Maria Theresa Barbara Stollberg-Rilinger, 2022-01-18 A major new biography of the iconic Austrian empress that challenges the many myths about her life and rule Maria Theresa (1717–1780) was once the most powerful woman in Europe. At the age of twenty-three, she ascended to the throne of the Habsburg Empire, a far-flung realm composed of diverse ethnicities and languages, beset on all sides by enemies and rivals. Barbara Stollberg-Rilinger provides the definitive biography of Maria Theresa, situating this exceptional empress within her time while dispelling the myths surrounding her. Drawing on a wealth of archival evidence, Stollberg-Rilinger examines all facets of eighteenth-century society, from piety and patronage to sexuality and childcare, ceremonial life at court, diplomacy, and the everyday indignities of warfare. She challenges the idealized image of Maria Theresa as an enlightened reformer and mother of her lands who embodied both feminine beauty and virile bellicosity, showing how she despised the ideas of the Enlightenment, treated her children with relentless austerity, and mercilessly persecuted Protestants and Jews. Work, consistent physical and mental discipline, and fear of God were the principles Maria Theresa lived by, and she demanded the same from her family, her court, and her subjects. A panoramic work of scholarship that brings Europe's age of empire spectacularly to life, Maria Theresa paints an unforgettable portrait of the uncompromising yet singularly charismatic woman who left her enduring mark on the era in which she lived and reigned.

Area-wide Integrated Pest Management Jorge Hendrichs, Rui Pereira, Marc J.B. Vreysen, 2021-02-01 Over 98% of sprayed insecticides and 95% of herbicides reach a destination other than their target species, including non-target species, air, water and soil. The extensive reliance on insecticide use reduces biodiversity, contributes to pollinator decline, destroys habitat, and threatens endangered species. This book offers a more effective application of the Integrated Pest Management (IPM) approach, on an area-wide (AW) or population-wide (AW-IPM) basis, which aims at the management of the total population of a pest, involving a coordinated effort over often larger areas. For major livestock pests, vectors of human diseases and pests of high-value crops with low pest tolerance, there are compelling economic reasons for participating in AW-IPM. This new textbook attempts to address various fundamental components of AW-IPM, e.g. the importance of relevant problem-solving research, the need for planning and essential baseline data collection, the significance of integrating adequate tools for appropriate control strategies, and the value of pilot trials, etc. With chapters authored by 184 experts from more than 31 countries, the book includes many technical advances in the areas of genetics, molecular biology, microbiology, resistance management, and social sciences that facilitate the planning and implementing of area-wide strategies. The book is essential reading for the academic and applied research community as well as national and regional government plant and human/animal health authorities with responsibility for protecting plant and human/animal health.

Liver wort genera of Thai Land Phiangphak Sukkharak, 2022-04-01 Liverworts, (division Marchantiophyta), are any of more than 7,000 species of small non-vascular spore-producing plants. Liverworts are distributed worldwide, though they are most commonly found in the tropics area. In Thailand, liverworts have been collected and studied since 1899. The book "Liverwort genera of Thailand" by Assoc. Prof. Dr. Phiangphak Sukkharak, Department of Biology, Faculty of Science, Burapha University, provides a synopsis on the liverwort genera of Thailand, in which 520 species in 93 genera and 39 families have been reported, representing about 7% of the world's liverwort species. The book consists of an introduction to liverworts, history of liverwort studies in Thailand, classification of liverworts in Thailand, key to genera of liverworts found in Thailand, generic descriptions, illustrations, discussion of the most important features for identification, data on the distribution and ecology, as well as the number of species worldwide and in Thailand.

