A Half Century of Super Bowls Peter Hopsicker,Mark Dyreson,2019-12-18 In 2016, the Super Bowl, the climactic spectacle of American professional football, celebrated its 50th anniversary. The Super Bowl stands as the broadest 'shared experience' in American culture. As television ratings, cultural practices, and scholarly tomes reveal, more people participate in watching the Super Bowl than in any other common endeavour in the United States. The Super Bowl has become a new national holiday dedicated to the celebration of consumption—the driving force underneath modern culture. Beyond the borders of the United States, the Super Bowl does not rank as highly as a global phenomenon, though it increasingly draws larger audiences in a few nations around the globe. Some watch as curious students of American habits, others seem to be developing affinity for American-style football. The global dynamics of the consumption of football reveal much about the dynamics of American 'soft power' and cultural influence in the new globalized social networks that are emerging as consumption increasingly powers not only the United States but also the world economy. *A Half Century of Super Bowls: National and Global Perspectives on America's Grandest Spectacle* analyzes the Super Bowl in shaping American and global communities and identities. It was originally published as a special issue of the *International Journal of the History of Sport*.

Sports Events, Society and Culture Katherine Dashper,Thomas Fletcher,Nicola Mccullough,2014-07-25 This innovative and timely volume moves beyond existing operational and pragmatic approaches to events studies by exploring sports events as social, cultural, political and mediated phenomena. As the study of this area is developing there is now a need for critical and theoretically informed debate regarding conceptualisation, significance and roles. This edited collection explores the core themes of consumption, media technologies, representation, identities and culture to offer new insight into how sports events contribute to generation of individual and shared meaning over personal, community and national identities

as well as the associated issues of conflict, resistance and power. Chapters promote a critical (re)evaluation of emerging empirical research from a diverse range of sports events and locations from the international to local level. A multi-disciplinary approach is taken with contributions from areas including sports studies, media studies, sociology, cultural studies, communications, politics, tourism and gender studies. Written by leading academics in the area, this thorough exploration of the contested relationship between sports events, society and culture will be of interest to students, academics and researchers in Events, Sport, Tourism and Sociology.

Why Not Us? Mark Arnold, 2014-03-09 After reading Pete Carroll's book *Win Forever* I had a really good feeling about the Seattle Seahawks and their 2013 NFL season. Call it a premonition, but I kind of knew this would be the year they would go to and win their first Super Bowl. Having this awareness at the outset of the season, I realized that I had an opportunity: why not create a week by week chronology of the season as it progressed, documenting the team's exploits as they advanced through the campaign to the Big Game? I am also a blogger and I thought it would be cool to publish my reports, both as the season went along as a blog, and after it was over as a book. So that is what I did, and that is what you have in *Why Not Us? A Chronology of the Seattle Seahawks' First Super Bowl Championship Season*. If you are a Twelve or just a fan of football, you will love it!
