The Maker Cookbook Cindy Wall,Lynn Pawloski,2014-08-28 The Maker Movement is hot, and librarians are eager to participate. Even if you feel restricted by budget, staff, or space, this step-by-step guide will help you turn your library into a creativity center. The Maker Movement is sweeping the

nation because it is creative and educational—and a lot of fun. Nonetheless, some librarians have hesitated to incorporate the movement into their programming because their libraries do not have dedicated makerspaces. If that describes you, then take heart. Written by librarians for librarians, this cookbook proves that every library is already a MakerPlace and provides you with recipes to make your library come alive with creativity. Easy-to-use, step-by-step guidance helps you create engaging K–8 programs in science and technology, arts and crafts, and home skills that are perfect for the library setting. The menu of ideas is broken into four types of programming. Appetizers add a taste of the Maker movement to existing library programs. Entrees present full programs for a lengthy one-day event or a short series. Side Dishes are programs you can use if you have limited staff, budget, space, or any combination of those. Desserts are low-tech programs, suitable for young children. Each recipe includes extensions, variations, and curriculum tie-ins that give you even more ways to present the program ideas, whether to a different audience or as part of other related activities. Programs that involve creating a Balloon Zip Line, a Zen Garden, or a Maker Marketplace will delight library users and generate activity and excitement in your library.

#Share Natalie T. Wood, Caroline K. Muñoz, 2017-02-08 Each day, millions of consumers venture online to search and exchange product information and to seek out and share opinions. Electronic word-of-mouth (eWOM) communication has been shown to influence consumer actions across a variety of industries (King, Racherla, and Bush 2014). A significant portion of eWOM occurs on social media platforms. Whether it is a status update to Facebook of an upcoming vacation, a picture of a laundry room makeover on Pinterest, or a YouTube video discussing the features on the new iPhone,

consumers are turning to a variety of social platforms to make everyday purchasing decisions easier for themselves and others. Indeed, social word of mouth (sWOM)—a subset of eWOM—has incredible reach with the potential to influence over two billion active social media consumers. The purpose of this book is to examine the influence of sWOM and provide guidance on how to operationalize its growing power. The goal of this book is to bring together industry best practices and academic research to help construct social media content that speaks with your brand voice, stimulates engagement, inspires consumers to share (#share), and complies with industry and federal guidelines. Each chapter highlights a key area of sWOM that will further your understanding and provide actionable information to assist you in mobilizing positive sWOM for your company.
