The Business of Lobbying in China Scott KENNEDY,Scott Kennedy,2009-06-30 Based on over 300 in-depth interviews with company executives, business association representatives, and government officials, this study identifies a wide range of national economic policies influenced by lobbying, including taxes, technical standards, and intellectual property rights. These findings have significant implications for how we think about Chinese politics and economics, as well as government-business relations in general.

The Indian Media Economy (2-volume set) Adrian Athique,Vibodh Parthasarathi,S.V. Srinivas,2017-12-29 The twenty-first century has witnessed the rise of India as a major media producer and consumer market increasingly engaged with the global economy. Aided by rising incomes, technological remediation, regulatory strategies, and a shifting political terrain, the business of media has been given official recognition as a substantive component of India's economy and as a prominent feature of its economic thinking. In light of these developments, these two pioneering volumes investigate the dynamics of an increasingly integrated media economy encompassing television, film, music, sport, and telecoms. Volume 1: Industrial Dynamics and Cultural Adaptation illustrates the distinctive industrial dynamics of India's media economy, tracking the deeply embedded cultural, political, and economic forces that determine its everyday operation. The selection of essays serves to demonstrate the unique patterns of development and the complex field of exchanges that have constituted India's media economy. As a whole, this volume posits a comprehensive approach to understanding the nature of media resources, the negotiation of industrial norms and the cultural context of a media economy firmly situated in the realities of India's distinct regions, cultures, and human networks. Volume 2: Market Dynamics and Social Transactions provides a comprehensive analysis of the interlocking markets that constitute the media economy, focusing upon its particular commodity forms, labour conditions, and spaces of consumption. Taking account of a rich set of case studies, this volume argues for the necessary consideration of multiple and interdependent markets in explicating our everyday encounters with media. By foregrounding the social transactions that encapsulate market exchanges, it begins to illustrate some of the novel aspirations, meanings, and relationships arising with India's media economy.

Framing Piracy Shujen Wang,2003 Framing Piracy examines film distribution--legal and illegal--in the largest, mostly untapped market in the world: Greater China. Tracing networks of optical disc (VCD, DVD) and online piracy, this book tackles issues of politics, globalization, and technology. It features a wealth of original research, new distribution data, and interviews with film distributors, government officials, and film pirates. With changes afoot in China upon its entering the World Trade Organization, this timely book shows that such transformations have far-reaching implications for policy, theory, and practice.

China, Inc. Ted Fishman,2005-02-28 The updated edition of journalist Ted C. Fishman's bestselling explanation of how China is rapidly becoming a global industrial superpower and how the American economy is challenged by this new reality. China today is visible everywhere -- in the news, in the economic pressures battering the globe, in our workplaces, and in every trip to the store. Provocative, timely, and essential -- and updated with new statistics and information -- this dramatic account of China's growing dominance as an industrial superpower by journalist Ted C. Fishman explains how the profound shift in the world economic order has occurred -- and why it already affects us all. How has an enormous country once hobbled by poverty and Communist ideology come to be the supercharged center of global capitalism? What does it mean that China now grows three times faster than the United States? Why do nearly all of the world's biggest companies have large operations in China? What does the corporate march into China mean for workers left behind in America, Europe, and the rest of the world? Meanwhile, what makes China's emerging corporations so dangerously competitive? What will happen when China manufactures nearly everything -- computers, cars, jumbo jets, and pharmaceuticals -- that the United States and Europe can, at perhaps half the cost? How do these developments reach around the world and straight into all of our lives? These are ground-shaking questions, and China, Inc. provides answers. Veteran journalist Ted C. Fishman shows how China will force all of us to make big changes in how we think about ourselves as consumers, workers, citizens, and even as parents. The result is a richly engaging work of penetrating, up-to-the-minute reportage and brilliant analysis that will forever change how readers think about America's future.

My Beloved Friend, JUDAS Vincent L. Di Paolo,2015-10-15 In the year 2023, after a nuclear Armageddon, only a few pockets of people have survived. One of these groups of survivors, mostly rock climbers and mountaineers, subsists through the leadership of Jude, a biblical archaeologist and rock climber. Jude is given a chance to go back in time by using an invention of a surviving U.S. scientist. Jude is transported back to Palestine during the first century, where he searches for Jesus, to verify if he truly was the Messiah, or a charlatan. Dying from nuclear cancer, Jude spends most of his given time looking for Jesus, finally finding him meditating on a mountaintop. Jude, mesmerized by Ishia's (Jesus) power becomes his first follower and best friend, Judas. His friendship and his knowledge of Ishia of Nazerat become the pivotal force in the last three years of their lives. Jude becomes the Judas, torn apart between being Ishia's beloved friend and being his betrayer. The shocking and controversial ending is for you, the reader, to read and discover. It will tear at your very soul but it will rejuvenate and strengthen your faith in Jesus Christ. A must for every Christian to read!

An Analysis of the Philippine Retail Structure Timo Priester,2012-02-20 With over 7,000 islands, the Philippines is the world’s largest group of islands. For hundreds of years, the beautiful Southeast Asian archipelago was fairly isolated from its neighbouring as well as western countries. Only since 2000, the Philippines began to open its business markets to foreign investors. In his book, Timo Priester scrutinizes the Philippine retail structure. He offers interesting insights about the organization of Manila’s (the country’s dominant capital) retail trade. The principal focus is on three different business markets: The Mobile, the Home Appliances and the Audio Visual Market.

The Global Flow of Information Ramesh Subramanian,Eddan Katz,2011-08-01 The Internet has been integral to the globalization of a range of goods and production, from intellectual property and scientific research to political discourse and cultural symbols. Yet the ease with which it allows information to flow at a global level presents enormous regulatory challenges. Understanding if, when, and how the law should regulate online, international flows of information requires a firm grasp of past, present, and future patterns of information flow, and their political, economic, social, and cultural consequences. In The Global Flow of Information, specialists from law, economics, public policy, international studies, and other disciplines probe the issues that lie at the intersection of globalization, law, and technology, and pay particular attention to the wider contextual question of Internet regulation in a globalized world. While individual essays examine everything from the pharmaceutical industry to television to “information warfare” against suspected enemies of the state, all contributors address the fundamental question of whether or not the flow of information across national borders can be controlled, and what role the law should play in regulating global information flows. Contributors: Frederick M. Abbott, C. Edwin Baker, Jack M. Balkin, Dan L. Burk, Miguel Angel Centeno, Dorothy E. Denning, James Der Derian, Daniel W. Drezner, Jeremy M. Kaplan, Eddan Katz, Stanley N.
