Brightly Burning Alexa Donne, 2018-05-01 "One of the most anticipated YA debuts of 2018, *Brightly Burning* is a gothic, romantic mystery with hints of *Jane Eyre*, *Marissa Meyer*, and *Kiera Cass*." -Entertainment Weekly "*Brightly Burning* delivers a brooding gothic mystery and a swoony romance, all set in space. Donne's atmospheric, twisty update of a cherished classic will keep you up late into the night!" -Elly Blake, NYT bestselling author of the *Frostblood Saga* Stella Ainsley leaves poverty behind when she quits her engineering job aboard the *Stalwart* to become a governess on a private ship. On the *Rochester*, there's no water ration, more books than one person could devour in a lifetime, and an AI who seems more friend than robot. But no one warned Stella that the ship seems to be haunted, nor that it may be involved in a conspiracy that could topple the entire interstellar fleet. Surrounded by mysteries, Stella finds her equal in the brooding but kind nineteen-year-old Captain Hugo. When several attempts on his life spark more questions than answers, and the beautiful Bianca Ingram appears at Hugo's request, his unpredictable behavior causes Stella's suspicions to mount. Without knowing who to trust, Stella must decide whether to follow her head or her heart. Alexa Donne's lush and enthralling reimaging of the classic *Jane Eyre*, set among the stars, will seduce and beguile you.

Researching and Teaching Second Language Writing in the Digital Age Mimi Li, 2022-01-10 This book presents a comprehensive approach to issues related to researching and teaching second language (L2) writing in digital environments. In the digital age, new technologies have revolutionized the ways we communicate and construct knowledge, and have also reshaped the traditional notions of writing and literacy,

posing new challenges and opportunities for L2 teachers and students. This book provides up-to-date coverage of the main areas of L2 writing and technology, including digital multimodal composing, computer-mediated collaborative writing, online teacher and peer feedback, automated writing evaluation, and corpus-based writing instruction. It synthesizes the relevant literature, analyzes theoretical perspectives, compiles relevant resources, and offers research and pedagogical recommendations to guide scholars in undertaking new L2 writing research and instructional practice in technologically-supported educational contexts. This book will be of relevance and interest to researchers, language teachers, and graduate students in applied linguistics and education.

Digital Literacies Mark Pegrum, Nicky Hockly, Gavin Dudeney, 2022-05-11 Dramatic shifts in our communication landscape have made it crucial for language teaching to go beyond print literacy and encompass the digital literacies which are increasingly central to learners' personal, social, educational and professional lives. By situating these digital literacies within a clear theoretical framework, this book provides educators and students alike with not just the background for a deeper understanding of these key 21st-century skills, but also the rationale for integrating these skills into classroom practice. This is the first methodology book to address not just why but also how to teach digital literacies in the English language classroom. This book provides: A theoretical framework through which to categorise and prioritise digital literacies Practical classroom activities to help learners and teachers develop digital literacies in tandem with key language skills A thorough analysis of the pedagogical implications of developing digital literacies in teaching practice A consideration of exactly how to integrate digital literacies into the English language syllabus Suggestions for teachers on how to continue their own professional development through PLNs (Personal Learning Networks), and how to access teacher development opportunities online. This book is ideal for English language teachers, English language

learners of all ages and levels, academics and researchers of all age groups and levels, academics and students researching digital literacies, and anyone looking to expand their understanding of digital literacies within a teaching framework.

How to Build Your Own Web Site with Little Or No Money Bruce Cameron Brown, Brown, 2010 Web sites are an essential tool that every business must have in today's economy. Only 15 years ago, you could count the number of Web sites in the world with five or six digits; today there are between 15 and 30 billion active Web sites and millions more being added every day. Creating a Web site can be a great way to market a new product, promote your business plan, promote yourself, or simply share a few details about your life with the world. The cost of creating a Web site has risen right alongside the number of Web sites created though and many people are nervous about being able to utilise this revolutionary medium without breaking the bank. This book has been created for just such people, outlining for you in perfect detail everything you need to know to create a traffic attracting Web site, while spending little or no money at all. There are countless resources available, and when you put them all together, they provide a complete toolkit that can make anyone a top notch Web site in no time flat. You will learn how to buy a domain name and host your Web site for less than \$15, with no additional fees charged to your account. You will learn how to use open source software like Wordpress, Joomla, and Mambo to create a platform on which you can build anything you want. You will learn

how blogging has made Web site creation easier than ever and how sites like Squidoo, Facebook, and MySpace allow you more freedom to build traffic and draw more attention to what you are advertising at any given time. You will learn how to use common software to edit and tweak your Web sites and how to read the basic code that all Web sites are created in. In addition, an entire chapter is devoted to teaching you how to promote your Web site and draw traffic to it, without spending a dime in the process. You will learn why information is the most valuable asset on the market and how you can become an expert in a niche of your choosing, making money to cover any fees associated with your Web site. With the added resource of hours of interviews with web professionals you will learn which free resources not to use and which ones to outright avoid, as well as how to find and install open source modules and tools to enhance the look and feel of your site. You will learn where you can find copyright-free images to use on your Web sites and how to get free copy that will draw traffic and entertain your visitors. You will learn how to keep a free Web site from falling into the traps the major search engines set to stop spam and ultimately how to leverage new friends, business contacts, and interactions out of your Web site. If you are now, or have ever, considered starting your own Web site before, this book will map the way for you.

My City Links: September 2023 Issue My City Links, 2023-09-01 Ask anyone who they look up to and give credit to for being the person that they have become, chances are that a teacher will be on their list along with parents, family members, and close friends. To mark Teacher's Day, our Cover Story for this edition pays tribute to the role that teachers play in our lives. Anybody who was around in the 80s would remember the pulsating

beats and the psychedelic lights that were synonymous with a new form of music that held the world in thrall. A special feature in City Tales revisits the birth of Disco music, its impact on the Bollywood film industry, and its eventual decline of sorts. With the growing realisation that Artificial Intelligence (AI) is here to stay, discussions these days often veer around to the influence this latest revolution in technology can have on different human endeavours. In City Tech, we take a look at some of the latest AI tools that can be used for a variety of functions. As it happens, advances in technology invariably come with their own unique challenges. Preventing cybercrime and identifying the perpetrators is one such challenge for law enforcement agencies these days and official data on the nature and number of such incidents presents a grim picture. Twin City police chief Soumendra Priyadarshi discusses the challenges in City Beat. The section also looks at diseases like dengue that make an appearance during the monsoon season. We speak with health and municipal officials to bring you a ground report. In Screen Shots, we catch up with the newest star on the block who is creating quite the buzz on the OTT circuit these days. Life has not been the same for actor Prem Parija, who had earlier worked as an assistant director for Bollywood films, since he was signed up to play the lead role in the 'Commando' series. The section also features Odia film producer Sanjay Nayak and filmmaker NG Reddy. During the course of a freewheeling chat, they discuss the current state of the Ollywood film industry and what needs to be done to draw the audience back to the movie theatres. This edition explores the interesting 200-year-old Urdu poetry tradition of 'Mushaira' in the city of Cuttack (City Culture) and the inspiring story of an 18-year-old entrepreneur who is rewriting the rules of success (City Biz).
