**Adventures in the Spirit** Philip Clayton, In *Adventures in the Spirit*, respected and influential theologian Philip Clayton argues that two major intellectual movements of our day—panentheism and emergence—are converging and that together they offer exciting new vistas for theological reflection. On the other hand, scientists have begun to abandon the reductionist ideology that characterized much of the modern period, with a new emphasis on emergence. Their study of how new, novel structures and entities arise throughout the evolutionary process yields a much more open-ended, holistic vision of reality, Clayton argues.
