**Kingdom Encounters** Tony Evans,2020-10-06 Are Your Trials Actually Opportunities to Behold God? Many faithful church-goers often feel like something is missing. Perhaps you need more than a daily devotional or small group discussion. Perhaps you feel like you're just going through the motions. What all Christians need for the spiritual journey is a vibrant, life-changing kingdom encounter. Dr. Tony Evans identifies kingdom encounters as powerful moments when we connect with God beyond information and through experience. In Kingdom Encounters, Dr. Evans explores how the faithful characters of Scripture encountered God—and were forever changed. As we see in the lives of these characters, these moments often occur in the middle of conflicts and trials when we least expect it. Dr. Evans' hope for you is that, "you realize that when things are going left, you feel trapped and God seems absent, that you are probably right where God wants you in order to experience a life-altering kingdom encounter." Join Dr. Evans as he explores how these moments can bolster your faith, restore your hope, and make clear to you the face of our almighty God.

*Close Encounters of the Third Kind* Ray Morton,2007 (Applause Books). Morton has written the definitive book on this innovative movie by Steven Spielberg...Meticulous research of this caliber is not found in other books on Close Encounters . Fans will find Morton's take informative and fascinating. Library Journal . Steven Spielberg's 1977 masterpiece used all of the power and magic of cinema to tell a story of man's first meeting with extraterrestrial beings. Renouncing the fear and pessimism of the day, writer/director Spielberg boldly envisioned this as a peaceful, spiritual event full of hope and possibility. This awe-inspiring message made a powerful impact on audiences desperate for something to believe in. The film was a massive box-office hit and revolutionized the movie industry; along with Star Wars , it helped to create the modern blockbuster and ushered in a new era of hi-tech effects. Based on in-depth research and the recollections of many of the film's principal creators, Close Encounters is the first book to chronicle the making of this classic film from its inception through its tumultuous production to its many releases in special editions. The book features new interviews with star Teri Garr, producer Michael Phillips, photographic effects supervisor Douglas Trumbull, production designer Joe Alves, and several cinematographers, screenwriters, and special-effects legends. John Hill, Jerry Belson, Hal Barwood, and Matthew Robbins; and special effects legends Richard Yuricich, Robert Swarthe, Dennis Muren, Scott Squires, Greg Jein, and Rocco Gioffre.

*Alien Encounters* Chuck Missler,Mark Eastman,1997-07-30

*Epic Encounters* Melani McAlister,2005-07-05 Epic Encounters examines how popular culture has shaped the ways Americans define their interests in the Middle East. In this innovative book—now brought up-to-date to include 9/11 and the Iraq war—Melani McAlister argues that U.S. foreign policy, while grounded in material and military realities, is also developed in a cultural context. American understandings of the region are framed by narratives that draw on religious belief, news media accounts, and popular culture. This remarkable and pathbreaking book skillfully weaves lively and accessible readings of film, media, and music with a rigorous analysis of U.S. foreign policy, race politics, and religious history. The new chapter, titled 9/11 and After: Snapshots on the Road to Empire, considers and brilliantly analyzes five images that have become iconic: (1) New York City firemen raising the American flag out of the rubble of the World Trade Center, (2) the televised image of Osama bin-Laden, (3) Afghani women in burqas, (4) the statue of Saddam Hussein being toppled in Baghdad, and (5) the hooded and wired prisoner in Abu Ghraib. McAlister's singular achievement is to illuminate the contexts of these five images both at the time they were taken and as they relate to current events, an accomplishment all the more remarkable since—to paraphrase her new preface—we are today struggling to look backward at something that is still rushing ahead.

*The Ultimate Random Encounters Book* Travis "Wheels" Wheeler,Logan Jenkins,Lee Terrill,Greg Leatherman,2021-10-05 Playing a role-playing game is a delicate dance. If everything runs smoothly, it feels like you and your friends are able to maneuver effortlessly through dramatic, epic, and uproariously silly scenes where everyone gets a chance to shine. And yet, other times it just doesn't come together. Combat slows to a repetitive grind, the Game Master runs out of good Non-Player Character (NPC) ideas, or after twenty-six rounds maybe even the most beautifully designed encounter just gets a bit stale. Sure, you could prep an absolute powerhouse of an all-killer-no filler role-playing session. Spend time getting fun character voices ready for every NPC. But that sounds like way too much work. This is the book you turn to for help. It's a big book of ideas designed to slot right into your existing campaign, organized into neat little tables. If you salivate at chaos magic effect tables and daydream about wild, unexpected die results, you already know it can also be fun to throw caution to the wind and let randomness determine as much as possible. Even the most organized GMs and the tightest adventure modules benefit from a little spice!--

