The Anime Machine Thomas Lamarre, 2013-11-30 Despite the longevity of animation and its significance within the history

of cinema, film theorists have focused on live-action motion pictures and largely ignored hand-drawn and computer-generated movies. Thomas Lamarre contends that the history, techniques, and complex visual language of animation, particularly Japanese animation, demands serious and sustained engagement, and in *The Anime Machine* he lays the foundation for a new critical theory for reading Japanese animation, showing how anime fundamentally differs from other visual media. *The Anime Machine* defines the visual characteristics of anime and the meanings generated by those specifically “animetic” effects—the multiplanar image, the distributive field of vision, exploded projection, modulation, and other techniques of character animation—through close analysis of major films and television series, studios, animators, and directors, as well as Japanese theories of animation. Lamarre first addresses the technology of anime: the cells on which the images are drawn, the animation stand at which the animator works, the layers of drawings in a frame, the techniques of drawing and blurring lines, how characters are made to move. He then examines foundational works of anime, including the films and television series of Miyazaki Hayao and Anno Hideaki, the multimedia art of Murakami Takashi, and CLAMP’s manga and anime adaptations, to illuminate the profound connections between animators, characters, spectators, and technology. Working at the intersection of the philosophy of technology and the history of thought, Lamarre explores how anime and its related media entail material orientations and demonstrates concretely how the “animetic machine” encourages a specific approach to thinking about technology and opens new ways for understanding our place in the technologized world around us.

Brave, Not Perfect Reshma Saujani, 2019-02-05

INTERNATIONAL BESTSELLER • Inspired by her popular TED Talk, the founder and CEO of Girls Who Code urges women to embrace imperfection and live a bolder, more authentic life. “A

timely message for women of all ages: Perfection isn't just impossible but, worse, insidious."—Angela Duckworth, bestselling author of *Grit* Imagine if you lived without the fear of not being good enough. If you didn't care how your life looked on Instagram. If you could let go of the guilt and stop beating yourself up for making human mistakes. Imagine if, in every decision you faced, you took the bolder path? As women, too many of us feel crushed under the weight of our own expectations. We run ourselves ragged trying to please everyone, pass up opportunities that scare us, and avoid rejection at all costs. There's a reason we act this way, Saujani says. As girls, we were taught to play it safe. Well-meaning parents and teachers praised us for being quiet and polite, urged us to be careful so we didn't get hurt, and steered us to activities at which we could shine. As a result, we grew up to be women who are afraid to fail. It's time to stop letting our fears drown out our dreams and narrow our world, along with our chance at happiness. By choosing bravery over perfection, we can find the power to claim our voice, to leave behind what makes us unhappy, and to go for the things we genuinely, passionately want. Perfection may set us on a path that feels safe, but bravery leads us to the one we're authentically meant to follow. In *Brave, Not Perfect*, Saujani shares powerful insights and practices to help us let go of our need for perfection and make bravery a lifelong habit. By being brave, not perfect, we can all become the authors of our best and most joyful life.

Video Yvonne Spielmann, 2010-08-13 An argument that video is not merely an intermediate stage between analog and digital but a medium in its own right; traces the theoretical genealogy of video and examines the different concepts of video seen in works by Vito Acconci, Ulrike Rosenbach, Steina and Woody Vasulka, and others. Video is an electronic medium, dependent on the transfer of electronic signals. Video signals are in constant movement, circulating between camera and monitor. This process of simultaneous production and reproduction makes video the most reflexive of media, distinct from both photography and film (in which the image or a sequence of images is central). Because

