Deutsche lyrik Charles Adolphus Buchheim,1883

1000 Jahre deutsche Literatur Gudrun Clay,2008-01-15 1000 Jahre deutsche Literatur is organized by historic periods and includes carefully chosen readings, with notes and vocabulary, beginning with writings in Old High German through Gellert, Lichtenberg, and Lessing. Also included are numerous exercises and thought provoking questions for each chapter and support materials which emphasize the cultural and historical background of each historic period. In tandem with Waltraud Maierhofer's Deutsche Literatur im Kontext 1750-2000, these two volumes provide a modern approach to German literature in its cultural, historical and linguistic context.

Die deutsche Präsenz in den USA Josef Raab,Jan Wirrer,2008 Whereas the cultural and political influence of the U.S. on Europe and Germany has been researched extensively, the impact of more than 6 million German immigrants on U.S.-American history and culture has received far less scholarly attention. Therefore this volume addresses a wide range of areas in which a German presence has been manifesting itself in the U.S. for more than three centuries. Among the disciplines involved in this broad analysis are linguistics, literary studies, history, economics, musicology as well as media studies and cultural studies.

Dark Towers David Enrich,2020-02-18 #1 WALL STREET JOURNAL BESTSELLER * NEW YORK TIMES BESTSELLER New York Times finance editor David Enrich's explosive exposé of the most scandalous bank in the world, revealing its shadowy ties to Donald Trump, Putin's Russia, and Nazi Germany “A jaw-dropping financial thriller” —Philadelphia Inquirer On a rainy Sunday in 2014, a senior executive at Deutsche Bank was found hanging in his London apartment. Bill Broeksmit had helped build the 150-year-old financial institution into a global colossus, and his sudden death was a mystery, made more so by the bank’s efforts to deter investigation. Broeksmit, it turned out, was a man who knew too much. In Dark Towers, award-winning journalist David Enrich reveals the truth about Deutsche Bank and its epic path of devastation. Tracing the bank’s history back to its propping up of a default-prone American developer in the 1880s, helping the Nazis build Auschwitz, and wooing Eastern Bloc authoritarians, he shows how in the 1990s, via a succession of hard-charging executives, Deutsche made a fateful decision to pursue Wall Street riches, often at the expense of ethics and the law. Soon, the bank was manipulating markets, violating international sanctions to aid terrorist regimes, scamming investors, defrauding regulators, and laundering money for Russian oligarchs. Ever desperate for an American foothold, Deutsche also started doing business with a self-promoting real estate magnate nearly every other bank in the world deemed too dangerous to touch: Donald Trump. Over the next twenty years, Deutsche executives loaned billions to Trump, the Kushner family, and an array of scandal-tarred clients, including convicted sex offender Jeffrey Epstein. Dark Towers is the never-before-told saga of how Deutsche Bank became the global face of financial recklessness and criminality—the corporate equivalent of a weapon of mass destruction. It is also the story of a man who was consumed by fear of what he’d seen at the bank—and his son’s obsessive search for the secrets he kept.

Deutsche Bank: The Global Hausbank, 1870 - 2020 Werner Plumpe,Alexander Nützenadel,Catherine Schenk,2020-03-05 A comprehensive history of one of the major players in the world of international finance. Over the course of its 150-year history, Deutsche Bank has established itself as a major player in the world of international finance, but has also been confronted by numerous challenges that have changed the face of Europe – from two world wars, to the rise and subsequent fall of communism. In this major work on the bank's history, Werner Plumpe, Alexander Nützenadel and Catherine R. Schenk deliver a vibrant account of the measures the bank undertook in order to address the profound upheavals of the period, as well as the diverse and unusual demands it had to face. These included the First World War, which brought the world's first period of globalization to a sudden and dramatic end, but also the development of the predominantly national framework within which the bank had to operate from 1914 until the fall of the Berlin Wall in 1989. More recently, the focus has shifted back to European and global activities, with Deutsche Bank forging new paths into the Anglo-American capital markets business – so opening another extraordinary chapter for the bank.
