**Crafting Digital Media** Daniel James, 2011-02-01 Open source software, also known as free software, now offers a creative platform with world-class programs. Just ask the people who have completed high-quality projects or developed popular web 2.0 sites using open source desktop applications. This phenomenon is no longer underground or restricted to techies—there have been more than 61 million downloads of the Audacity audio editor and more than 60 million downloads of the GIMP for Windows photographic tool from SourceForge.net alone. Crafting Digital Media is your foundation course in photographic manipulation, illustration, animation, 3D modelling, publishing, recording audio and making music, DJ'ing, mixing and mastering audio CDs, video editing and web content delivery. Every technique described in the book can be achieved on GNU/Linux, but many of the applications covered run on Windows and Mac OS X as well. New to GNU/Linux and a little daunted? Don't worry—there's a step-by-step tutorial on Ubuntu for either temporary use or permanent installation. If you are a creative type who wants to get

started with open source software or an existing GNU/Linux user looking to explore this category of programs, this is the book for you! Realize your own personal projects and creative ambitions with the tools this book will place at your fingertips.

**Federal Funding of Astronomical Research** National Research Council,Commission on Physical Sciences, Mathematics, and Applications,Space Studies Board,Board on Physics and Astronomy,Committee on Astronomy and Astrophysics,2000-01-01 The Committee on Astronomy and Astrophysics (CAA), at its meeting on September 8, 1997, was briefed on the legislative report accompanying the bill to authorize appropriations for fiscal years 1998 and 1999 for the National Science Foundation (NSF). The report raised a number of questions about trends in support for research in astronomy and the overall robustness of the programs providing that support. At its meeting, the CAA heard the views of NSF and the National Aeronautics and Space Administration (NASA) on these issues. In consultation with the Board on Physics and Astronomy, the Space Studies Board, and representatives of NASA and NSF, the committee accepted the task of studying three of the questions raised by the House Science Committee (HSC). It was intended that the results of the study would help guide federal support of basic research for the next decade and serve as analytical input to the new 2000 decadal survey of the Astronomy and Astrophysics Survey Committee (AASC). The study would not offer specific funding recommendations, but rather would provide a background analysis of the alignment between available resources, agency priorities, and the vitality of the basic research program.

*Centered Presentations* Jennifer Palus,Tom Searcy,2013-09-19 An exploration of four dimensions of presentation design and delivery: Content, Creative, Conversation, and Confidence.Content may be an issue for you or your team if you routinely find:• You are unable to present all your slides in the allotted time.• Your presentation falls far short of the expected duration.• Your audience derails your agenda, focusing on other topics.• Your audience does not seem to grasp the concepts in your presentation or the desired next steps.Signs that may point to an issue within your creative:• Your audience visibly winces at the color combinations or animation.• If you lose your place when presenting, it's hard to get back on track because every slide looks essentially the same.• Although you try not to, you find yourself reading your text-heavy slides to your audience.• You avoid sharing your presentation with your internal brand team.You or your team may need to focus on conversation if:• You are doing almost all the talking in your meetings.• You shut down conversation in order to stay on your planned timing.• You realize you've been talking for ten minutes about a topic that is not covered in your presentation content.• You think of your major point as a big “reveal” and don't want to give anything away until you get there.• You avoid rehearsal so that you will sound natural; you wing it.Signs you may have a perceived confidence issue• Audience members have told you they could not hear or understand you.• You rarely get questions from your audience.• Audience members direct questions to other members of your team.• You find yourself tongued-tied when asked to clarify a slide topic.• You hear yourself, but cannot stop, using “um” in every sentence.In each section, learn how presenters stray from center by staying in their comfort zones, and how to return to center with specific recommendations.If you or your team struggle with aspects of developing or delivering compelling presentations, this book will provide a new toolbox and shared vocabulary.Includes checklists and assessments to bring the ideas to life.

*The Making of Tomb Raider* Daryl Baxter,2021-12-20 Back in 1994 at the game company ‘CORE Design’ in Derby, Lara Croft was born. Through eighteen months of pure hard work from the team, Tomb Raider was released in 1996 and became the success that we see today; taking part in the mid-nineties celebrations of Brit-Pop and Girl Power. This is the story of the team who were involved in creating the first two games, then leaving the series to a new team in 1998. Lara Croft brought class, comedy, and a James Bondian role to the game, dreamt up by Toby Gard and helped to become a pitch with Paul Douglas. The game was a gamble, but because everyone at the company believed in it, it led to huge success for everyone, except for Toby and Paul. ‘The Making of Tomb Raider’ goes into detail of how Lara and the games were born, alongside why Toby Gard and Paul Douglas left before the sequel was released. Throughout eleven chapters of countless interviews, this book will tell you who was responsible for creating the first two games; from its levels, its music, the many voices of Lara Croft, and much more. The team also reveals all about the star of the second game; Winston the Butler, and how he came to be by Joss Charmet. Over twenty people were interviewed for this story; from the pitch for what would be Tomb Raider, alongside the challenges along the way, up until the release of Tomb Raider 2 in 1997...
