*Inner Engineering* Sadhguru,2016-09-20 NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. “A loving invitation to live our best lives and a profound reassurance of why and how we can.”—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life.” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. *Inner Engineering* presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

*Adiyogi* Sadhguru,2017-02-23 Shiva does not spell religion. Shiva spells responsibility -- our ability to take our very life process in our hands." -- Sadhguru 'Shi-va' is 'that which is not', a primordial emptiness; Shiva is also the first-ever yogi, Adiyogi, the one who first perceived this emptiness. Adiyogi is symbol and myth, historic figure and living presence, creator and destroyer, outlaw and ascetic, cosmic dancer and passionate lover, all at once. A book like no other, this extraordinary document is a tribute to Shiva, the Adiyogi, by a living yogi; a chronicle of the progenitor of mysticism by a contemporary mystic. Here science and philosophy merge seamlessly, so do silence and sound, question and answer--to capture the unspeakable enigma of Adiyogi in a spellbinding wave of words and ideas that will leave one entranced, transformed.

*Healing Mantras* Thomas Ashley-Farrand,2008-12-24 Sound is more than simply a medium of artistic expression. Sound has practical and powerful applications in the real world. Mantras, or simple chants, are short phrases packed with energy and intention--specifically designed to generate powerful sound waves that promote healing, insight, creativity, and spiritual growth. *Healing Mantras* is the practical, how-to guide that makes the strengths and benefits of mantras available to everyone. The transformative power of sound has been passed down to the present from the sages of India, the classical scientists of ancient Greece, and the medieval monks of Europe. Mantras, sounds, and chants have inspired, comforted, and mended the lives of individuals, religious orders, and even entire cultures. Even though the science and discipline of chanting and formal prayer are practiced in every religion around the world, this is the first time that ancient Sanskrit mantras have been explained and adapted to Western needs. One of the few Western experts in Hindu and Buddhist mantras, Thomas

Ashley-Farrand has practiced mantra-based spiritual disciplines for twenty-five years. In this illuminating book, he explains how and why mantras work and shows how to use them for everything from controlling habits to overcoming fear, from curing specific ailments to finding inner peace. In each of the more than fifty mantras, all translated from the original Sanskrit, Ashley-Farrand unlocks the power of every word, explains its appropriate application, and tells you how to pronounce it in easy-to-follow phonetic symbols. Inside, you'll find mantras for - Health - Worldly Success - Habit Control - Protection - Grief - Anger - Controlling Fear - Personal Attraction - Wisdom - Concentration and Mental Clarity - Healing Life Issues - and more! These mantras can be repeated aloud or in silence and can be used by people of any religion or spiritual practice, as you wash dishes, as you drive on the freeway, as you meditate, or as you cook. Sound can help and sound can heal, and Healing Mantras now makes this sound medicine available to everyone.

**Karma** Sadhguru, 2021-04-27 NEW YORK TIMES, USA TODAY, and PUBLISHERS WEEKLY BESTSELLER “Full of valuable insights to guide you.”—WILL SMITH “Thoughtful and life-affirming . . . a must-read.”—TONY ROBBINS “This book will put you back in charge of your own life.”—TOM BRADY A new perspective on the overused and misunderstood concept of “karma” that offers the key to happiness and enlightenment, from the world-renowned spiritual master Sadhguru. What is karma? Most people understand karma as a balance sheet of good and bad deeds, virtues and sins. The mechanism that decrees that we cannot evade the consequences of our own actions. In reality, karma has nothing to do with reward and punishment. Karma simply means action: your action, your responsibility. It isn’t some external system of crime and punishment, but an internal cycle generated by you. Accumulation of karma is determined only by your intention and the way you respond to what is happening to you. Over time, it’s possible to become ensnared by your own unconscious patterns of behavior. In Karma, Sadhguru seeks to put you back in the driver’s seat, turning you from a terror-struck passenger to a confident driver navigating the course of your own destiny. By living consciously and fully inhabiting each moment, you can free yourself from the cycle. Karma is an exploration and a manual, restoring our understanding of karma to its original potential for freedom and empowerment instead of a source of entanglement. Through Sadhguru’s teachings, you will learn how to live intelligently and joyfully in a challenging world.

