Taiho-Jutsu Don Cunningham, 2012-02-14 In Taiho-Jutsu: Law and Order in the Age of the Samurai, author and judo second-dan Don Cunningham provides a fascinating introduction to the civil society of Edo-period (1603-1867) Japan—particularly the role played by the well-known warrior class, the samurai. Cunningham shows that the samurai were not, as commonly portrayed, always all-powerful mediators ruling the chonin through the power of their swords. During this period the samurai became a part of the complex system of Japanese law enforcement. Made up of samurai as well as machi-bugyo-sho (town magistrates), yoriki (assistant samurai), doshin (samurai patrol officers), komono (assistants), goyokiki (part-time police assistants) and okappiki (informants and spies)—this intricate structure mirrored the Japanese society of the day. Taiho-Jutsu offers a detailed look at the weapons these law enforcement officers used—including the jutte (iron truncheon), tesson (iron fan), yori-bo (wooden staff), sodegarami (sleeve

entangler), sasumata (spear fork), and torinawa (arresting ropes)—as well as a fascinating illustrated look at the techniques used to apprehend criminals. From kamae (stances) to parrying and striking and throwing techniques, these explanations demonstrate the practical techniques in Edoperiod Japan.

The Text-Book of Ju-Jutsu - As Practised in Japan - Being a Treatise on the Japanese Method of Self Defence S. K. Uyenishi,2016-08-26 It has been said that no one could learn Wrestling from a text-book. A great deal, of course, depends on how well that text-book is written, the experience of the author, and his ability to impart his knowledge of the art. I have read Mr. S. K. Uyenishi's book with great pleasure, and I have no doubt that it will be of tremendous help, not only to beginners but to those who have been practising the art for many years. Indeed, I have read no book which deals with the subject of Ju-Jutsu more clearly or more simply. The detailed description of the various falls, throws and locks will enable the student quickly to slip out of holds with the same skill in which he gets his opponent into difficulties—in fact, the whole art of Ju-Jutsu is splendidly presented. I have no hesitation in commending Mr. Uyenishi's book to everyone seriously interested in this ancient Japanese science. PERCY BICKERDIKE

Teaching Ninja Jay Horne, Kellyn Henderson, Bob Hagan, 2010-12-21 The concept of Ninja International blossomed from the multitude of martial art styles available today. Ninjutsu, seemingly was the most complete form of LIFE training until recently. To take up the art of Ninja can be an overwhelming thought at first, as it should be, for it is truly a life long voyage of discovery. Simply thinking of the things one may encounter on a ninja mission can give you an idea of the unlimited array of techniques a perfect ninja may need to utilize. What is different about Tesaihiryu is the acknowledgement of each individual's maturation. Everyone grows in different ways and so we are not forcing rigid techniques down the throats of our disciples, but rather introducing to them the seeds of living, moving, growing tactics that are malleable enough to customize for each individual. Our favorite way of expressing this fact is by reminding our students, and yours, that art is not art without personality. Lastly, we remind you that there is no greater way of learning than to teach, for in doing so, you essentially are tapping the well of your own knowledge hidden deep within the recesses of yourself. It is for this reason alone, that we provide a written copy of our lessons in these texts. The lesson will be laid out in a way that YOU can utilize the material to conduct your own class.

**Bushi-Jutsu** Darren Westwood, Andrew Paskin, 2004-08 Bushi-Jutsu, The Science of the Warrior bridges the gap between the kata of old Okinawa, following the influence of the feudal Japanese militia and that which is taught in today's dojo as 'effective' self-defence. The distressing reality, for most kata bunkai students, is that there is very little 'real' application in the world today, outside Japan. That which is taught as 'bunkai' tends to be Monkey See - Monkey Do - very few really understand the highly technical and effective nature of this 'secret' part of karate. This book doesn't just uncover the brutal nature of karate kata application, it literally rips the shroud of secrecy from around it and cleaves the mystery from it.

Tambo Jutsu Henry Binerfa,2017-09-22 The author presents this work: Tambo Jutsu, his primary book in a series of three volumes about this peculiar weapon comparable to a short stick. The technique of Tambo Jutsu first appeared within the kinds of Samurais in feudal Japan and expanded through the Ninjas Schools' from the year 1868 to 1912. In the light of the Revolution of the Meiji Era a period of 230 years of airtight and isolation had finished. This, then, is when some Masters started to teach their abilities about foreign martial arts. The idea of this book is built upon an

adjustment of ancestral techniques to modern times on the foundation of the peculiar teaching methodology of Sensei Henry Binerfa, and not on the basis of traditional schools. In particular, he presents his concept for teaching gradually, and keeps nearness with the cultural and historical Japanese ancestry. The content of this book embraces some basic aspects of the technique, such as: Stances, types of grips, blocking and striking techniques, and a section about self-defense to face punch, kicks, grips and weapons attack. The techniques on this book are just a part of the syllabus for teaching Tambo Jutsu at ShinKaiDo Ryu school which comprise more than 12, 445 combinations for attacks and defense in Tambo Jutsu.

TAIHO JUTSU - First Dan Program Bruce R. Bethers, Jose Caracena, 2021-10-22 In this book we present the program of Taiho Jutsu thru First (1st) Dan, dividing this study into 12 technical chapters. In our previous book Taiho Jutsu we explained the history, evolution, and traditions of Taiho Jutsu. In this book we have focused on the degree or rank program. Most of the techniques for 1st dan are simple and commonly known to most martial artists and security professionals but then what makes taiho jutsu different? The answer is that in this Japanese police method or system the excellence of the technique is sought along with the refinement of all the movements and the hidden details that improve the effectiveness of these police defensive tactics. Many police systems ignore the basis, principles, and technical foundations. In taiho jutsu programs, a special reinforcement of these aspects is made. The program up thru First (1st) Dan is therefore simple, intuitive and with logical sequences of defense. In the higher degree (dan) programs, progress is made in the more complex skills and elaborate study of ancient traditions and their evolution as well as today's modern police tactics and self-defense.
