**Real Drugs in a Virtual World** Edward Murguia,Melissa Tackett-Gibson,Ann Lessem,2007-02-01 Drug Abuse (NIDA) funded research project on drug information and online drug-related communities. The editors of this pivotal text, Edward Murguia, Ann Lessem, and Melissa Tackett-Gibson, elevate the debate about drug use and the Internet from a polemic discourse to social scientific investigation. The essays confront issues related to the study of drug communication online, including the causal factors of abuse as discussed in online forums, the relationship between music and drug use in virtual communities, and the ways in which individuals assess the accuracy of online drug information. This book highlights the variety of ways to examine drug use as a social problem and presents several theoretical perspectives valuable to online research. Real Drugs in a Virtual World is an enlightening and thought provoking read that will appeal to sociology students and those interested in virtual communities.

**Pictorial Communication In Real And Virtual Environments** Stephen Ellis,1991-06-04 Advances in the quality and accessibility of computer graphics has provided new pictorial displays and the tools with which to control them. These new display technologies have focused interest on how to design the static and dynamic images they produce to ensure effective communication. This book, based on the conference on Spatial Displays and Spatial instruments held at the Asilomar Conference Centre in 1987, focuses on the geometry of this communication. It is intended to be a source book of theoretical analysis, experimental demonstrations and practical examples from a range of contributors interested in pictorial communication, from medical artists to astronauts. The book offers the theoretical background and practical guidance needed by designers of contemporary 2D and 3D graphical computer interfaces. Its major contribution lies in its outlining of the elements of human perception and motor control which underlie the geometric design of head-mounted graphics for virtual reality displays.

**1 and 2 Kings** August H. Konkel,2010-05-11 The NIV Application Commentary helps you communicate and apply biblical text effectively in today's context. To bring the ancient messages of the Bible into today's world, each passage is treated in three sections: Original Meaning. Concise exegesis to help readers understand the original meaning of the biblical text in its historical, literary, and cultural context. Bridging Contexts. A bridge between the world of the Bible and the world of today, built by discerning what is timeless in the timely pages of the Bible. Contemporary Significance. This section identifies comparable situations to those faced in the Bible and explores relevant application of the biblical messages. The author alerts the readers of problems they may encounter when seeking to apply the passage and helps them think through the issues involved. This unique, award-winning commentary is the ideal resource for today's preachers, teachers, and serious students of the Bible, giving them the tools, ideas, and insights they need to communicate God's Word with the same powerful impact it had when it was first written.

**Prophets of the Dark Side** Paul Davids,Hollace Davids,1997 Having tempted the young Jedi Prince Ken into revealing the location of the Lost City of the Jedi, the Supreme Imperial Prophet Kadann plans to steal ancient knowledge and rule over a new tyrannical empire.

*Tecumseh and the Prophet* Peter Cozzens,2021-08-03 An insightful, unflinching portrayal of the remarkable siblings who came closer to altering the course of American history than any other Indian leaders. —H.W. Brands, author of *The Zealot and the Emancipator* The first biography of the great Shawnee leader to make clear that his misunderstood younger brother, Tenskwatawa, was an equal partner in the last great pan-Indian alliance against the United States. Until the Americans killed Tecumseh in 1813, he and his brother Tenskwatawa were the co-architects of the broadest pan-Indian confederation in United States history. In previous accounts of Tecumseh's life, Tenskwatawa has been dismissed as a talentless charlatan and a drunk. But award-winning historian Peter Cozzens now shows us that while Tecumseh was a brilliant diplomat and war leader--admired by the same white Americans he opposed--it was Tenskwatawa, called the Shawnee Prophet, who created a vital doctrine of religious and cultural revitalization that unified the disparate tribes of the Old Northwest. Detailed research of Native American society and customs provides a window into a world often erased from history books and reveals how both men came to power in different but no less important ways. Cozzens brings us to the forefront of the chaos and violence that characterized the young American Republic, when settlers spilled across the Appalachians to bloody effect in their haste to exploit lands won from the British in the War of Independence, disregarding their rightful Indian owners. Tecumseh and the Prophet presents the untold story of the Shawnee brothers who retaliated against this threat--the two most significant siblings in Native American history, who, Cozzens helps us understand, should be writ large in the annals of America.

*An Introduction to the Old Testament Prophetic Books* C. Hassell Bullock,2007-05-01 The Old Testament prophets spoke to Israel in times of historical and moral crisis. They saw themselves as being a part of a story that God was weaving throughout history--a story of repentance, encouragement, and a coming Messiah. In this updated introductory book, each major and minor prophet and his writing are clustered with the major historical events of their time. Our generational distance from the age of the prophets might seem to be a measureless chasm. Yet we dare not make the mistake of assuming that passing years have rendered irrelevant not only the Old Testament prophets, but also the God who comprehends, spans, and transcends all time. In these pages, C. Hassell Bullock presents a clear picture of some of history's most profound spokesmen--the Old

Testament prophets--and the God who shaped them.

