Catherine Gallagher, Thomas Laqueur

Never Modern Irénée Scalbert, 6a Architects, 2013 In this exceptional book on the London based studio 6a architects, architecture critic Irene Scalbert looks at the role of narrative, history, appropriation and craft in the work of Tom Emerson and Stephanie Macdonald. The book traces an architectural approach avoiding style, signature, theory and even concept in favour of metis, an ancient form of intelligence combining 'flair, wisdom, forethought, subtlety of mind, deception, resourcefulness, vigilance, opportunism, varied skills, and experience.' Structured around notions of situation, intervention, making, comedy, bricolage, chance and anthropology, the text is mirrored in a visual essay of archive photographs, artworks, film stills and recent projects by the practice.

Iran Modern Fereshteh Daftari, Layla S. Diba, 2013 'Iran Modern' offers a timely exploration of the cultural diversity and production of avant-garde art in Iran after World War II and up to the revolution, from 1950 through to 1979.

American Modern Thomas O'Brien, 2018-06-05 "One of those designers whose interior and furniture designs look discovered, not created . . . both comfortable and exquisite, calm and eclectic." —Apartment Therapy Designer and merchant, collector and tastemaker, Thomas O'Brien has made a career of translating cool notions of modernism into an easy and generous array of modern styles that anyone can attain. Now he introduces readers to a range of those styles—from casual to formal, vintage to urban—alongside stunning photography and charming design stories. O'Brien carefully describes the design process of his chosen projects, including a downtown New York City loft, a traditional Connecticut estate, and a converted schoolhouse in eastern Long Island. Each home explores a view on the modern design spectrum he has created, as well as the individual choices that make the design unique and its mix essentially American. He explains not only what was at work to create a given style, but

how readers can import those practices to their own homes and personal design sensibilities. Important design principles such as architectural authenticity, color relationships, correctness of scale, and informed collecting are threaded through a practical narrative that reads like a master class in interior design. *American Modern* is an inspiring design volume that will redefine the way readers think about modern interiors. “O’Brien carefully describes the design process of his chosen projects. Beautiful imagery and a unique layout describe his approach to design in a new and innovative way.” —LIFEMSTYLE “It’s like getting a glimpse into the studio paintings of a great master . . . I especially love how all of his spaces feel so gender neutral, the perfect balance.” —Cottage Farm

Quilt As-You-Go Made Modern Jera Brandvig, 2014-10-01 Learn to create modern quilts more quickly and easily than ever with this popular method, featuring thirteen projects and twenty-five bonus ideas. Do you believe rules were meant to be broken? If so, this improvisational quilt-as-you-go technique is for you. Instead of dealing with precise paper patterns and cutting measurements, you’ll learn how to piece fabric onto small, manageable batting blocks. Let your creative juices flow as you quilt directly on the blocks (not the whole quilt!), whether in large abstract zigzags or small structured stitches. After the blocks have been joined, all you need to do is add backing fabric and binding, and—voila—it’s finished! A modern approach to quilting that’s fresh, fun, and simpler than it sounds; it will change the way you quilt (for the better) Great for moms or anyone with a busy schedule—these thirteen projects are easy to transport because they make it simple to pick up where you left off Go your own way: This method allows you to use a pattern or improvise, creating a wide variety of design options Save money! Learn how to finish your own quilts without the use of a longarm professional “Quilting is easier than ever with Jera Brandvig’s modern spin on the popular quilt-as-you-go technique.” —Modern Quilts Unlimited “Quilt-as-you-go (QAYG)

is one of those techniques that every quilter is curious about trying, but can be daunting as the process is so different to the traditional process of making a quilt top and then quilting it. . . . The book introduces the technique very thoroughly, so you can clearly understand the difference between traditional piecing and quilting and QAYG. Then there's a great selection of gorgeous quilts that are sure to appeal to the modern quilter. A must if you've ever thought about trying QAYG and haven't had a clue where to start." —Make Modern Magazine

The Modern Book of the Dead Ptolemy Tompkins, 2013-03-19 A modern, all-encompassing exploration of what happens after death combines spirituality with philosophy, history, and science, all of which guide readers toward the timeless truth that human consciousness lives on after death.

L.A. Modern , 2008-10-21 The birthplace of American modernism, Los Angeles is the epicenter for a new way of living for the last one hundred years, as manifested in its cutting-edge architecture and design. With roots in the innovative houses by Frank Lloyd Wright, Greene & Greene, and Rudolph Schindler in the early twentieth century, this constantly evolving city became a crucible of modern living. Inspired by the International Style, architects and designers in Los Angeles developed their own individual styles with a rare sensitivity to site, landscape, and human scale. This brand of modernism, blurring the boundaries of indoors and outdoors, has since been imitated from Seattle to Sydney. Acclaimed architecture and design photographer Tim Street-Porter captures the best Modernist architecture of Los Angeles, from the seminal Neutra houses to the idiosyncratic structures by Frank Gehry. With iconic buildings by Craig Ellwood, Pierre Koenig, John Lautner, Charles and Ray Eames, and Oscar Niemeyer, among others, L.A. Modern presents the full spectrum of Los Angeles modernism in gorgeous new color photography.

