Esperanto Pierre Janton, 2016-03-22 Esperanto, spoken by thousands of people across the world, is the most successful international language project. In this book, the French linguist and literary critic Pierre Janton describes the history of Esperanto since its invention in nineteenth-century Eastern Europe and offers a comprehensive linguistic description of the language. This book is the best general introduction to Esperanto and its role in the modern world. Rooted in the populism and internationalism of the late nineteenth century, Esperanto owes its origins in part to western European educational currents and in part to the cultural history of eastern European Jewry. It is a fascinating historical and sociological phenomenon as well as a remarkable linguistic system. The book contains a survey of today's movement for the promotion of Esperanto as an international language, and a description of the extensive literature in Esperanto, both original and translated. Janton also provides a survey of the other global language projects, explaining why Esperanto has prevailed.

The Esperanto Movement Peter Glover Forster, 1982 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

Zamenhof Aleksander Korzhenkov, Aleksander Korĵenkov, 2010 Released to the public for the first time in 1887, Esperanto had its specific origins in the fertile brain of a single individual, Zamenhof, and in the particular circumstances into which he was born and came of age. It is the story of these origins that Aleksander Korzhenkov's biography sets out to tell. -- That biography was originally published in Esperanto; the present version, in Ian Richmond's excellent translation, is an abridged version of the original text, prepared for English readers by the author. -- Zamenhof was a child of his times - buffeted by the social upheavals of Eastern Europe in the late nineteenth century, eager to find solutions to social ills, but alive to new ways of thinking that accompanied this change. Seeking to solve the specific problems of his own day, he created a language equally well suited to addressing those of ours. (Humphrey Tonkin)

Esperanto Revolutionaries and Geeks Guilherme Fians, 2022-01-04 This book explores how Esperanto – often regarded as a future-oriented utopian project that ended up

confined to the past – persists in the present. Constructed in the late nineteenth century to promote global linguistic understanding, this language was historically linked to anarchism, communism and pacifism. Yet, what political relevance does Esperanto retain in the present? What impacts have emerging communication technologies had on the dynamics of this speech community? Unpacking how Esperanto speakers are everywhere, but concentrated nowhere, the author argues that digital media have provided tools for people to (re)politicise acts of communication, produce horizontal learning spaces and, ultimately, build an international community. As Esperanto speakers question the post-political consensus about communication rights, this language becomes an ally of activism for open-source software and global social justice. This book will be of relevance to students and scholars researching political activism, language use and community-building, as well as anyone with an interest in digital media more broadly.

Pros and Cons of Esperanto as a World Language Nadine Pagel,2005-04-17 Seminar paper from the year 2002 in the subject English Language and Literature Studies - Linguistics, grade: 1,3, Technical University of Chemnitz, 15 entries in the bibliography, language: English, abstract: Introduction Esperanto is a planned language 1 which was designed in 1887 by L.L. Zamenhof, an . ophthalmologist from Bialystock, Poland. In his childhood and youth, he was confronted with several different ethnic groups and consequently, he also got in contact with the different languages of those groups. Because of this circumstance, he realised that multilingualism causes several problems which I will write about in this paper. By creating Esperanto as an international communication medium Zamenhof wanted to overcome the misunderstandings caused by the variety of existing languages. With the help of Esperanto, he wanted to ease global communication. In this paper, I want to give a short overview about the life of Zamenhof and the development of Esperanto. I will then turn towards the Fundamento , which contains the 16 rules the users of Esperanto have to consider. Afterwards, I will look at Esperanto under consideration of the psychological, linguistic and cultural aspects of Esperanto and show some of the advantages and disadvantages it has. It is not the aim of this paper to decide whether Esperanto is fits to the needs of a world language. What I want is to give some food for thoughts for further discussions.
