**The Expo Files** Stieg Larsson,2012-03-29 Now almost exclusively known as the author of the bestselling Millennium Trilogy, as a professional journalist Stieg Larsson was an untiring crusader for democracy and equality. As a reporter and editor-in-chief on the journal Expo he researched the extreme right both in Sweden and at an international level. Collected here for the first time are essays and articles on right-wing extremism and racism, on violence against women and women's rights, on homophobia and honour killings. Larsson never ceased to fight for and write about his most firmly held principles; it was his commitment to these which gave his best-selling novels their explosive force.

**A Great Reckoning** Louise Penny,2016-08-30 The next novel in Louise Penny's #1 New York Times bestselling series featuring Chief Inspector Armand Gamache.

Shanghai Expo Tim Winter,2012 In 2010 Shanghai hosted the largest, most spectacular and most expensive expo ever. Attracting a staggering 73 million visitors, and costing around US\$45 billion dollars, Shanghai Expo broke the records in the history of world's fairs and universal expositions. The thirteen essays in Shanghai Expo, written by a team of interdisciplinary researchers, offer a uniquely detailed analysis of this globally significant event.

**Expo 2 Rouge Pupil Book** Jon Meier,Gill Ramage,2004 This book offers a lively, communicative approach to modern languages, underpinned by a clear grammatical foundation, for pupils with a lower ability. Straightforward explanations of the way that the language works are accompanied by regular reading and writing practice activities.

The Book of Expo Guidebooks Gordon Linden,2016-02-25 Guidebooks from major International Expositions held between 1929 (Barcelona, Seville) and today (2015, Milan), are interesting records of the entertaining and educational temporary worlds created at these events in various cities throughout the world. Published as ephemeral items to be purchased by fairgoers, copies occasionally turn up at flea markets, in antiquarian bookstores, and on internet bookstore sites. This collection of images from the various events, along with a description of the contents of the books, is sure to appeal to memorabilia collectors as well as those seeking to learn more about the history of Expos and World's Fairs.

**Expo 4 Aqa Higher** ,2006-06-19 Developed to follow on from the increasingly popular Expo for Key Stage 3, this motivating new course offers fresh approaches and seamless progression from Year 9 for optimal results at GCSE.

**Expo Legacies** Mike Gregory,2009 World's Fairs and Expositions have been part of our American Culture for more than 150 years. The fairs started out in a large exhibit hall, and as the years passed and the number of exhibits grew as did the number of buildings needed for the displays. Eventually many states, nations, and individuals would start building their own buildings. How many of these buildings are still standing? That was a major focus of the research of this book. Some fairs left several buildings while others have nothing to remind us of the glory of the fair. The book also focuses on the statistics and interesting facts about the fairs and expos.

**Survival Expo** Caki Wilkinson, 2021-06-29 In her inventive new poems, Caki Wilkinson meditates, with humor and disarming tenderness, on family, loneliness, and the seemingly endless threats of our age. In her third collection, Caki Wilkinson steers us into flyover country—from its gun shows and high school gyms to the gates of Graceland—as she explores the relationship between fear and self-protection, both the ways we weather the past and how we carry it with us. Through an array of voices and forms, *The Survival Expo* finds music in the mundane—and hope, too, in the worlds we make to survive the world that made us.

Ten Years: Expo 2010 & Me HanMin Zhou, 2013-01-08 *Ten Years: EXPO 2010 & Me* by Zhou Hanmin is a collection of speeches, interviews, papers and reports, that reflects Prof. Zhou's important contribution to Expo 2010 Shanghai. In this book, Prof. Zhou shares his experiences, lessons, and thoughts over the past decade on the following questions: 1) Why host the Expo and how to bid? 2) How to prepare Expo 2010 scientifically? 3) How to gather the whole world together? 4) How to fully utilize Expo 2010 to boost the development of Shanghai? 5) How to work towards the goal of 'Better City, Better Life'; in the future? This book presents an outstanding contributor who viewed his commitment to the World Expo as a means to serve his country as well as an opportunity to learn new organizational and leadership practices and to incorporate new ideas and methods in his own work to make it more effective. But it's more than that. The book bears witness an arduous journey of China to the World Expo that spans ten years, and another great intellectual legacy left by Chinese people to the world. Published by SCPG Publishing Corporation and distributed by World Scientific for all markets except China