Intelligent Information and Database Systems Manh Thanh Le, Jerzy Swiatek, Ngoc Thanh Nguyen, 2010-03-05 The 2010 Asian Conference on Intelligent Information and Database Systems (ACIIDS) was the second event of the series of international scientific conferences for research and applications in the field of intelligent information and database systems. The aim of ACIIDS 2010 was to provide an international forum for scientific research in the technologies and applications of intelligent information, database systems and their applications. ACIIDS 2010 was co-organized by Hue University (Vietnam) and Wroclaw University of Technology (Poland) and took place in Hue city (Vietnam) during March 24–26, 2010. We received almost 330 papers from 35 countries. Each paper was peer reviewed by at least two members of the International Program Committee and International Reviewer Board. Only 96 best papers were selected for oral presentation and publication in the two volumes of the ACIIDS 2010 proceedings. The papers included in the proceedings cover the following topics: artificial social systems, case studies and reports on deployments, collaborative learning, collaborative systems and applications, data warehousing and data mining, database management technologies, database models and query languages, database security and integrity, - business, e-commerce, e-finance, e-learning systems, information modeling and - requirements engineering, information retrieval systems, intelligent agents and multi-agent systems, intelligent information systems, intelligent internet systems, intelligent optimization techniques, object-relational DBMS, ontologies and information sharing, semi-structured and XML database systems, unified modeling language and unified processes, Web services and Semantic Web, computer networks and communication systems.

Secret Partners Timothy R. Mahoney, 2013-09-15 Among the most dangerous criminals of the public enemies era was a man who has long hidden in history's shadows: Tom Brown. In the early 1930s, while he was police chief of St. Paul, Minnesota, Brown became a secret partner of the infamous Barker gang. He profited from their violent crimes, he protected the gang from raids by the nascent FBI—and while he did all this, the gangsters gunned down cops and citizens in his hometown. Big Tom Brown, 6'5 and 275 pounds, continued to enforce St. Paul's corrupt O'Connor system, allowing criminals to stay in the city as long as they paid off the cops and committed no crimes within fifty miles. But in the early 1930s, the system broke down: no longer supported by cash skimmed from illegal booze, gangsters turned to robbing banks, and the Barker gang kidnapped two of the prominent citizens who had been complicit in the liquor trade. Brown was the insider who kept the criminals safe—but for highly political reasons,

he was never convicted of his crimes. Timothy Mahoney tells this fascinating story, details how the fraud was uncovered, and at last exposes the corruption of a secret partnership.

Modernity for the Masses Ana María León, 2021-03-16 Throughout the early twentieth century, waves of migration brought working-class people to the outskirts of Buenos Aires. This prompted a dilemma: Where should these restive populations be situated relative to the city's spatial politics? Might housing serve as a tool to discipline their behavior? Enter Antonio Bonet, a Catalan architect inspired by the transatlantic modernist and surrealist movements. Ana María León follows Bonet's decades-long, state-backed quest to house Buenos Aires's diverse and fractious population. Working with totalitarian and populist regimes, Bonet developed three large-scale housing plans, each scuttled as a new government took over. Yet these incomplete plans—Bonet's dreams—teach us much about the relationship between modernism and state power. Modernity for the Masses finds in Bonet's projects the disconnect between modern architecture's discourse of emancipation and the reality of its rationalizing control. Although he and his patrons constantly glorified the people and depicted them in housing plans, Bonet never consulted them. Instead he succumbed to official and elite fears of the people's latent political power. In careful readings of Bonet's work, León discovers the progressive erasure of surrealism's psychological sensitivity, replaced with an impulse, realized in modernist design, to contain the increasingly empowered population.

Contemporary Ecology Research in China Wenhua Li, 2015-10-26 The Chinese government is increasingly focusing on ecological construction and has subscribed to a national "Ecological Civilization Construction". Ecological research and protection practice develop so fast and achieve a lot at the national agenda. This book is a synthesis of five most exciting and dominant themes in contemporary ecological research in China: biodiversity, ecosystem management, degraded ecosystem restoration, global change and sustainable development. This book spans all the Earth's major ecosystems, such as forests, oceans, grasslands, wetlands, lakes, rivers, farmland and cities. This book provides a platform for scientific research across a variety of disciplines. It will be invaluable to experts, policymakers and local officers and will also be a highly useful resource for undergraduate and postgraduate students. This book will allow researchers, students and policymakers outside China to learn about the significant achievements and applications of ecological research within China.

