Desde quando era estudante de Direito, eu percebi que o estudo para o exame da ordem (primeira fase) deveria (deve) ser feito prioritariamente pelo estudo da lei, bem como por resoluções dos exames unificados pretéritos. E é isso que a coleção propõe: o estudado guiado da lei, bem como a demonstração das resoluções (de como resolver) das provas passadas da OAB. É uma obra que visa mais o aspecto didático do que a cientificidade (se assim podemos dizer). Abaixo, seguem os ensinamentos. Espero que gostem.

*Latin American Relations with the Middle East* Marta Tawil Kuri, Élodie Brun, 2022-03-29 Latin American Relations with the Middle East surveys the dealings of ten Latin American and Caribbean states – Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, Peru, Mexico, Uruguay, and Venezuela – with the Middle East. This volume examines these states' external behavior at both an empirical and conceptual level. Empirically, authors seek to examine Latin American and Caribbean foreign policies towards the Middle East in four dimensions: diplomatic attention; trade and investment (including the energy issue); development cooperation; security matters/intelligence, and relationship with multilateralism (Iran, Palestine, and Syria). Case studies are selectively deployed to observe the influence of unfavorable circumstances that have increased since 2015, such as domestic turmoil, wars, economic crisis, ideological bias, and international constraints.

Conceptually, the book enhances the theoretical framework for understanding Southern countries' foreign policies, through fomenting dialogue with Latin American and Caribbean regional literature on foreign policy. Authors inquire about how decision-making processes occur, and uncover how influential actors help to test the main hypotheses of Foreign Policy Analysis (FPA). Forging essential new paths of inquiry, this book is a must read for researchers of International Relations, Foreign Policy, South-South Relations, Latin American Politics, and Middle Eastern Politics.

*Social dialogue and the role of the brazilian labour inspection in dealing with the new Coronavirus pandemic* Diego Pinto de Barros Leal, 2023-06-27

Social dialogue and labour inspection are essential to promote and achieve decent work and are also important in times of crisis. After a brief historical review of social dialogue in Brazil in recent years, the experience of the Brazilian labour inspection in dealing with the crisis caused by the new coronavirus pandemic is described and later compared with the practices adopted by labour inspectorates in other countries. Data collection includes interviews with two social partners and an international survey with the participation of representatives from twelve countries. In the end, guidelines are proposed on how the performance of labour inspection and the use of social dialogue should be in the face of a crisis with negative economic effects in order to overcome it quickly and without major problems, generating beneficial and lasting results in the world of work and helping to recover the economy.

*Corporate Branding in Facebook Fan Pages* Eliane Pereira Zamith Brito, Maria Carolina Zanette, 2015-03-09 In *Corporate Branding in Facebook Fan Pages: Ideas for Improving Your Brand Value*, the authors show how companies can improve their brand value by fostering their online corporate reputation. Communication actions on Facebook fan pages are an important tool on the road to reputation. Considering that reputation is essentially the long-term image of a brand, the book suggests strategies for improving this image in the short term by nurturing engagement with consumers. Word of mouth (WOM) is an important tool for creating and replicating the image of a trustworthy company, and these repeated images can result in a solid reputation or increased brand value. Also addressed is how company's strategies influence this process, and how online communication benefits from the integration of the manager's vision with communication policies.

*International Arbitration in Latin America* Gloria M. Alvarez, Mélanie Riofrio Piché, Felipe V. Sperandio, 2021-04-08 Energy projects in Latin America are a major contributor to economic growth worldwide. This book is the first to offer a comprehensive, in-depth analysis of specific issues arising from energy and natural resources contracts and disputes in the region, covering a wide range of procedural, substantive, and socio-legal issues. The book also includes how states have shifted from passive business partners to more active controlling players. The book contains an extensive treatment and examination of the particularities of arbitration practice in Latin America, including arbitrability, public order, enforcement, and the complex public-private nature of energy transactions. Specialists experienced in resolving

international energy and natural disputes throughout the region provide detailed analysis of such issues and topics, including: state-owned entities as co-investors or contracting parties; role of environmental law, indigenous rights and public participation; issues related to political changes, corruption, and quantification of damages; climate change, renewable energy, and the energy transition; force majeure, hardship, and price reopeners; arbitration in the electricity sector; take-or-pay contracts; recognition and enforcement of awards; tension between stabilization clauses and human rights; mediation as a method for dispute settlement in the energy and natural resources sector; and different comparative approaches taken by national courts in key Latin American jurisdictions. The book also delivers a clear explanation on the impact made to the arbitration process by Covid-19, emerging laws, changes of political circumstances, the economic global trends in the oil & gas market, the energy transition, and the rise of new technologies. This invaluable book will be welcomed by in-house lawyers, government officials, as well as academics and rest of the arbitration community involved in international arbitration with particular interest in the energy and natural resources sector.

