About the Author NICK BOYCE Nick is an art school dropout who became interested in interactive design through his involvement with photography and digital media. He has been using Photoshop since version 2, and spent a lot of time using Macromedia Director before getting involved in web design. After working at an educational production unit developing CD-ROMs and videos, Nick went on to become a lecturer in Interactive Multimedia, and started maintaining a mailing list to keep his students informed of the most interesting design on the Web. In 1999 he decided to build a site that assembled the information from the mailing list into a database. The result was Anarchitect.net, which has become a popular destination for designers and still maintains a mailing list. Anarchitect also functions as a space for collaborative artwork, with several projects running per year both online and offline. Nick has been a Director at Triplezero, a web design consultancy based in Adelaide, South Australia since 1998. His goal is to buy a helicopter by the age of 25. At the time of publishing he is

24. **ISAAC FORMAN** Isaac Forman is a Director of Triplezero in Adelaide, South Australia. Discovering what to do, and how not to do it, has come from a variety of opportunities including a brief stint in educational multimedia. Since the founding of Triplezero in 1998, he has provided professional Internet design and strategy service to local and international clients. In addition, Isaac is a founder of, and prolific contributor to, the international web developer community evolt.org. He whiles away much of his spare time fighting with his cat, and playing with his kitten. Distractions include digital photography, sport, and a giant tennis ball ñ possibly the greatest purchase in his retail history. Isaac lives to eat, travel, and destroy opponents at Racing Scrabble. He has eaten a spider.

ADRIAN ROSELLI Adrian Roselli is a founder and partner at Algonquin Studios, located in Buffalo, New York, and also holds the moderately confusing title Vice President of

Interactive Media. Adrian has almost 10 years of experience in graphic design, web design, and multimedia development, as well as extensive experience in interface design and usability. He has been developing for the World Wide Web since its inception, when he should have been falling asleep in a video-editing suite. Adrian is also a board member of the American Advertising Federation affiliate in Buffalo (Brainstorm). One of the founders of evolt.org, Adrian has even found time to send scathing site critiques to some of the regulars on the evolt.org mailing list, which is where he spends much of his free time. Adrian is known as *aardvark* in the wild jungles of the Internet, although if you ask him how he got that nickname, he'll just change the subject and try to steal your sandwich.
