The Dead Won't Tell S. K. Waters,2022-09-20 What lies in the past should not be uncovered. When Abbie Adams, a historian-turned-journalist, is hired to investigate a cold-case murder from 1969, she jumps at the chance. But soon after she begins researching the case, she realizes that Frank Wexler, the faculty advisor who tanked her thesis and a member of a powerful family in town, is connected to the crime and is definitely not talking. As Abbie tracks down the remaining living witnesses, she slowly pieces together the events of that fateful night, and yet is not a single step closer to solving the case. Were the police back then told to stand down? To cover up the crime? When her witnesses suddenly wind up dead, it becomes clear that Abbie has stumbled upon a sensitive truth that threatens to tear the fabric of the southern town apart. The killer could still be out there, and now he could be hunting her.

The Photo Thief J. L. DeLozier, 2022-10-18 If photos could speak. Still grieving his toddler's death, Detective Dan Brennan of the Philadelphia P.D. returns to the force and is assigned to investigate a socialite's fatal fall down her mansion's staircase. But the open-and-shut case is turned on its head when the victim's daughter alleges her mother was murdered. Her evidence? The dead. The vintage photographs of past murder victims displayed on the mansion's walls have told her so. Compelled to listen to the reclusive teen's pleas, Brennan begins to investigate her mother's death and the disturbing secrets hidden in that house. Each vintage photograph is tied to a quartet of cold cases with a disturbing commonality. As the wealthy family's long, sordid history threatens to bury Brennan, he realizes he has to make a choice: save his career, or risk it all for the chance to hear his daughter's voice again.

Fiat Lux Andrew Ross, 2008 Since 1996, Andrew Ross has been building an extraordinary record of aspects of a vanishing New Zealand. His beautifully lit, atmospheric photographs of dilapidated buildings, industrial workshops and domestic interiors are one of the outstanding bodies of work in contemporary New Zealand photography. For 'Fiat lux', five writers have

collaborated with Ross to choose ten photographs each on a particular theme - workshops, environmental portraits, domestic interiors, buildings demolished for the Wellington motorway extension, and the use of natural light - and have written short essays to accompany them.--Jacket blurb.

Sevengate Clive Thomas, 2015-01-12 "Thursday's Child," aka Peter Tobin – foundling, drover, shearer, horse-breaker, soldier, and pastoralist – travelled far and wide throughout the Australian outback in the late nineteenth and early twentieth century. The legacy of his widely scattered seed is gathered up in this tale of fatal misunderstandings, murder, and altruism, spanning the years 1910 to 1974. Like the Peter Tobin memoir "Thursday's Child" that precedes it, the author gives a respectful nod to history pedants and reminds them this is a work of fiction.

Augmentation Mammoplasty E-Book John B. Tebbetts,2009-11-14 2010 PROSE Awards Honorable Mention, Clinical Medicine! John B. Tebbetts, MD, a pioneer in the field of breast augmentation, redefines the surgeon/patient experience in this comprehensive book. By exhaustively covering everything you need to know about breast augmentation, Dr. Tebbetts allows for tightly focused guidance that is principle- rather than experienced-based, with numerous decision-making algorithms and outcome-based techniques, not just one-answer solutions. The book addresses topics that range from anesthesia and case studies of specific implants to practical matters like

practice management. Focuses exclusively on breast augmentation to make coverage as comprehensive as possible. Includes much-needed information on practice management, including patient consent, systems analysis, marketing, and data acquisitions. Addresses pre-, intra-, and postoperative care of patient for guidance from start to finish. Utilizes a separate chapter for each approach to breast augmentation: inframammary, axillary, periaereolar, or umbilical. Incorporates case studies of specific implants to help you make the right decision for your patients. Details TEPID (Tissue characteristics of the Envelope and Parenchyma, the Implant, and Dimensions and filler dynamics of the implant) system: the first three-dimensional modeling system for quantitating tissue characteristics. Provides 15 decision-making algorithms for all aspects of implant selection, surgery, and complications----the only published resource to do so.