*Inner and Outer Meanings of Hinduism* Singh M. Parashar, 2019-11-13 During earthquakes death and destruction takes place on a vast scale and no providential care is taken by Mechanical Nature. Matter is eternal and the mechanistic Nature is without consciousness and it was created by few laws of matter. A providential care is taken by Baby (child Nature with consciousness) by helping all living beings in adjusting the conditions of the environment. The Baby Nature came into existence a long time after the Big Bang. Brahman and Atman of a criminal can not be identical. Due to the presence of evil Brahman and world are not identical. The character of a man is not created by 3 Gunas. The character of every man is created by the genes for truthfulness, genes for altruism, etc. Sattva Guna (superego), Rajas and Tamas Gunas (Id) did not exist before the evolution of man from apes. Sita told the demons that she was not knowing Hanuman. Sita had given to Hanuman her jewels and had received from Hanuman a finger ring of Rama. Sita uttered a lie. Hence, Sita was not divine. There is no need of vanaprastha and sanyasa ashrama. Upanishads say: Thou art Brahman, Thou art that . The can be interpreted as: Thou art superego, thou art Id, thou art satan and thou art wolf. Buddha's doctrine of anatman is correct. The six systems of Indian philosophy can be replaced by a simple system. Existence is prior to essence . A good soul is created by doing and thinking good. Good souls are absorbed into the Supreme Spirit. This book contains a solution for creating a Hindu and Muslim unity . At red light we do not make use of free will and we copy the movements of other people. Brahman is a destroyer of maya. Karma is not a mechanical, invisible, unconscious, impersonal principle or moral force or power. The distinction between right and wrong can be created only by a conscious being. Nature is amoral, blind, evil and ruler of physical realm. Nature is not concerned with justice and karma. Nature and Newton's law of action and reaction are concerned with physical causes and physical effects. Birth, death, sex, caste, health and other physical circumstances are not created by Karma. Man is the maker of his own fate. God is fully concerned with justice and Karma. God's Karmic causality is a moral or noumenal causality. The causality of Nature is a physical causality. God punishes sinners by

creating pangs of conscience and by making use of the hands of believers. God has no control over Nature. God can not give punishments by sending earthquakes, malaria, poverty, death and other natural calamities. Cancer, rain and other physical things have no link with prayer, rituals etc. God is the ruler of the spiritual realm and Nature is the ruler of temporal realm. A belief in the previous life or rebirth is false. A good man is like a flower of rose and he dies forever and a pleasant aroma is left behind by him in air. Due to false belief in karma innocent people have to reap what is sown by the evil doers. Long live martyr Nathu Ram Godse.

**Varshphal (Annual Predication)** S.P. Gour, Parashari Jaimini and Tajik are the three most popular systems of Vedic Astrology. Parashar gives more importance to the planets while Jaimini considers the rashis to be more important. Tajik is mainly used in Prashna Shastra and in Varshaphal. Tajik diverts slightly always from the main stream of the traditional methods and employs newer techniques of Astrology. 'Tajik Neelakanthi', of Acharya Neelakantha, which was composed in the 16th century AD, is the base of Tajik Jyotish. This does not mean that Varshaphal and Prashna techniques were not practised in Vedic Astrology before this. 'Uttar Kalamrit' of Kalidas mentions and describes the computation of Varshaphal dasha which is different from the 'Mudda dasha' of Varshaphal. Apart from this, 'Shat Panchashikha' of Prithyushyas is the established classic of Prashna Shastra, which was composed centuries before 'Tajik Neelakanthi'. Ancient Kairaleeya Jyotish is also well known for considering Prashna to be their main technique. The influence of Greek and Arab culture is clearly seen on the word 'Tajik'. Arrival of the invaders from Western Asia initiated the exchange of culture between India and West Asia. This exchange introduced some newer techniques to our Vedic Astrology. One of these techniques was Tajik. This has been marked as the beginning of Tajik jyotish. Tajik word does not belong to Sanskrit. There are different opinions regarding this issue. Some scholars consider it to be a distorted form of the word 'Jatak'. Another view is that meaning of Tajik is a horse in Turkish and Persian language. The speed of this technique has been compared to that of a horse and for this reason it has been named Tajik. In any case the influence of Mohammedans on this knowledge is very clear. This is also confirmed by the other words of Tajik, namely mudda, muntha, sahas and the names of the Tajik yogas like Ithasal, Ikkabal, Ishraf, nakta, radda and khallasar etc. Moving at the average speed of 1° per day, Sun completes one round of the Zodiac in one year. For casting the annual horoscope we select the time when Sun reaches the longitude of the natal Sun. The horoscope cast for that date and time becomes the annual horoscope and the Varshaphal is decided on the basis of this horoscope. In a similar manner prediction for any year of the person's life can be given on the basis of the annual horoscope. In other words the annual horoscope is based on the longitude of the natal Sun and not on the date and time of birth. This also means that the date, day and time of the annual horoscope is generally different from that of the birth horoscope.