Encounters in World History: From 1500 Thomas Sanders, 2005 History is an encounter with the past, and the past is a history of encounters. Encounters in World History is designed to introduce students to both of these sorts of encounters. Using primary and visual sources, the authors employ the encounter theme as a fundamental organizing principle. By nesting sources in thematically integrated chapters, comparison and analysis of sources can be more substantive, while also providing more internal structure for instructors. At the same time, this is a world history reader, and it follows a chronological format. The material has been presented in such a way that instructors can craft their own courses, emphasizing the aspects they think most important. Chapters are organized so that the general theme is presented in a chapter introduction and then revisited in the separate introductions to specific readings. The readers can be used to highlight preferred eras, cultural zones, or themes, or a unique mixture of all three.

*Primate Encounters* Shirley C. Strum, Linda Marie Fedigan, 2000-08-15 A study of primatology, discussing its history, the scientists in the field, and the issues that have shaped its development, particularly gender, technology, and the media.

*Earthly Encounters* Stephanie D. Clare, 2019-09-01 A feminist approach to the Anthropocene that recovers the relevance of sensation and phenomenology. Earthly Encounters develops a fuller account of the lived experience of racialized gender formation as it exists on this planet, earth. It analyzes sensations: the chill of winter, the warm embrace of the wind, the feeling of being immersed in water, and a stifling sense of containment. Through this analysis in settler colonial and colonial contexts, in twentieth-century North America and Africa, Stephanie D. Clare shows how sensation is unevenly distributed within social worlds and productive of racial, national, and gendered subjectivities. From revealing the relevance of phenomenology, especially in the writings of Maurice Merleau-Ponty and Frantz Fanon, to debates concerning new materialism and affect theory, Clare shows how the phenomenology of race and gender must consider both the production of the body-subject and the environment. She concludes by making a case for the continued significance of sensation in the context of the Anthropocene. "This book charts a course that is simultaneously materialist and attentive to the politics of representation. It aims to hold on to the legacy of feminist theory and to develop a queer political strategy that on the one hand gives an account of the earth as an active, living organism and, on the other hand, holds on to the critique of the politics of representation."— Astrid Deuber-Mankowsky, Ruhr-Universität Bochum

**Contact!: A Book of Encounters** Jan Morris, 2010-04-19 A delightful and hilarious companion for anyone taking a trip and an indispensable work for any fan of Jan Morris. With her travel chronicles unparalleled in twentieth-century literature, Jan Morris's legendary books on Venice, Manhattan, and Trieste have made her one of our most beloved writers. Now reflecting back on over half a century, Morris has decided to write not about the destinations but about the people she has encountered. Whether writing as James or later as Jan, Morris introduces us to a panoply of memorable characters—the Sherpa guide who first scaled Mt. Everest, the lascivious Manhattan cabbie, and the proverbial spy in the raincoat. She provides insightful portraits of the famous, such as Harry Truman and Jordan's King Hussein, and glimpses of the infamous, including Adolf Eichmann. Recalling human encounters on six continents, she paints a vibrant, funny, and moving picture of humanity. Ultimately, no figure comes into clearer focus than Morris herself, an astonishing chronicler of the human spectacle. Contact! is one book you'll want to carry with you wherever you go.

**Digital Encounters** Aylish Wood, 2007 Digital Encounters reconceptualizes the way we think about technology and the moving image, exploring a network of images and technological objects such as animations, digital effects films, computer games and mixed media gallery installations.

**Enlightening Encounters** Stephen Gudeman, 2022-10-14 One of the world's top anthropologists recounts his formative experiences doing fieldwork in this accessible memoir ideal for anyone interested in anthropology. Drawing on his research in five Latin American countries, Steve Gudeman describes his anthropological fieldwork, bringing to life the excitement of gaining an understanding of the practices and ideas of others as well as the frustrations. He weaves into the text some of his findings as well as reflections on his own background that led to better fieldwork but also led him astray. This readable account, shorn of technical words, complicated concepts, and abstract ideas shows the reader what it is to be an anthropologist enquiring and responding to the unexpected. From the Preface: Growing up I learned about making do when my family was putting together a dinner from leftovers or I was constructing something with my father. In fieldwork I saw people making do as they worked in the fields, repaired a tool, assembled a meal or made something for sale. Much later, I realized that making do captures some of my fieldwork practices and their presentation in this book.