Medieval Modern Alexander Nagel, 2012-11-06 Rich collisions and fresh perspectives illuminate the profound continuities of

thought and practice that have marked Western art through the ages. This groundbreaking study offers a radical new reading of art since the Middle Ages. Moving across the familiar period lines set out in conventional histories, Alexander Nagel explores the deep connections between modern and premodern art to reveal the underlying patterns and ideas traversing centuries of artistic practice. In a series of episodic chapters, he reconsiders from an innovative double perspective a number of key issues in the history of art, from iconoclasm and idolatry to installation and the museum as institution. He shows how the central tenets of modernism – serial production, site-specificity, collage, the ready-made, and the questioning of the nature of art and authorship – were all features of earlier times before modernity, revived by recent generations. Nagel examines, among other things, the importance of medieval cathedrals to the 1920s Bauhaus movement, the parallels between Renaissance altarpieces and modern preoccupations with surface and structure; the relevance of Byzantine models to Minimalist artists; the affinities between ancient holy sites and early earthworks; and the similarities between the sacred relic and the modern ready-made. Alongside the work of leading 20th-century medievalist writers such as Walter Benjamin, Marshall McLuhan, Leo Steinberg, and Duchamp, Kurt Schwitters, Robert Smithson, and Damien Hirst. The effect of these encounters goes in two directions at once: each age offers new insights into the other, deepening our understanding of both past and present, and providing a new set of reference points that reframe the history of art itself.

The Making of the Modern Body Catherine

Gallagher, Thomas Laqueur, 1987-02-06 Scholars have only recently discovered that the human body itself has a history. Not only has it been perceived, interpreted, and represented differently in different epochs, but it has also been lived differently, brought into being within widely dissimilar material cultures, subjected to various technologies and means of control,

and incorporated into different rhythms of production and consumption, pleasure and pain. The eight articles in this volume support, supplement, and explore the significance of these insights. They belong to a new historical endeavor that derives partly from the crossing of historical with anthropological investigations, partly from social historians' deepening interest in culture, partly from the thematization of the body in modern philosophy (especially phenomenology), and partly from the emphasis on gender, sexuality, and women's history that large numbers of feminist scholars have brought to all disciplines.

Modern Liberty and Its Discontents Pierre Manent, 2000-01-01

In this book, distinguished French philosopher Pierre Manent addresses a wide range of subjects, including the Machiavellian origins of modernity, Tocqueville's analysis of democracy, the political role of Christianity, the nature of totalitarianism, and the future of the nation-state. As a whole, the book constitutes a meditation on the nature of modern freedom and the permanent discontents which accompany it. Manent is particularly concerned with the effects of modern democracy on the maintenance and sustenance of substantial human ties. *Modern Liberty and its Discontents* is both an important contribution to an understanding of modern society, and a significant contribution to political philosophy in its own right.

Writing Combat and the Self in Early Modern English Literature Jennifer Feather, 2011-12-22 By examining these competing depictions of combat that coexist in sixteenth-century texts ranging from Arthurian romance to early modern medical texts, this study reveals both the importance of combat in understanding the humanist subject and the contours of the previously neglected pre-modern subject.

Early Modern Exchanges Helen Hackett, 2016-03-09 Marcus Gheeraerts's portrait of a 'Persian lady' - probably in fact an

English lady in masquing costume - exemplifies the hybridity of early modern English culture. Her surrounding landscape and the embroidery on her gown are typically English; but her head-dress and slippers are decidedly exotic, the inscriptions beside her are Latin, and her creator was an 'incomer' artist. She is emblematic of the early modern culture of exchange, both between England and its neighbours, and between Europe and the wider world. This volume presents fresh research into such early modern exchanges, exploring how new identities, subjectivities and artefacts were forged in dialogues and encounters between diverse cultures, nations and language communities. The early modern period was a time of creative interactions between cultures and disciplines, and accordingly this is a multidisciplinary volume, drawing together international experts in literature, history, modern and ancient languages and art history. It understands cultural exchange as encompassing both the geographical mobilities of travel and trade and the transmission of ideas across borders and between languages, as enabled by the new technology of print. Sites of exchange were located not only in distant and unfamiliar lands, but also in the bookseller's shop and the scholar's study. The volume also explores the productive and complex dialogues between early modern culture and the classical past. The types of exchanges discussed include the linguistic transactions of translation and imitation; interactions between cultural elites, such as monarchs, courtiers and diplomats; and the catalytic influences of particularly mobile or outward-looking individuals and groups. Ranging from the neo-Latin poetry of an English author to the plays of a nun in seventeenth-century New Spain, from royal portraits exchanged in diplomatic negotiations to travelling companions in the Ottoman Empire, the volume sheds new light

