Animation: A World History Giannalberto

Bendazzi, 2015-11-06 A continuation of 1994's groundbreaking *Cartoons*, Giannalberto Bendazzi's *Animation: A World History* is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries. Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history. Key Features: Over 200 high quality head shots and film stills to add visual reference to your research Detailed information on hundreds of never-before researched animators and films Coverage of animation from more than 90 countries and every major region of the world Chronological and geographical organization for quick access to the information you're looking for

Indústrias Criativas Cristiano Max Pereira Pinheiro (organizador), Mauricio Barth (organizador), Compreender o fenômeno das Indústrias Criativas se faz oportuno - e necessário -, visto que as mesmas têm se destacado das demais pois possui, justamente, a criatividade como elemento diferencial. Howkins (2001)¹ discorre que os detentores das ideias se tornaram profissionais mais importantes do que os que operam máquinas e, em muitos casos, até mais do que os que as possuem. Enquanto discutem-se inúmeras formas de diferenciação em mercados extremamente disputados, a criatividade prova, dia após dia, que pode ser esse agente díspar que as organizações tanto buscam. Criar pode ser, inclusive, uma questão de sobrevivência empresarial, dadas as incertezas em relação ao presente/ futuro, principalmente se considerarmos o contexto mutável em que vivemos, onde surgem, a cada momento, novos problemas e situações que exigem, de forma direta e em uma rapidez impensada, soluções e decisões altamente criativas (DUAILIBI; SIMONSEN JÚNIOR, 20092). Sendo assim, buscando compartilhar pesquisas e casos acerca das dimensões formadoras das Indústrias Criativas, a Universidade Feevale apresentou, no dia 26 de junho de 2015, o I Congresso de Indústrias Criativas. O evento teve como objetivo a realização de palestras e grupos de trabalho que inovassem e discutissem o campo dos processos produtivos de diversos setores criativos, como Publicidade, Moda, Design, Jogos Digitais, Cinema, Música e Arte, entre outros. Nas páginas seguintes, o leitor tem a oportunidade de conhecer os textos enviados ao Congresso, aproximando-se dos diversos campos que compõem o universo complexo e instigante das Indústrias Criativas. Busca-se, dessa forma, oportunizar a professores, pesquisadores e estudantes de programas *Strictu Sensu*, um maior contato com a área, visto que os estudos que permeiam a produção científica nacional são, ainda, introdutórios e incipientes. Boa leitura a todos!