**Topless Prophet** Alan Markovitz, Thomas Daniel Stevens, 2009 Prepare to enter the privileged world of the gentleman's club, a world where fantasy, desire, and money mix to form a potent and volatile reality that surpasses fiction at every turn. Now prepare to see this world through the eyes of the man who has seen more than anyone, from the true personalities of the women performing on stage to what really goes on behind the stage. No other autobiography comes anywhere close to putting the reader into what life is really like on the erotic side of the fast track, to be down for the count and then back in action running stronger and harder than ever. So, what are you waiting for? Let the valet take your car and step inside, let your eyes adjust to the light, and then prepare to have hem opened wide by the sights, sounds, and sensations found within the seductive realm of the modern gentleman's club. And the story of the gentleman who brought it all to life; a titillating tale that's part Mickey Spillane, part Fortune 500, and entertaining.

**NIVAC Bundle 2: Historical Books** Robert L. Hubbard, Jr., K. Lawson Younger, Bill T. Arnold, August H. Konkel, Andrew E. Hill, Karen H. The Medea & Hippolytus Euripides, 1896

Following (Pastoring for Life: Theological Wisdom for Ministering Well) Jason Byassee, Andria Irwin, 2021-08-10 [An] insightful exploration of Christian discipleship in the digital age.--Publishers Weekly This book offers theological perspectives on the challenges of discipleship in a digital age, showing how new technologies and the rise of social media affect the way we interact with each other, ourselves, and the world. Written by a Gen X digital immigrant and a Millennial digital native, the book explores a faithful response to today's technology as we celebrate our embodied roles as followers of Christ in a disembodied time.

**Project Alpha** D. J. MacHale, 2015 Eight boys and girls compete for a spot on the space voyage that'll search for a source to solve Earth's energy crisis.

*Jesus and Moses Are Buried in India, Birthplace of Abraham and the Hebrews!* Gene Matlock, 2000-11 Jesus and Moses are Buried in India, Birthplace of Abraham and the Hebrews! is a new kind of biblical history that brings out facts, not myths and guessing games. Unlike priests and preachers, who exhort their followers to swallow lies and spiritual ordure, I don't want my readers to swallow what I say naively. They should check all my references for themselves. This book follows the ancestors of the Hebrews from Eastern Siberia down to what is now the Indian subcontinent; later, to what is now Israel. You'll be surprised to find out who and what Jehovah, Abraham, Sarah, Moses, Jesus really were. The book also blasts dangerous myths, such as the Christian fundamentalists' assertion that God wants nearly all Jews to die in a Battle of Armageddon. That war happened in India, thousands of years ago. We're now in Millennium 2000. It's time for mankind to let truth take over his existence.

*An Introduction to Islamic Cosmological Doctrines* Seyyed Hossein Nasr, 1993-01-01 This is the only book to deal with classical Islamic cosmology as it was formulated by the Ikhwan al-S'afa al Biruni and Ibn Sina during the tenth and eleventh centuries. These figures influenced all the later centuries of Islamic history and in fact created the cosmological framework within which all later scientific activity in the Islamic world was carried out--the enduring image of the cosmos within which Muslims have lived during the past millennium. Nasr writes from within the Islamic tradition and demonstrates how, based on the teachings of the Quran and the Prophet, the figures treated in this work integrated elements drawn from various ancient schools of philosophy and the sciences. This book is unique in its treatment of classical Islamic cosmology as seen from within the Islamic world-view and provides a key for understanding of traditional Islamic thought. -- Back cover.

The Films of the Nineties W. Palmer, 2009-03-02 By breaking down classic films from the nineteen-nineties such as Forest Gump and Titanic, this book offers a reel-to-reel cultural analysis, chronicling the concept of 'spin' as a major sociopolitical persuasion strategy.

**Pentecostal Theology for the Twenty-First Century** May Ling Tan-Chow, 2016-05-13 In our post 9/11 world where there is a growing religious fundamentalism, and when both exclusion and easy tolerance are inadequate options, this book offers a creative alternative arguing that Pentecostalism has the potential to be a peaceful harbinger of plurality. The potential lies in its spirituality - a lively pneumatology and eschatology. The eschatological Spirit is seen as orientated towards the other, crossing boundaries in redemptive embrace, transcending exclusion and easy tolerance. This book's non-Western perspective and the empirical contextual study of Singapore's multicultural and multi-faith context are unique contributions to religion and society. This is a book for students, pastors, teachers, and theologians concerned for an approach to mission that is sensitive to their context, who want to learn from a creative theological voice from what has been perhaps the largest religious movement in history, and who see the immense potential in lively theology by Christians of the Chinese diaspora who can speak to the many millions of ethnic Chinese Christians. This book will also appeal to those outside Christianity who are interested in its attempts to engage with a complex multi-ethnic and multi-religious situation such as that in Singapore.

Intelligent Techniques for Planning Ioannis Vlahavas, Dimitris Vrakas, 2005-01-01 The Intelligent Techniques for Planning presents a number of modern approaches to the area of automated planning. These approaches combine methods from classical planning such as the construction of graphs and the use of domain-independent heuristics with techniques from other areas of artificial intelligence. This book discusses, in detail, a number of state-of-the-art planning systems that utilize constraint satisfaction techniques in order to deal with time and resources, machine learning in order to utilize experience drawn from past runs, methods from knowledge systems for more expressive representation of knowledge and ideas from other areas such as Intelligent Agents. Apart from the thorough analysis and implementation details, each chapter of the book also provides extensive background information about its subject and presents and comments on similar approaches done in the past.
