and conservation, *The Underwater Museum* re-creates an awe-inspiring dive into the dazzling under-ocean sculpture parks of artist Jason deCaires Taylor. Taylor casts his life-size statues from a special kind of cement that facilitates reef growth, and sinks them to the ocean floor. There, over time, the artworks attract corals, algae, and fish, and evolve into beautiful and surreal installations that are also living reefs. This volume brings readers face to face with these wonders and explains the science behind their creation. Ocean enthusiasts, divers, art lovers, and anyone entranced by the natural world will be instantly engrossed by this pearl of a book.

**Breathing Under Water** Richard Rohr, 2013-11-04 The Twelve Steps of Alcoholics Anonymous is America's most significant and authentic contribution to the history of spirituality, says Richard Rohr. He makes a case that the Twelve Steps relate well to Christian teaching and can rescue people who are drowning in addiction and may not even realize it. To survive the tidal wave of compulsive behavior and addiction, Christians must learn to breathe under water and discover God's love and compassion. In this exploration of Twelve Step spirituality, Rohr identifies the Christian principles in the Twelve Steps, connecting The Big Book of Alcoholics Anonymous with the gospel. He draws on talks he has given for over twenty years to people in recovery and those who counsel and live with people with addictive behavior. Rohr offers encouragement for becoming interiorly alive and inspiration for making one's life manageable for dealing with the codependence and dysfunction (sin) rampant in our society.
