San Francisco, Portrait of a City: 1940-1960 Fred Lyon,2014-09-16 With a landmark around every corner and a picture perfect view atop every hill, San Francisco might be the world's most picturesque city. And yet, the Golden City is so much more than postcard vistas. It's a town alive with history, culture, and a palpable sense of grandeur best captured by a man known as San Francisco's Brassai. Walking the city's foggy streets, the fourth-generation San Franciscan captures the local's view in dramatic black-and-white photos— from fog-drenched mornings in North Beach and cable cars on Market Street to moody night shots of Coit Tower and the twists and turns of Lombard Street. In San Francisco, Portrait of a City 1940-1960, Fred Lyon captures the iconic landscapes and one-of-a-kind personalities that transformed the city by the bay into a legend. Lyon's anecdotes and personal remembrances, including sly portraits of San Francisco characters such as writer Herb Caen, painters Richard Diebenkorn and Jean Varda, and madame and former mayor of Sausalito Sally Stanford add an artist's first-hand view to this portrait of a classic American city.

The production of Urban Space, Temporality, and Spatiality Bernard Gauthiez,2020-05-05 The production of urban space in scarcely studied by scholars in historical and urban studies, the city being still predominantly seen as a frame in which activities and social relationship develop, not a produce in itself. The scope of the book is the comprehension of this production. This implies an adequate conceptualisation of the way urban space can be measured and broken down in units which can be put in relation with social processes and agents. A first part examines the concepts and their implications. The second part deals with the anthropology and typology of architectural production considered in relation to demography. The third part develops on the rhythms of the space production at Lyon from the late 15th century to the 19th. The temporalities and spatialities of the production are determined and examined. The agents of the production are studied all along the period, in parallel to the market aimed at: investors in real estate, tenants, activities. Each phenomenon identified can be described and understood as in the meantime a temporal, spatial and social unit.

With A Lyon’s Share, the New York Times-bestselling legend—with more than 300 million copies of her novels sold—brings us to Illinois, where passion comes alive in a bustling Midwestern metropolis. At Lyon Construction in Chicago, young secretary Joan Somers has always had an unbusinesslike attraction to her handsome boss, Brandt Lyon. But the dynamic entrepreneur has been too busy to notice, and can sometimes seem colder than the winter wind off Lake Michigan. Joan even considers quitting to spare herself the heartache—until fate intervenes with a pre-Christmas snowstorm that closes off streets and shuts the Windy City down. Stranded together in the office overnight, Joan suddenly has Brandt’s full attention . . . and the two must find a way to keep warm. But once the line between employer and employee is crossed, there’s no turning back.

Corruption, Protection and Justice in Medieval Europe Jonathan R. Lyon,2022-11-24 What was an “advocate” (Latin: advocatus; German: Vogt) in the Middle Ages? What responsibilities came with the position and how did they change over time? With this groundbreaking study, Jonathan R. Lyon challenges the standard narrative of a “medieval” Europe of feudalism and lordship being replaced by a “modern” Europe of government, bureaucracy and the state. By focusing on the position of advocate, he argues for continuity in corrupt practices of justice and protection between 750 and 1800. This book traces the development of the role of church advocate from the Carolingian period onward and explains why this position became associated with the violent abuse of power on churches' estates. When other types of advocates became common in and around Germany after 1250, including territorial and urban advocates, they were not officeholders in developing bureaucracies. Instead, they used similar practices to church advocates to profit illicitly from their positions, which calls into question scholarly arguments about the decline of violent lordship and the rise of governmental accountability in European history.

Disrupted Dan Lyons,2016-04-05 An instant New York Times bestseller, Dan Lyons' hysterical (Recode) memoir, hailed by the Los Angeles Times as the best book about Silicon Valley, takes readers inside the maddening world of fad-chasing venture capitalists, sales bros, social climbers, and sociopaths at today's tech startups. For twenty-five years Dan Lyons was a magazine writer at the top of his profession--until one Friday morning when he received a phone call: Poof. His job no longer existed. I think they just want to hire younger people, his boss at Newsweek told him. Fifty years old and with a wife and two young kids, Dan was, in a word, screwed. Then an idea hit. Dan had long reported on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They offered Dan a pile of stock options for the vague role of marketing fellow. What could go wrong? HubSpotters were true believers: They were making the world a better place ... by selling email spam. The office vibe was frat house meets cult compound: The party began at four thirty on Friday and lasted well into the night; shower pods became hook-up dens; a push-up club met at noon in the lobby, while nearby, in the content factory, Nerf gun fights raged. Groups went on walking meetings, and Dan's absentee boss sent cryptic emails about employees who had graduated (read: been fired). In the middle of all this was Dan, exactly twice the age of the average HubSpot employee, and literally old enough to be the father of most of his co-workers, sitting at his desk on his bouncy-ball chair.

Lyon's Pride Anne McCaffrey,1995-02-01 A DESTRUCTIVE SPECIES The Hive acts as a single entity, relentlessly swarming the galaxy, endlessly propagating on every habitable world they encounter—destroying native populations in the process. They do not recognize any sentience but their own. They do not acknowledge any attempt to communicate with them. They do not understand they leave countless numbers of dead in their wake. A FAMILY LEGACY The Prime Talents of the Raven-Lyon clan—telepaths, teleporters, and telekinetics—have protected the Alliance from the Hive breeding contagion for years.