It has an expanded table of contents and a complete index for finding answers fast, plus quick-reference tabs for finding specific information and chapters. This hands-on guide covers both the Windows 2000 Professional and the Windows 2000 Server versions, but because much of the information applies to previous versions of Windows as well, administrators of Windows NT 4.0 can also use it. They'll find to be an invaluable resource, both for supporting current Windows systems and for migrating to Windows 2000.

Marvin Smalheiser Legacy with Tai Chi , 2017-11-30 This book is an accumulation of Master Marvin Smalheiser's writing in the Tai Chi magazine from its inception in 1977 till 2016. Master Smalheiser was the editor and the owner of Tai Chi magazine, and he published only an article related to tai chi. He was a practitioner as well as a teacher. He lived what he thought was the best way of life: helpful, humble, and down-to-earth. This book covers many aspects and benefits of tai chi as a martial art that Master Smalheiser felt to write about. Some of the topics are meditation, relaxation, self-defense, the types of tai chi, history, health, personal interviews with masters in the US and abroad, and more. It was Master Smalheiser's wish to write books about tai chi, but his untimely death did not allow him to get the books done. I do not know much about tai chi; therefore, I gathered some of his writings and made this book to benefit all the tai chi practitioners as Master Smalheiser wanted. It is my wish that the tai chi enthusiasts will enjoy the book and remember Master Marvin Smalheiser.

Georgi Dimitrov Marietta Stankova,2010-02-28 Georgi Dimitrov burst onto the international scene in 1933 as one of the Comintern operatives in Germany accused of the Reichstag fire. The Bulgarian Communist's spirited self-defence in the resulting Leipzig Trial made him a celebrity among Communists worldwide - particularly in the Soviet Union, where he became Secretary General of the Comintern after his acquittal. Popular opinion holds that this 'whirlwind', who defied Goering and the Nazis in full view of the world, subsequently became little more than a rubber stamp for Stalin. This lucid and fascinating biography - the first in English - reveals a more multifaceted treatment of Dimitrov, highlighting especially the deep complexity of his relationships with his two greatest political allies: Stalin and Tito. With unique authority drawn from extensive archival research, Marietta Stankova strips away decades of conventional wisdom to reveal Georgi Dimitrov in all his roles: as labour agitator, Leipzig Trial icon, loyal Stalinist and Pan-Balkan visionary. Dimitrov entered radical politics at an early age and was a central figure in the formation of the Bulgarian Communist Party in 1919. A failed uprising forced him into exile and brought him in disfavour in his Party - which he counteracted through loyal inconspicuous service at the Comintern, where he was eventually put in charge of the Western European section. Following his spectacular clash with the Nazis in the Leipzig Trial, Dimitrov was appointed General Secretary of the Comintern. In this post, Dimitrov was Communism's ambassador to dissidents and radicals the world over. At the same time, he was deeply implicated in the Soviet political purges of the latter 1930s. Through these he also consolidated his leadership of his native Party but it was only in 1946, two years after the Bulgarian communists had seized power in the wake of World War II, that he was sent home to lead the new Bulgarian Communist government. Working against ill health and Stalin's often unpredictable behaviour, he remained committed to the establishment of Communism in Bulgaria and to upholding Soviet interests, even if this meant the destruction of one of his lifelong aspirations, a Balkan Federation. Using new and unpublished sources, Stankova brilliantly reconstructs the dilemmas that Dimitrov faced throughout his long and varied political career. This definitive and long-overdue biography makes a major contribution to the history of Bulgaria and of the Balkans as a whole, as well as to the field of Communist Studies.
