EC00P '92. European Conference on Object-Oriented Programming Ole Lehrmann Madsen,1992-06-16 This volume constitutes the proceedings of the sixth European Conference on Object-Oriented Programming (EC00P), held in Utrecht, The Netherlands, June 29 - July 3, 1992. Since the French initiative to organize the first conference in Paris, EC00P has been a very successful forum for discussing the state of the art of object orientation. EC00P has been able to attract papers of a high scientific quality as well as high quality experience papers describing the pros and cons of using object orientation in practice. This duality between theory and practice within object orientation makes a good example of experimental computer science. The volume contains 24 papers, including two invited papers and 22 papers selected by the programme committee from 124 submissions. Each submitted paper was reviewed by 3-4 people, and the selection of papers was based only on the quality of the papers themselves.

Spectacle Rachel Vincent,2017-05-30 There is no crueler cage than the confines of the human mind in this riveting sequel to Menagerie from the New York Times–bestselling author. When their coup of Metzger’s Menagerie is discovered, Delilah Marlow and her fellow cryptids find their newly won freedom brutally stripped away as they are sold into The Savage Spectacle, a private collection of “exotic wildlife.” Specializing in ruthless cryptid cage matches, safari-style creature hunts and living party favors, the Spectacle’s owner, Willem Vandekamp, caters to the forbidden fetishes of the wealthy and powerful. At the Spectacle, any wish can be granted—for the right price. But Vandekamp’s closely guarded client list isn’t the only secret being kept at the Spectacle. Beneath the beauty and brutality of life in the collection lie much darker truths, and no one is more determined than Delilah to strip the masks from the human monsters and drag all dark things into the light. “Oh what a disturbingly dark, and haunting world Rachel Vincent has crafted! Spectacle is definitely not for the fainthearted. However, it is the characters who are the heart and soul of Spectacle. The world they live in is harsh and brutal but it is the strength, love, and loyalty we see emerging out of the darkness that makes Spectacle so significant. I can’t wait to see what unfolds in the third book of the Menagerie series!” –Fresh Fiction “A bravura example of fantasy series-building.” –Publishers Weekly

Economic and Societal Transformation in Pandemic-Trapped India Subrata Saha,Mukunda Mishra,Anil Bhuimali,2022-02-04 This book acquaints the reader with the critical changes in India’s economy and society amidst the unprecedented pandemic outbreak of COVID-19, which has been devastating by breaking all prior records of illness and fatality. The present crisis is shown to be more than an acute health hazard as it carries with it other threats associated with the economy, society, culture, psychology, and politics. The dynamic driving forces that have a significant bearing on life, space, and time are explored, providing a basis on which social scientists can understand the prevailing equations and project the unforeseen future to contribute to a policymaking mechanism. The Indian scenario presented here takes into account how the COVID-19-induced lockdown of transport services, closing of factories, and restrictions on mobilization have caused the economy to face a recession, affecting mostly the unorganized sector. Travel restrictions and quarantines affecting hundreds of millions of people have left Indian factories short of labour, causing havoc in the production system. Semi-skilled jobholders have lost their employment, and the country has witnessed the plight of large pools of migrant labourers returning on foot to their homelands hundreds of miles away with their families and belongings. Contributors to this volume are drawn from diverse disciplines, displaying the solidarity of academic knowledge in a physically divided world. This common platform is provided to the practitioners of relevant academic disciplines under the umbrella of regional sciences – a forum for the exchange of ideas that may be effective in the sustainable management of the crisis and a way forward after it is mitigated. Thought-provoking discussions regarding different facets of the crisis are relevant not only to the current times but also to being prepared for the unforeseen post-COVID economic and societal order.

**ITF Research Reports Liberalisation of Air Transport** International Transport Forum,2019-05-03 Aviation is one of the most regulated industries in the world. Much of this regulation is safety-related, to mitigate the inherent risks tied with air transport. But aviation is also subject to economic regulation that influences which airline flies which route, at which frequency, capacity and price. It even stipulates the nationality of its owners and decision makers. Aviation has freed itself from some restrictions over the past three decades, with many benefits to society. Yet liberalisation has also raised issues with regard to maintaining fair competition, high labour standards and mitigating aviation's growing environmental impact.

Bosnia and Herzegovina International Monetary Fund. European Dept., 2012-10-09 Bosnia and Herzegovina's (BiH) challenge is to cope with the adverse economic environment and prepare the ground for achieving sustainable export-led economic growth, raising living standards, and making progress toward EU accession. In addition to fiscal consolidation, this will require reforms to improve the composition of public expenditure and unlock the economy's potential. Financial sector policies should aim at further enhancing the authorities' crisis preparedness and contingency planning. These policies would also provide a solid basis for the stability of the currency board and enhanced national policy coordination.