Conservation of Modern Architecture Susan Macdonald, Kyle C. Normandin, Bob Kindred, 2015-12-08 The importance of protecting significant buildings from decay and destruction would seem to be

undeniable. Yet whilst the majority of buildings of merit constructed before the Second World War have been highlighted as worthy of protection there is much indifference, and in some cases hostility towards many important post-war buildings. These deserve to receive wider formal recognition but in many cases continue to be mistreated or even demolished. This book examines many of the philosophical and practical issues surrounding the conservation of modern buildings and also the problems faced by building practitioners in dealing with buildings constructed in a wider range of styles and materials than at any other time. Climate change in particular has forced change in the way in which we think about buildings, with the pressures to address issues of energy efficiency becoming more urgent and likely to have consequences that may alter the perceived architectural and historic interest of modern and traditional buildings alike.

Adorno and Modern Theatre K. Gritzner, 2016-04-29 Adorno and Modern Theatre explores the drama of Edward Bond, David Rudkin, Howard Barker and Sarah Kane in the context of the work of leading philosopher Theodor W. Adorno (1903-1969). The book engages with key principles of Adorno's aesthetic theory and cultural critique and examines their influence on a generation of seminal post-war dramatists.

Modern Middle East Authoritarianism Nouredine Jebnoun, Mehrdad Kia, Mimi Kirk, 2013-07-31 While the Arab uprisings have overturned the idea of Arab exceptionalism, or the acceptance of authoritarianism, better analysis of authoritarianism's resilience in pre- and post-uprising scenarios is still needed. *Modern Middle East Authoritarianism: Roots, Ramifications, and Crisis* undertakes this task by addressing not only the mechanisms that allowed Middle Eastern regimes to survive and adapt for decades, but also the obstacles that certain countries face in their current transition to democracy. This volume analyzes the role of ruling elites, Islamists, and others, as

well as variables such as bureaucracy, patronage, the strength of security apparatuses, and ideological legitimacy to ascertain regimes' life expectancies and these factors' post-uprisings repercussions. Discussing not only the paradigms through which the region has been analyzed, but also providing in-depth case studies of Tunisia, Egypt, Libya, Algeria, Saudi Arabia, Iraq, and Iran, the authors arrive at critical conclusions about dictatorship and possibilities for its transformation. Employing diverse research methods, including interviews, participant observation, and theoretical discussions of authoritarianism and political transition, this book is essential reading for scholars of Middle East Studies, Islamic Studies and those with an interest in the governance and politics of the Middle East.

Expanding the Canon of Early Modern Women's Writing

Paul Salzman, 2010-07-12 This exciting collection of original essays on early modern women's writing offers a range of approaches to a growing field. As a whole, the volume introduces readers to a number of writers, such as Mirabai and Liu Rushi, who are virtually invisible in Anglophone scholarship, and to writers who remain little known, such as Elizabeth Melville, Elizabeth Hatton, and Jane Sharpe. The volume also represents critical strategies designed to open up the emergent canon of early modern women's writing to new approaches, especially those that have consolidated the integration of literary and intellectual history, with an emphasis on religion, legal issues, and questions of genre. The authors expand the methodological possibilities available to approach early modern women who wrote in a diverse number of genres, from letters to poetry, autobiography and prose fiction. The sixteen essays are a major contribution to an area that has attracted the interest of a number of fields, including literary studies, history, cultural studies, and women's studies.

The Image of Christ in Modern Art Richard

Harries, 2016-03-03 The Image of Christ in Modern Art explores the challenges presented by the radical and rapid changes of artistic

style in the 20th century to artists who wished to relate to traditional Christian imagery. In the 1930s David Jones said that he and his contemporaries were acutely conscious of 'the break', by which he meant the fragmentation and loss of a once widely shared Christian narrative and set of images. In this highly illustrated book, Richard Harries looks at some of the artists associated with the birth of modernism such as Epstein and Rouault as well as those with a highly distinctive understanding of religion such as Chagall and Stanley Spencer. He discusses the revival of confidence associated with the rebuilding of Coventry Cathedral after World War II and the commissioning of work by artists like Henry Moore, Graham Sutherland and John Piper before looking at the very testing last quarter of the 20th century. He shows how here, and even more in our own time, fresh and important visual interpretations of Christ have been created both by well known and less well known artists. In conclusion he suggests that the modern movement in art has turned out to be a friend, not a foe of Christian art. Through a wide and beautiful range of images and insightful text, Harries explores the continuing challenge, present from the beginning of Christian art, as to how that which is visual can in some way indicate the transcendent.
