Calendar and Community Sacha Stern, Schaller

Senior Lecturer Sacha Stern, 2001-10-04 *Calendar and Community* traces the development of the Jewish calendar from its origins until it reached, in the tenth century CE, its present form. Drawing on a wide range of often neglected sources - literary, documentary, epigraphic, Jewish, Graeco-Roman and Christian - it is the first comprehensive work to have been written on the subject. It will be useful not only to historians and epigraphists for the interpretation of early Jewish datings, but also as a historical study of early Judaism in its own right. Its main theme is that the Jewish calendar evolved in the course of this period from considerable diversity (with a variety of solar and lunar calendars) to unity (with the normative rabbinic calendar). The unification of the calendar was one element in the unification of Jewish identity in later antiquity and the early medieval world.

The Feasts of the Calendar in the Book of Numbers

Hryhoriy Lozinskyy, 2021-12-22 In this monograph, Hryhoriy Lozinskyy studies five feasts contained in Num 28:16-30:1. Each of them is first treated in the light of biblical calendars and other related texts. The calendar in Numbers is later than an earlier version of Leviticus 23; yet the final form of Lev 23:1-44 is also a result of some later additions that took place after Num 28:1-30:1 had been composed. The author also focuses on the history of interpretation: he examines several pseudepigrapha, the Dead Sea Scrolls, and ancient Jewish writers from 200 BCE to 100 CE. He shows how these ancient sources reworked the biblical texts by expansions,

clarifications, and omissions. In sum, the calendar in Numbers employs several previous traditions that dealt with the feasts, sacrifices, and calendars in order to compose the detailed list of the offerings for the appointed times. Moreover, it is a text that has been used by many ancient sources, especially in the matter of the sacrifices.

1,000 Books to Read Before You Die James

Mustich,2018-10-02 "The ultimate literary bucket list."

—THE WASHINGTON POST Celebrate the pleasure of reading and the thrill of discovering new titles in an extraordinary book that's as compulsively readable, entertaining, surprising, and enlightening as the 1,000-plus titles it recommends. Covering fiction, poetry, science and science fiction, memoir, travel writing, biography, children's books, history, and more, 1,000 Books to Read Before You Die ranges across cultures and through time to offer an eclectic collection of works that each deserve to come with the recommendation, You have to read this. But it's not a

proscriptive list of the “great works”—rather, it’s a celebration of the glorious mosaic that is our literary heritage. Flip it open to any page and be transfixed by a fresh take on a very favorite book. Or come across a title you always meant to read and never got around to. Or, like browsing in the best kind of bookshop, stumble on a completely unknown author and work, and feel that tingle of discovery. There are classics, of course, and unexpected treasures, too. Lists to help pick and choose, like *Offbeat Escapes*, or *A Long Climb, but What a View*. And its alphabetical arrangement by author assures that surprises await on almost every turn of the page, with Cormac McCarthy and *The Road* next to Robert McCloskey and *Make Way for Ducklings*, Alice Walker next to Izaak Walton. There are nuts and bolts, too—best editions to read, other books by the author, “if you like this, you’ll like that” recommendations, and an interesting endnote of adaptations where appropriate. Add it all up, and in fact there are more than six thousand titles by nearly four thousand authors mentioned—a life-changing list for a lifetime of reading. “948 pages later, you still want more!” —THE WASHINGTON POST
