**Advanced Information Networking and Applications** Leonard Barolli, Farookh Hussain, Tomoya Enokido, 2022-03-30 This book covers the theory, design and applications of computer networks, distributed computing and information systems. Networks of today are going through a rapid evolution, and there are many emerging areas of information networking and their applications. Heterogeneous networking supported by recent technological advances in low-power wireless communications along with silicon integration of various functionalities such as sensing, communications, intelligence and actuations is emerging as a critically important disruptive computer class based on a new platform, networking structure and interface that enable novel, low-cost and high-volume applications. Several of such applications have been difficult to realize because of many interconnections problems. To fulfill their large range of applications, different kinds of networks need to collaborate, and wired and next generation wireless systems should be integrated in order to develop high-performance computing solutions to problems arising from the complexities of these networks. The aim of the book "Advanced Information Networking and Applications" is to provide the latest research findings, innovative research results, methods and development techniques from both theoretical and practical perspectives related to the emerging areas of information networking and applications.

**Design, User Experience, and Usability** Aaron Marcus, Elizabeth Rosenzweig, Marcelo M. Soares, 2023-07-08 This 5-volume HCII-DUXU 2023 book set constitutes the refereed proceedings of the 12th International Conference on Design, User Experience, and Usability, DUXU 2023, held as part of the 24th International Conference, HCI International 2023, which took place in Copenhagen, Denmark, in July 2023. A total of 1578 papers and 396 posters have been accepted for publication in the HCII 2023 proceedings from a total of 7472 submissions. The papers included in this volume set were organized in topical sections as follows: Part I: Design methods, tools and practices; emotional and persuasive design; Part II: Design case studies; and creativity and design education; Part III: Evaluation methods and techniques; and usability, user experience and technology acceptance studies; Part IV: Designing learning experiences; and chatbots, conversational agents and robots: design and user experience; Part V: DUXU for cultural heritage; and DUXU for health and wellbeing.

**Hatchet** Gary Paulsen, 2009-08-25 Celebrate the thirtieth anniversary of the Newbery Honor-winning survival novel Hatchet with a pocket-sized edition perfect for travelers to take along on their own adventures. This special anniversary edition includes a new introduction and commentary by author Gary Paulsen, pen-and-ink illustrations by Drew Willis, and a water resistant cover. Hatchet has also been nominated as one of America's best-loved novels by PBS's The Great American Read. Thirteen-year-old Brian Robeson, haunted by his secret knowledge of his mother's infidelity, is traveling by single-engine plane to visit his father for the first time since the divorce. When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.

**Opinion Analysis in Interactions** Chloe Clavel, 2019-09-11 As time goes on, big companies such as Amazon, Microsoft, Google and Apple become increasingly interested in virtual assistants. The interest and development of social robots has put research into affective and social computing at the forefront of the scene. The aim of Opinion Analysis in Interactions is to present methods based on artificial intelligence through a combination of machine learning models and symbolic approaches. Also discussed are natural language processing and affective computing, via the analysis and generation of socio-emotional signals. The book explores the analysis of opinions in human-human interaction and tackles the less-explored (yet crucial) challenges related to the analysis methods of user opinions within the context of human-agent interaction. It also illustrates the implementation of strategies for selecting and generating agent utterances in response to user opinions, and opens up perspectives on the agent's multimodal generation of utterances that hold attitudes.

**Sentiment Analysis and Knowledge Discovery in Contemporary Business** Rajput, Dharmendra Singh, Thakur, Ramjeevan Singh, Basha, S. Muzamil, 2018-08-31 In the era of social connectedness, people are becoming increasingly enthusiastic about interacting, sharing, and collaborating through online collaborative media. However, conducting sentiment analysis on these platforms can be challenging, especially for business professionals who are using them to collect vital data. Sentiment Analysis and Knowledge Discovery in Contemporary Business is an essential reference source that discusses applications of sentiment analysis as well as data mining, machine learning algorithms, and big data streams in business environments. Featuring research on topics such as knowledge retrieval and knowledge updating, this book is ideally designed for business managers, academicians, business professionals, researchers, graduate-level students, and technology developers seeking current research on data collection and management to drive profit.

**Agent Computing and Multi-Agent Systems** Aditya Ghose, Guido Governatori, Ramakoti Sadananda, 2009-04-22 This book constitutes the thoroughly refereed post-workshop proceedings of the 10th Pacific Rim International Workshop on Multi-Agents, PRIMA 2007, held in Bangkok, Thailand, in November 2007. The 22 revised full papers and 16 revised short papers presented together with 11 application papers were carefully reviewed and selected from 102 submissions. Ranging from theoretical and methodological issues to various applications in different fields, the papers address many current subjects in multi-agent research and development,

**Advances in Information Retrieval** Paul Clough, Colum Foley, Cathal Gurrin, Gareth Jones, Wessel Kraaij, Hyowon Lee, Vanessa Murdock, 2011-04-12 This book constitutes the refereed proceedings of the 33rd annual European Conference on Information Retrieval Research, ECIR 2011, held in Dublin, Ireland, in April 2010. The 45 revised full papers presented together with 24 poster papers, 17 short papers, and 6 tool demonstrations were carefully reviewed and selected from 223 full research paper submissions and 64 poster/demo submissions. The papers are organized in topical sections on text categorization, recommender systems, Web IR, IR evaluation, IR for Social Networks, cross-language IR, IR theory, multimedia IR, IR applications, interactive IR, and question answering /NLP.