**Television by Stream** Christina Adamou, Sotiris Petridis, 2023-05-22 Online television streaming has radically changed the ways in which programs are produced, disseminated and watched. While the market is largely globalized with some platforms streaming in multiple countries, audiences are fragmented, due to a large number of choices and often solitary viewing. However, streaming gives new life to old series and innovates conventions in genre, narrative and characterization. This edited collection is dedicated to the study of the streaming platforms and the future of television. It includes a plethora of carefully organized and similarly structured chapters in order to provide in-depth yet easily accessible readings of major changes in television. Enriching a growing body of literature on the future of television, essays thoroughly assess the effects new television media have on institutions, audiences and content.

Learn about the challenges and best practices in a journey of OKR implementation. "In this work, another goal of this fantastic initiative called Jornada Colaborativa, we have a deepening of the concepts, context-based applications and, mainly, real market cases, which will surely help you in this VUCA/BANI world where short-term objectives are increasingly necessary." - Vitor Massari, preface Jornada Colaborativa Together we are smarter and more lives are transformed! Once upon a time there was a university professor who dreamed of releasing a book when he finished his master's degree in 2007. After some ideas for publication on topics such as Microsoft certification, project management and service management, the dream began to be fulfilled in 2017 with the book "Jornada DevOps" (DevOps Journey), but some obstacles stopped its evolution

after the definition of the final structure for the official EXIN certification and the writing of three chapters. In September 2018, during a lecture at PUC Minas, a click emerged: “would other people passionate about DevOps help with collaborative writing?” Dozens of people accepted the invitation and the book was released to 350 people on June 6, 2019 at the SulAmérica Convention Center in Rio de Janeiro, after intense coordinated work with people from several cities who had never worked together before. After this successful experience with many learning experiences, the team’s escalation created great friendships, new initiatives and a donation of R\$ 251,500.00 to institutions, with 11 books launched. We dream of transforming more lives with collective intelligence and the support of friendly companies... Antonio Muniz Founder of Jornada Colaborativa, organization and curation of 20 books. *Giving Up is Not an Option* Camila Farani, 2022-09-01 WHEN WE THINK ABOUT GREAT ENTREPRENEURS, WE NOTICE SOMETHING IN COMMON: THEY WENT BEYOND THE OBVIOUS. THEY THOUGHT OUTSIDE THE BOX. THEY SAW SOLUTIONS WHEN THE REST OF THE MARKET ONLY SAW HINDRANCES. THAT'S THE SKILL I WANT TO HELP YOU DEVELOP. Everybody knows how hard it is to own a company in the current market—mortality is high, and achieving the desired profit takes time, discipline, and planning. As you build a company, or even while still developing your business idea, you notice some of the complications that might prevent you from going forward: lack of financial control, bad time management, wanting to do everything all at once, inability to finish things,

lack of collaboration and team training. However, few people know how to survive adversity, grow and reach success. To teach these and other secrets about entrepreneurship Camila Farani—businesswoman, investor, and Shark Tank Brasil shark—wrote her first book. In this book, she deals with subjects such as Brazilian informal culture, lack of specialization and the need for continuous management studies. Through recognizing the fear of taking your next step, Farani brings to you all of her knowledge from nearly twenty years of experience, which will help today's entrepreneurs become tomorrow's great business leaders. Here, you'll learn to: Protect your business from the most common mistakes made by aspiring entrepreneurs during the first stages of a business; Align your idea to a structured, guided business model to offer solutions that will actually attract your clientele; Price the products and services you're offering to the market fairly; Get out of your comfort zone, go beyond the obvious, and innovate, strengthening your business; Build a business plan based on clarity around your resources, efficiency, judicious execution, and scale growth strategy. And, most of all, understand that, when it comes to business, giving up is not an option!
