Brain-Powered Weight Loss Eliza Kingsford, 2017-01-03 Losing weight and successfully maintaining it over the long term is not as much about what you put in your stomach; it's more about what's happening in the brain. In Brain-Powered Weight Loss, psychotherapist and weight management expert Eliza Kingsford shows that more than 90 percent of people who go on diet programs (even healthy ones) fail or eventually regain because they have a dysfunctional relationship with food. Changing this relationship by changing the way you think about and behave around food is what it takes to permanently achieve weight-loss success. Kingsford's 11-step first-of-its-kind program enlists dozens of mind-altering and behavior-changing exercises and techniques that shows you how to: • Identify and reverse the conscious and unconscious thinking errors and food triggers that lead to the behaviors that drive our food decisions. • Let go of the mindset of going on or off a diet in favor of a conscious quest to pursue a lifestyle of healthy eating and everyday activity—one that can last forever. • Successfully use what Kingsford calls dealing skills to outsmart high-risk situations, tame stressful times, and prevent an eating slip from leading to a setback or all-out binge. • Find out if you have what emerging research shows is an addiction to certain high-fat and sugar-added, processed foods that can be as powerful as addiction to cigarettes and narcotics. • Design a personal healthy eating program built on Kingsford's 10 Principles of Healthy Eating.

Target 100 Liz Josefsberg, 2017-12-19 When I was losing weight, Liz was more than my coach; she was my rock, and I couldn't have done it without her. She just got it, because she'd been through it herself (and helped about a million other people through it, too). Target 100 is Liz in book form—smart, supportive, and full of practical, simple solutions. Liz changed my life and my whole concept of dieting—and now can change, yours too. —Jessica Simpson When did weight loss get so complicated? Some promise success via drastic, unlivable restrictions, others are so complex they turn losing weight into a second job. In Target 100, celebrity weight-loss coach Liz Josefsberg shows you don't have to be a slave to your weight-loss program. You don't have to count every gram of every nutrient and every calorie you eat at every meal. Believe it or not, weight loss can be simple. It can even be . . . fun. A 15-year veteran of the weight-loss industry and who lost—and kept off—65 pounds herself, Liz has accrued a high-profile clientele. She helped Oscar-winner Jennifer Hudson lose weight and transform her life and coached Jessica Simpson to shed over 50 pounds of baby weight (twice!). But along with the likes of Charles Barkley and Katie Couric, Josefsberg has also coached thousands of others, everyone from stay-at-home moms to office jockeys. Along the way, she's learned what works—and what doesn't—when it comes to lasting weight loss, and she's ready to share her secrets with the rest of us. Target 100 streamlines the weight-loss process into six easy-to-follow guidelines and shows you how to adjust them to fit your lifestyle, personalizing the program so that it works for you. Josefsberg offers tips, worksheets, and powerful insights to help you fine-tune a range of weight-related behaviors, from battling stress to getting more sleep, setting the stage for permanent, long-term weight loss. Instead of counting calories, you'll learn how simple changes come together to

Weight Loss Confidential Anne M. Fletcher, 2008-01-02 The only book to go to the real experts on how teens lose weight successfully: teens who have actually done it. Using the approach that made her book Thin for Life an award-winning bestseller, Anne M. Fletcher interviewed and surveyed more than 100 teens who had lost weight – some as much as 100 pounds – as well as their parents. Many of these teens came from overweight families and had been heavy since childhood. Yet they were able to turn things around and make important lifestyle changes. How did they do it? What works? What doesn't? And what can families do to help? In Weight Loss Confidential, you'll meet: – Taylor S., who lost 100 pounds when he was sixteen and has kept the weight off for about four years. –Joelle T., who watched the scale climb beyond 200 pounds when she was in the eighth grade. She's lost 55 pounds. –Robin S., thirteen, who weighed 170 pounds by the time she was nine and who has since slimmed down. I have a lot more friends now and more energy, she says. –Wes G., Fletcher's own son, who was inspired to lose 65 pounds after meeting another boy who had lost weight. That's when Fletcher realized that teens listen more readily to other teens than to adults. Challenging conventional assumptions about teen weight loss, Fletcher distills the results of the latest scientific studies and findings of the countless authorities in the field, weaving them together with her own conclusions. In so doing, she shows that there is no one-size-fits-all prescription for teen weight loss but a variety of strategies that make a difference. With the number of overweight children and teens skyrocketing, Weight Loss Confidential offers solutions – healthy approaches that families can use for a lifetime.

Dr. Newbold's Type A - Type B Weight Loss Book H. L. Newbold,1991

The Big Fat Truth J.D. Roth,2016-04-12 When Meredith hit the finish line at the Niagara Falls Marathon last year, people in their living rooms all across America choked up. Who could help it? Here was a young woman who, just a few months earlier, had weighed in at 340 pounds on the hit ABC show Extreme Weight Loss. Now for all the world to see-and merely part way into her one-year effort to pare down-she'd (literally) gone further than she'd ever expected. From barely being able to walk up the stairs to running 26.2 miles in practically no time? The body is an amazing thing. And yet ... it's no match for the brain. It wasn't the strength of Meredith's body propelling her across the Niagara Falls finish line-it was the power of her mind. No one knows that better than JD Roth, who as the number one producer of TV weight loss shows has helped countless overweight people change their bodies-and lives-for the better. Viewers of Extreme Weight Loss, The Biggest Loser, The Revolution and other transformational shows have seen the "technicians"-the trainers, the nutritionists, the doctors, and other health pros who appear on-screen-but they've never seen the heart and soul behind these amazing makeovers. That would be JD, whose production company not only created weight loss television, but who has produced more episodes in the genre than all other producers combined. He's the behind-the-scenes wizard who gets inside the heads of the shows' participants, encouraging, persuading, prodding, and inspiring them to succeed. Intimately involved in casting the shows' contestants, then seeing them through the weight loss process, he's the guy whose picture they tape onto their elliptical trainers and angrily scream at each night-then hug out of gratitude the next morning. He's the guy who holds them when they cry and the one who tells them they need to get back on the treadmill even though they're crying. JD is the shows' tough-love dad-love being the operative word. Because it's not just TV to JD; he's on a mission to change people's lives. Every fat person (yes, "fat person"-there'll be no sugarcoating here) knows that you need to move more and eat less to shed pounds. Not exactly rocket science. Yet that simple formula doesn't get to the root of what makes someone top out at 500 pounds, or sometimes just carry an extra fifty. The missing link in transformative weight loss is mental and emotional fortitude. Mining the same problem-solving and motivational skills JD has used so successfully with reality show contestants, The Big Fat Truth gets readers to address the real reasons they're overweight (and nobody gets away with saying it's because they love food). With his combination of enthusiasm, empathy, no-holds-barred style, and master story-telling abilities, JD helps them unearth and tackle the unresolved issues they've buried under the French fries and chocolate chip cookie. Presented in three parts, The Big Fat Truth includes short straight-to-the-point chapters that help readers identify their real issues, create their own reality show, and then shake up their lives to do the impossible. Included throughout are inspiring stories, advice, and before-and-after photos from people JD has helped to lose weight (both on camera and off), along with quick tips for how to stay accountable and a 30-day plan for putting this advice into action.