**Social Computing and Social Media: Design, User Experience and Impact** Gabriele Meiselwitz, 2022-06-16 This two-volume set LNCS 13315 and 13316 constitutes the refereed proceedings of the 14th International Conference on Social Computing and Social Media, SCSM 2022, held as part of the 24rd International Conference, HCI International 2022, which took place in June-July 2022. Due to COVID-19 pandemic the conference was held virtually. The total of 1276 papers and 275 posters included in the 40 HCII 2022 proceedings volumes was carefully reviewed and selected

from 5583 submissions. The papers of SCSM 2022, Part I, are organized in topical sections named: design and user experience in social media and social live streaming; text analysis and AI in social media; social media impact on society and business.

**Innovations in Smart Cities Applications Volume 5** Mohamed Ben Ahmed, Anouar Abdelhakim Boudhir, İsmail Rakıp Karaş, Vipul Jain, Sehl Mellouli, 2022-03-03 This book sets the innovative research contributions, works, and solutions for almost all the intelligent and smart applications in the smart cities. The smart city concept is a relevant topic for industrials, governments, and citizens. Due to this, the smart city, considered as a multi-domain context, attracts tremendously academics researchers and practitioners who provide efforts in theoretical proofs, approaches, architectures, and in applied researches. The importance of smart cities comes essentially from the significant growth of populations in the near future which conducts to a real need of smart applications that can support this evolution in the future cities. The main scope of this book covers new and original ideas for the next generations of cities using the new technologies. The book involves the application of the data science and AI, IoT technologies and architectures, smart earth and water management, smart education and E-learning systems, smart modeling systems, smart mobility, and renewable energy. It also reports recent research works on big data technologies, image processing and recognition systems, and smart security and privacy.

**User Modeling 2007** Cristina Conati, Kathleen McCoy, Georgios Paliouras, 2007-08-28 This book constitutes the refereed proceedings of the 11th International Conference on User Modeling, UM 2007, held in Corfu, Greece in July 2007. Coverage includes evaluating user/student modeling techniques, data mining and machine learning for user modeling, user adaptation and usability, modeling affect and meta-cognition, as well as intelligent information retrieval, information filtering and content personalization.

**User Surveys and Evaluation of Library Services** Association of Research Libraries. Systems and Procedures Exchange Center, 1981 Summary: set around a competitive dance marathon in Hollywood during the depression, the film follows the competitors as they take themselves to the limit, in the vain hope of winning the coveted prize or attracting the attention of the Hollywood talent scouts. But as the compare states There can only be one winner, folks, but isn't that the American way?

**Handbook of Service User Involvement in Mental Health Research** Jan Wallcraft, Beate Schrank, Michaela Amering, 2009-06-22 Handbook of Service User Involvement in Mental Health Research In recent years, the need for patient and public involvement in medical research has been accepted around the world. Patient groups are gaining power and demanding their right to influence the direction of research, while funding bodies are increasingly regarding patient involvement as a requirement for grant applications. However, current knowledge on how to involve service users in mental health research is sparse and dispersed. This book provides clear guidance on best practice in this area, with practical advice based on experience in countries around the world. Handbook of Service User Involvement in Mental Health Research describes the background and principles underlying the concept of service user involvement in mental health research; it provides relevant practical advice on how to engage with service users and how to build and maintain research collaboration on a professional level. The book highlights common practical problems in service user involvement, suggesting ways to avoid pitfalls and common difficulties. Combines the theoretical aspects of service user involvement in research with specific examples, as well as with general practical guidelines Represents the views of service users, in a powerful combination with the views of other mental health professionals Considers the different perspectives and needs of the stakeholders concerned Includes a step by step guide on best practice in successful service user involvement. Handbook of Service User Involvement in Mental Health Research is written for psychiatrists and other medical professionals managing people with psychiatric disorders, as well as for researchers in the mental health field who want to develop projects with service user involvement. It is vital reading for funding bodies requesting service user involvement, and – importantly – is written for those service users who are interested in becoming involved in research.