**Expo 58** Gonzague Pluvinaige, 2008 *The Atomium in Brussels* is one of the tourist highlights of Belgium and was built specifically for the World Expo in 1958. Nearly 15,000 workers spent three years building the 2 km<sup>2</sup> site, found on the Heysel plateau, seven kilometres northwest of Brussels. The site is best known for a giant model of a unit cell of an iron crystal (each sphere representing an atom), called the Atomium, which decades later remains one of the best known landmarks of Brussels. The 1958 Expo could be said to be a reflection of a changing society and of the economical, technical and social advances towards modernity that paved the way for the age of prosperity the Western World experienced in the sixties. The Expo ran for 6 months and was visited by over 42 million people. The exhibition features archived documents, such as the plans of the 1958 Expo, typical fifties objects, films of the time showing what was going on in the aisles of the Expo, several scale models including the Civil Engineering Arrow and the Place de Brouckère information centre, which transport the visitor back to the world of 58 and the spectacle of this unique event. As a symbol of these years of optimism, Expo 58 left an idyllic picture to the Belgians of a period of hope and utopia that can be discovered or rediscovered through the exhibition. **SELLING POINTS:** \*Celebrating its 50th anniversary this year, Expo 58 is due to be featured in an exhibition taking place in the Atomium in Brussels. This lavishly illustrated book is the official catalogue that accompanies it \*A fascinating look at a period of revolution in many areas of society, this book is perfect for those who wish to be transported to an age of excitement and fresh ideas, as well as those who can remember the fair itself and the anticipation that preceded it 100 b/w + 90 colour illustrations

**Expo Guidelines Book** Gordon Linden,2017-04-28 The requirements for buildings, facilities and services at International Expositions (Expos) are explored in this book which contains photographs, illustrations, diagrams and descriptions of numerous case study examples from major Expos held throughout the world over the past several decades. Requirements for both Registered and Recognized Expos are presented including the more recent examples of Recognized Expos (Astana Expo 2017, Yeosu Expo 2012, and Zaragoza 2008).

**Art Expo Ljubljana** Art Expo,2023

**Expo 67** Rhona Richman Kenneally,Johanne Sloan,2010-01-01 Expo 67, the world's fair held in Montreal during the summer of 1967, brought architecture, art, design, and technology together into a glittering modern package. Heralding the ideal city of the future to its visitors, the Expo site was perceived by critics as a laboratory for urban and architectural design as well as for cultural exchange, intended to enhance global understanding and international cooperation. This collection of essays brings new critical perspectives to Expo 67, an event that left behind a significant material and imaginative legacy. The contributors to this volume reflect a variety of interdisciplinary approaches and address Expo 67 across a broad spectrum ranging from architecture and film to more ephemeral markers such as postcards, menus, pavilion displays, or the uniforms of the hostesses employed on the site. Collectively, the essays explore issues of nationalism, the interplay of tradition and modernity, twentieth-century discourse about urban experience, and the enduring impact of Expo 67's technological experimentation. Expo 67: Not Just a Souvenir is a compelling examination of a world's fair that had a profound impact locally, nationally, and internationally.

**Expo 58** Jonathan Coe,2013-08-01T00:00:00+02:00 Bruxelles, Esposizione universale del 1958. Un giovane impiegato del governo di Sua Maestà britannica si ritrova coinvolto in un pericoloso intrigo internazionale. La nuova, esilarante commedia di Jonathan Coe.

*China International Import Expo: Shared Future In A New Era* Lei Zou,2020-09-22 China has been holding its annual China International Import Expo (CIIE), starting from 2018 in Shanghai. This is a significant move for China to actively open the Chinese market to the rest of the world as this supports trade liberalization and economic globalization This book systematically expounds the background and content of CIIE, and studies the opportunities that China's expansion of imports brings to its economy, enterprises, consumers and to that of other countries. It elaborates on how the CIIE facilitates countries and regions from different parts of the world to strengthen their economic cooperation and trade, and promote global trade and world economic growth. The book helps readers understand China's reform and opening-up, as well as the latest trends and policies of the country's expansion of import.

**Shanghai Expo** Tim Winter,2012-10-02 In 2010 Shanghai hosted the largest, most spectacular and most expensive expo ever. Attracting a staggering 73 million visitors, and costing around US\$45 billion dollars, Shanghai Expo broke the records in the history of world's fairs and universal expositions. With more than half of the world's population now living in cities, many of which face uncertain futures, this mega event confronted some of the key challenges facing humanity in the 21st Century, with its theme Better City,

Better Life. Just two years after the Beijing Olympics, Shanghai Expo encapsulated a moment in history defined by China's rise as a global superpower, and by the multiple challenges associated with developing more sustainable cities. The thirteen essays here, written by a team of interdisciplinary researchers, offer a uniquely detailed analysis of this globally significant event. Chapters examine displays of futurity and utopia, the limitations of inter-cultural dialogue, and the ways in which this mega-event reflected its geo-political and cultural moment. Shanghai Expo also concentrates on the interplay between declarations towards urban sustainability, and the recent economic, demographic and socio-political trajectories of Shanghai and China more broadly. It will appeal to students and scholars of sociology, history, politics, international relations, economics, Asian studies, China studies, sustainability, and urban studies.
