**Positive Energy Buildings** Rita Lavikka,Hassam Ur Rehman,Francesco Reda,Abdul Samad Kazi,2021-11-26 This book investigates positive energy buildings (PEBs). It provides and describes them, explains why they are important in the fight against climate change and discusses how they might be implemented. This book begins by contextualizing PEBs, discussing concepts, definitions and how they may be included by planning authorities in development plans. It then thoroughly explains what PEBs are and their impact on a climate-neutral economy. The book discusses technological, economic, societal and regulatory challenges and opportunities in employing PEBs, before concluding with possible scenarios for implementing them. This book is of use to researchers, practitioners, and policy makers interested in local and decentralized energy, as well as plans to achieve carbon neutrality.

**Messianic Aleph Tav Interlinear Scriptures**

**Volume Four the Gospels, Aramaic Peshitta-Greek-Hebrew-Phonetic Translation-English, Red Letter Edition Study Bible** ,2016-11-23 The Messianic Aleph Tav Interlinear Scriptures (MATIS-NT) The GOSPELS, both Red Letter and Bold Black Editions, are the most unique Interlinear Study Bibles of the New Testament in the world. This work is a Study Bible and unique because it is the first true interlinear New Testament to combine both the John W. Etheridge Eastern Aramaic Peshitta in both Aramaic and Hebrew font compared to the Greek, word by word, in true interlinear form. This is the first time the Aramaic Peshitta has ever been in true interlinear form word by word. The John W. Etheridge Eastern Aramaic Peshitta English translation was provided by Lars Lindgren and incorporates his personal notes and also, the Hebrew pronunciation of the Aramaic is unique and was created and provided by Lars Lindgren of <http://Dukhrana.com/> and used with his permission... all of which comes under copyright protection. The purpose of MATIS-NT is to provide a unique Study Bible whereby each Aramaic word and verse could be studied by comparing it to the Greek in an effort to obtain a deeper understanding of what the apostles were trying to express and the differences between the two New Testaments. MATIS-NT English translation began with the public domain version of the 1987 KJV and removed all the old English for easier reading. MATIS is also unique in regard to the Hebrew (OT) and Aramaic (NT) verses running in sequence from left to right with the English translation, while the Hebrew/Aramaic individual words are written properly from right to left. This combination is unique but makes it easier for beginners to study the Hebrew and Aramaic language in comparison to its English translation. The First Volume of MATIS is The TORAH, with the Strong's Hebrew Dictionary. Volume Two, The WRITINGS, Volume Three, The

PROPHETS and Volume Four, MATIS-NT The GOSPELS, with the Strong's Greek Dictionary and Volume Five, The Acts - Revelation. MATIS Study Bibles also furthers the journey of the study of the Aleph/Tav Character Symbol by revealing thousands of words that originally incorporated this symbol in Paleo Hebrew, and also in Aramaic/Hebrew, and apparently for good reason! The MATIS Study Bible Collection is truly the perfect gift for the believer who is interested in studying the Hebrew Tanakh and Aramaic with the Greek B'rit Chadashah (New Testament) and desires to obtain a deeper understanding of what the originators, as well as our Creator was trying to express.

**Sustainable Development: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources,2017-10-31 To maintain a healthy ecosystem for contemporary society, and for future generations, policies must be implemented to protect the environment. This can be achieved by consistent evaluation of new initiatives and strategies. Sustainable Development: Concepts, Methodologies, Tools, and Applications is a comprehensive source of scholarly information on the latest research for sustainability concerns across a multidisciplinary perspective. Highlighting a broad range of innovative topics such as renewable energy, urban development, and green technologies, this multi-volume book is ideally designed for academics, researchers, professionals, students, and practitioners interested in the preservation of the environment.

**Carbon Pricing in Japan** Toshi H. Arimura, Shigeru Matsumoto,2020-09-17 This open access book evaluates, from an economic perspective, various measures introduced in Japan to prevent climate change. Although various countries have implemented such policies in response to the pressing issue of climate change, the effectiveness of those programs has not been sufficiently compared. In particular, policy evaluations in the Asian region are far behind those in North America and Europe due to data limitations and political reasons. The first part of the book summarizes measures in different sectors in Japan to prevent climate change, such as emissions trading and carbon tax, and assesses their impact. The second part shows how those policies have changed the behavior of firms and households. In addition, it presents macro-economic simulations that consider the potential

of renewable energy. Lastly, based on these comprehensive assessments, it compares the effectiveness of measures to prevent climate change in Japan and Western countries. Providing valuable insights, this book will appeal to both academic researchers and policymakers seeking cost-effective measures against climate change.
