Tables of IGC Cosmic Ray Data J. A. Simpson, 2013-10-22 Annals of the International Geophysical Year, Volume 28: Tables of IGC Cosmic Ray Data, Part III contains tabulations of International Geophysical Cooperation's cosmic ray activity data. This book includes lists of stations and investigators from whom further information on the cosmic ray apparatus can be obtained. In order to prepare the data on the following pages for publication, the data are first put on punched cards and then checked for correctness essentially by repunching, thus minimizing errors of transcription and also facilitate some computations which have been made with some of the data. Tabulating machines are then used to print the data on standard forms and the data are photographed for reproduction. As a further insurance against errors, carbon copies of the data sheets are sent to all investigators to be checked. The data marked as verified in the table of contents have been returned to the data center and the corrections made. This book will prove useful to geophysical researchers.

Lincoln Legends Edward Steers Jr., 2007-10-12 In the more than 140 years since his death, Abraham Lincoln has become America's most revered president. The mythmaking about this self-made man began early, some of it starting during his campaign for the presidency in 1860. As an American icon, Lincoln has been the subject of speculation and inquiry as authors and researchers have examined every aspect—personal and professional—of the president's life. In *Lincoln Legends*, noted historian and Lincoln expert Edward Steers

Jr. carefully scrutinizes some of the most notorious tall tales and distorted ideas about America's sixteenth president. These inaccuracies and speculations about Lincoln's personal and professional life abound. Did he write his greatest speech on the back of an envelope on the way to Gettysburg? Did Lincoln appear before a congressional committee to defend his wife against charges of treason? Was he an illegitimate child? Did Lincoln have romantic encounters with women other than his wife? Did he have love affairs with men? What really happened in the weeks leading up to April 14, 1865, and in the aftermath of Lincoln's tragic assassination? *Lincoln Legends* evaluates the evidence on all sides of the many heated debates about the Great Emancipator. Not only does Steers weigh the merits of all relevant arguments and interpretations, but he also traces the often fascinating evolution of flawed theories about Lincoln and uncovers the motivations of the individuals—occasionally sincere but more often cynical, self-serving, and nefarious—who are responsible for their dispersal. Based on extensive primary research, the conclusions in *Lincoln Legends* will settle many of the enduring questions and persistent myths about Lincoln's life once and for all. Steers leaves us with a clearer image of Abraham Lincoln as a man, as an exceptionally effective president, and as a deserving recipient of the nation's admiration.

Alex Faraway G. F. Brynn, 2024-01-30 Only a week after a fierce battle in the abandoned scrapyards against the wicked horde of large insect-bots known as The Others, culminating in their destruction when the huge Mars Biosphere spaceship blasted its way out of the scrapyards, Alex Faraway waits impatiently for his long-missing father's promised return from that planet. But Dart, Alex's large, robotic Guardian Dragonfly, is unsure if the sinister creatures from his own past are gone for good. The robot flies regular patrols over the 100-acre scrapyards until one morning he abruptly disappears. Alex goes in search of his adventurous friend, unaware that the plot to invade Mars and destroy the last remaining Martians before they awaken from their hibernation Time Tombs is far from finished. The battle from the previous week has only added weight to the might of The Others and has triggered the arrival in the scrapyards of an ever more powerful robot - one with brutish motivation to complete the creation of a deadly machine from ten thousand years ago. And now, not only is Mars in their sites, but Earth is as well. Something new, powerful, and frightening is also happening to Alex Faraway with

each passing day and each time he uses the strange Martian-made device called a Luss. His nightly dreams of an ancient people long forgotten are growing more physical in nature as the Glass Tunnels blur the immutable barrier between past and present, dreams and reality. The Ghosts and the Nethlins are coming. And all the while, the unknown rogue world, the shadowy Planet X, draws ever nearer to its ten-thousand-year close-encounter with Mars. What mysteries from the distant past does that strange glittering world hold?

Since the Slug Blitz orphaned Jason Wander, he has risen from infantry recruit to commander of Earth's garrisons on the emerging allied planets. But four decades of service have cost Jason not just his friends and family, but his innocence. A History and Anthropological Study of the Ancient Kingdoms of the Sino-Tibetan Borderland--Naxi and Mosuo Christine Mathieu,2003

The Naxi and the Mosuo (who are officially considered a part of the Naxi) are peoples living in northwestern Yunnan Province of China. Anthropologist Mathieu investigates the histories of these groups through a reading of textual sources, local and imperial historiography, oral tradition, and religious ceremonial texts. Her major objective is to describe the process by which the tribes oriented towards Tibet were transformed into vassal subjects of the Chinese empire. She also seeks to elucidate the ethnic relationship between the Naxi and Mosuo. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).
