The Complete Sneaker Reseller Guide Sole Masterson,2016-05-11 The hottest growing eBay business today is reselling high-demand sneakers, clothing, and cosmetics. And no wonder: A properly-guided newbie with less than \$2,000 working capital can realistically create a part-time business that within 2-3 months' time is netting \$50,000 annually from 4-6 hours per week "work" (which most participants actually find to be a heck of a lot of fun). You don't need a secret supply source for this - you only need to know what to buy and when/how to buy it, because we're purchasing product at retail and reselling it to hungry, hyped-up buyers for a 50% to 300%+ profit margin ...yes, you read that right, and we do it all day long, baby. The stuff we target sells out within minutes of release time and then flies off eBay all month long, often for double+ retail. The Sole Master's new 24,000+ word training manual will eliminate the normally-long learning curve for becoming a successful sneaker aftermarket seller. He'll teach you all the tricks of the trade that no one else is willing to show you, including: - Which products to target, and why - Where to get early release info, drop dates, and links - How to properly analyze the aftermarket before pulling the trigger - The proper banking setup so your orders always check-out without problems - How to cop multiples on limited "one per customer" releases - A list of the best "sneaker bot" software programs and a detailed tutorial on how to use them - Web browser tricks that will have you manually copping just as many items as your bots grab - How to nab the sudden restock alerts with a high success rate - Where, when, and how to resell your inventory quickly for the best prices - A complete business plan that will have you netting \$3500+ from your 2nd month forward - Personal help if you need it Looking for a fun side business that can make your house and car payments? This is it. Copping high-demand sneakers is a blast, my friends, and satisfyingly profitable to boot. If you sit in front of a computer every day and can squeeze in a few minutes of side-activity here and there, the sneaker reseller business is for you. So let's get started...

The Complete Idiot's Guide to Social Media Marketing, 2nd Edition Jennifer Abernethy,2012-04-03 The Complete Idiot's Guide® to Social Media Marketing, Second Edition, covers cutting-edge techniques for small and large businesses alike. Ask the Author Q: How has social media marketing changed business and personal lives? A: The playing field has been leveled for business. No longer do you need a 6 or 7 figure budget to reach people around the country or globe for that matter. Personally, many lives have been affected. Many people more connected, businesses have grown because of the connections, TV and singing careers have been launched, money has been raised for charity, books have been marketed and purchased, and so on. Q: What has been the most challenging part of utilizing social media? A: I think the learning curve. With all of these sites . . . they come with no directions and no LIVE phone number. Q: What has worked the best and worst thus far? A: Facebook because of it's broad reach really has worked for me, but many would argue that YouTube works the best; particularly since it is the search engine of choice with the 11-34 age group. Q: How can a person searching for a job use social media marketing? A: So many ways. . . . They need to be on LinkedIn with a professional looking profile, photo, and contact information. They could also

utilize video to begin sharing their expertise. Candidates need to stand out in a crowd of millions so if they say . . . sent in a video introducing themselves and a video follow up email . . . that would wow them! Q: What is the newest thing since Twitter? A: I believe companies and individuals are starting to utilize audio for creating their own iTunes channel, and also location-based social media like FourSquare. I personally, am not sold on location based services as of yet from a safety point of view, but for retailers it can be a good thing. I believe video is going to explode in popularity in 2011 for the 35+ market as well. They just need to get comfortable being on camera!