it is processual and not bound to recording and the appearance of a “frame,” video shares properties with the computer. In this book, Yvonne Spielmann argues that video is not merely an intermediate stage between analog and digital but a medium in its own right. Video has metamorphosed from technology to medium, with a set of aesthetic languages that are specific to it, and current critical debates on new media still need to recognize this. Spielmann considers video as “transformation imagery,” acknowledging the centrality in video of the transitions between images—and the fact that these transitions are explicitly reflected in new processes. After situating video in a genealogical model that demonstrates both its continuities and discontinuities with other media, Spielmann considers three strands of video praxis—documentary, experimental art, and experimental image-making (which is concerned primarily with signal processing). She then discusses selected works by such artists as Vito Acconci, Ulrike Rosenbach, Joan Jonas, Nam June Paik, Peter Campus, Dara Birnbaum, Nan Hoover, Lynn Hershman, Gary Hill, Steina and Woody Vasulka, Bill Seaman, and others. These works serve to demonstrate the spectrum of possibilities in video as medium and point to connections with other forms of media. Finally, Spielmann discusses the potential of interactivity, complexity, and hybridization in the future of video as a medium.

Liquid Memory Jonathan Nossiter, 2010-09-28 Jonathan Nossiter, acclaimed filmmaker and former sommelier, had his first taste of wine at the age of three in Paris, from his father's fingertip. For him, wine is memory in its most liquid and dynamic form, as essential an expression of culture as cinema, books, baseball, painting, even sex. With great wit and passion, he celebrates wine and its enthusiasts—and defends both from those who tell us what to drink and how to think about it. In *Liquid Memory*, the American expatriate investigates the infinite mysteries of terroir, the historical sense of place that makes wine a living, thrilling expression of cultural identity that can stretch back centuries. The book is a deliriously joyful master class in locating the soul of a wine, and in learning to trust your own palate and desires. Nossiter, who has already created an uproar in the world of wine with his film *Mondovino*, arms us against the tyranny of snobs, critics, and charlatans who would prevent us from taking part in what should be a gloriously democratic bacchanalia. From the sacred wine shops and three-star restaurants of Paris to the biodynamic vineyards of Burgundy, from the hipster bistros of New York to film locations in Rio de

Janeiro and Athens, this singular journey invites us to consider how power, misused, can sometimes mask an absence of taste—and how our own personal taste can combat power in any sphere. A controversial bestseller in Europe, *Liquid Memory* is sure to rile the establishment, enlighten the thirsty, and reveal the inner life of the world's most mysterious, contradictory, and jubilatory drink.

Alan Moore Another Suburban Romance Alan

Moore, 1999-06-30 Collecting the performance work of Alan Moore, the Hugo-Award winning author of WATCHMEN, in a graphic storytelling format, as he explores the America's love affair with Gangland mobsters and the modern notion of romance.

Mitch Epstein: Property Rights, 2021-06-29 Who owns the land, by whose authority, and with what rights? Mitch Epstein examines the American government's ongoing legacy of property confiscation, and how communities gather to resist Epstein began his latest series in 2017 at Standing Rock, where thousands protested the installation of the Dakota Access Pipeline on Sioux land. Over four years, he charted other contested lands from Pennsylvania and Hawaii to the Mexican border, as well as land loss through wildfires and flooding due to egregious environmental negligence. In keeping with Epstein's 50-year exploration of American life, Property Rights questions the relationship between institutions, civil rights and the rights of nature itself. Acknowledging our bodies and lives as our most fundamental property, the book examines other forms of trespass and destruction in an elegy to the Tree of Life Synagogue massacre, and in photographs of Black Lives Matter protests during COVID-19. Property Rights includes the voices of activists Epstein interviewed while making this deeply personal and political work. In a time of alarming division, the book describes diverse communities in a common fight against politicians and plutocrats willing to sacrifice the people's well-being. A pioneer of

1970s art photography, Mitch Epstein(born 1952) has photographed the landscape and psyche of America for half a century. Numerous collections hold his work, including the Museum of Modern Art and Tate Modern; in 2013, the Walker Art Center commissioned a theatrical rendition of his American Powerseries. Epstein has described the cultural and physical evolution of the United States from 1973 to 2019 in his Steidl books Family Business(2003), Recreation(2005), American Power(2011), New York Arbor(2013), Rocks and Clouds(2017) and Sunshine Hotel(2019).