**Advances in Intelligent Networking and Collaborative Systems** Leonard Barolli, Isaac Woungang, Omar Khadeer Hussain, 2017-08-14 The aim of this book is to provide the latest research findings, innovative research results, methods and development techniques from both theoretical and practical perspectives related to intelligent social networks and collaborative systems, intelligent networking systems, mobile collaborative systems, secure intelligent cloud systems, etc., and to reveal synergies among various paradigms in the multi-disciplinary field of intelligent collaborative systems. It presents the Proceedings of the 9th International Conference on Intelligent Networking and Collaborative Systems (INCoS-2017), held on August 24–26, 2017 in Toronto, Canada. With the rapid evolution of the Internet, we are currently experiencing a shift from the traditional sharing of information and applications as the main purpose of the Web to an emergent paradigm that puts people at the very centre of networks and exploits the value of people's connections, relations and collaborations. Social networks are also playing a major role in the dynamics and structure of intelligent Web-based networking and collaborative systems. Virtual campuses, virtual communities and organizations effectively leverage intelligent networking and collaborative systems by tapping into a broad range of formal and informal electronic relations, such as business-to-business, peer-to-peer and many types of online collaborative learning interactions, including the emerging e-learning systems. This has resulted in entangled systems that need to be managed efficiently and autonomously. In addition, the latest and powerful technologies based on Grid and wireless infrastructure as well as Cloud computing are now greatly enhancing collaborative and networking applications, but are also facing new issues and

challenges. The principal objective of the research and development community is to stimulate research that leads to the creation of responsive environments for networking and, in the longer-term, the development of adaptive, secure, mobile, and intuitive intelligent systems for collaborative work and learning.

*Web Information Systems and Technologies* María José Escalona, Francisco Domínguez Mayo, Tim A. Majchrzak, Valérie Monfort, 2020-01-16 This book constitutes revised selected papers from the 14th International Conference on Web Information Systems and Technologies, WEBIST 2018, held in Seville, Spain, in September 2018. The purpose of the WEBIST series of conferences is to bring together researchers, engineers and practitioners interested in technological advances and business applications of web-based information systems. The 12 full papers presented in this volume were carefully reviewed and selected from originally 68 paper submissions. They cover different aspects of Web information systems, namely internet technology, mobile and NLP information systems, service-based information systems, platforms and eco-systems, Web intelligence and Web interfaces.

**Soft Computing for Problem Solving** Kedar Nath Das, Jagdish Chand Bansal, Kusum Deep, Atulya K. Nagar, Ponnambalam Pathipooranam, Rani Chinnappa Naidu, 2019-11-27 This two-volume book presents the outcomes of the 8th International Conference on Soft Computing for Problem Solving, SocProS 2018. This conference was a joint technical collaboration between the Soft Computing Research Society, Liverpool Hope University (UK), and Vellore Institute of Technology (India), and brought together researchers, engineers and practitioners to discuss thought-provoking developments and challenges in order to select potential future directions. The book highlights the latest advances and innovations in the interdisciplinary areas of soft computing, including original research papers on algorithms (artificial immune systems, artificial neural networks, genetic algorithms, genetic programming, and particle swarm optimization) and applications (control systems, data mining and clustering, finance, weather forecasting, game theory, business and forecasting applications). It offers a valuable resource for both young and experienced researchers dealing with complex and intricate real-world problems that are difficult to solve using traditional methods.

*The Effect of User Ratings on Public Opinion Perception and Willingness to Express Opinions* Jaehyun Hong, 2007

**User Comments and Moderation in Digital Journalism** Thomas B. Ksiazek, Nina Springer, 2020-04-01 This book is an authoritative discussion of user comments and moderation in digital journalism, examining how user comments have disrupted the field of journalism and how a growing number of news organizations have abandoned commenting features altogether. Making a broad argument concerning user commentary as a manifestation of user engagement and public deliberation, *User Comments and Moderation in Digital Journalism: Disruptive Engagement* conceptualizes the act of commenting as interactive engagement and participation in a virtual public sphere. The book also explores the organizational policies that have the potential to disrupt – as well as improve – the quality of user discussions. Ultimately, strategies are proposed for managing and improving user comments and encouraging more productive public deliberation in digital journalism. This engaging discussion of a key development in digital journalism is a valuable resource for academics and researchers in the areas of journalism, media and communication studies.

**On The Move to Meaningful Internet Systems 2003: OTM 2003 Workshops** R. Meersman, Zahir Tari, 2003-10-30 This book constitutes the joint refereed proceedings of six international workshops held as part of OTM 2003 in Catania, Sicily, Italy, in November 2003. The 80 revised full workshop papers presented together with various abstracts and summaries were carefully reviewed and selected from a total of 170 submissions. In accordance with the workshops, the papers are organized in topical main sections on industrial issues, human computer interface for the semantic Web and Web applications, Java technologies for real-time and embedded systems, regulatory ontologies and the modelling of complaint regulations, metadata for security, and reliable and secure middleware.
