Drago, Mark Wooden, 1990 Revised version of a paper presented at the Australia Labour Market Research Programme First Workshop, 7-9 February, 1990, Australian National University.

The Work-Family Balance in Light of Globalization and Technology Nuria Chinchilla, Marc Grau, Mireia Las Heras, 2017-08-21 Technology is changing the way we integrate work and family life today. In an age in which information technology has brought the promise of autonomy and control by allowing asynchronous communications; in which work systems have enabled people to work from various times and in various locations; and in which work and non-work boundaries have as a result been blurred, the work and family interface needs to be reconsidered. This collection is the result of a careful selection of articles presented at the Sixth International Conference for Work and Family organized by the International Center for Work and Family at IESE Business School, Spain. It has a clear focus on technology, managers, globalization, and gender, and contributions analyse the state of affairs in Africa, the Middle East, Asia, Europe, and North America. The chapters here offer innovative approaches to how technology, globalization, managers and gender issues are affecting the dynamics of work and family balance around the world. As such, the book will help practitioners and academics to make better decisions, to stay up to date on current developments, and to think critically about these fascinating and complex topics.

Foundations of Evidence-Based Social Work Practice Albert R. Roberts, Kenneth R. Yeager, 2006-02-02 This concise introduction to evidence-based social work is a student-friendly overview of the issues and methods most frequently encountered while preparing

for evidence-based social work practice. Part I defines terms and critical issues, introducing students to the language and importance of evidence-based practice and critical thinking. Chapters will explain how to search for and evaluate evidence, how to ask the right questions, how to develop standards, and how to make use of the best research. Part II illustrates practical applications, including such topics as cognitive-behavioral approaches to suicide risks, manualized treatment with children, treating juvenile delinquents, and interventions for OCD, anxiety disorders, substance abuse, PTSD, depression, and recovery. This much-needed overview familiarizes students with the process and practice of evidence-based social work, teaching them to be critical thinkers and judicious decision-makers. The guidelines it distills are equally valuable to seasoned practitioners seeking to better serve their clients, making this an excellent foundation for the study and practice of evidence-based social work.
