Language, Culture, Computation: Computing - Theory and Technology Nachum Dershowitz, Ephraim Nissan, 2014-12-03 This Festschrift volume is published in Honor of Yaacov Choueka on the occasion of his 75th birthday. The present three-volumes *liber amicorum*, several years in gestation, honours this outstanding Israeli computer scientist and is dedicated to him and to his scientific endeavours. Yaacov's research has had a major impact not only within the walls of academia, but also in the daily life of lay users of such technology that originated from his research. An especially amazing aspect of the temporal span of his scholarly work is that half a century after his influential research from the early 1960s, a project in which he is currently involved is proving to be a sensation, as will become apparent from what follows. Yaacov Choueka began his research career in the theory of computer science, dealing with basic questions regarding the relation between mathematical logic and automata theory. From formal languages, Yaacov moved to natural languages. He was a founder of natural-language processing in Israel, developing numerous tools for Hebrew. He is best known for his primary role, together with Aviezri Fraenkel, in the development of the Responsa Project, one of the earliest fulltext retrieval systems in the world. More recently, he has headed the Friedberg Genizah Project, which is bringing the treasures of the Cairo Genizah into the Digital Age. This first part of the three-volume set covers a range of topics in computer science. The papers are grouped in topical sections on: the jubilaris: Yaacov and his oeuvre; theory of computation; science computing and tools for engineering; information retrieval.

Deference to the Administration in Judicial Review Guobin Zhu,2019-11-23 This book investigates judicial deference to the administration in judicial review, a concept and legal practice that can be found to a greater or lesser degree in every constitutional system. In each system, deference functions differently, because the positioning of the judiciary with regard to the separation of powers, the role of the courts as a mechanism of checks and balances, and the scope of judicial review differ. In addition, the way deference works within the constitutional system itself is complex, multi-faceted and often covert. Although judicial deference to the administration is a topical theme in comparative administrative law, a general examination of national systems is still lacking. As such, a theoretical and empirical review is called for. Accordingly, this book presents national reports from 15 jurisdictions, ranging from Argentina, Canada and the US, to the EU. Constituting the outcome of the 20th General Congress of the International Academy of Comparative Law, held in Fukuoka, Japan in July 2018, it offers a valuable and unique resource for the study of comparative administrative law.

Usage-Based Studies in Modern Hebrew Ruth A. Berman,2020-03-18 The goal of the volume is to shed fresh light on Modern Hebrew from perspectives aimed at readers interested in the domains of general linguistics, typology, and Semitic studies. Starting with chapters that provide background information on the evolution and sociolinguistic setting of the language, the bulk of the book is devoted to usage-based studies of the morphology, lexicon, and syntax of current Hebrew. Based primarily on original analyses of authentic spoken and online materials, these studies reflect varied theoretical frames-of-reference

that are largely model-neutral in approach. To this end, the book presents a functionally motivated, dynamic approach to actual usage, rather than providing strictly structuralist or formal characterizations of particular linguistic systems. Such a perspective is particularly important in the case of a language undergoing accelerated processes of change, in which the gap between prescriptive dictates of the Hebrew Language Establishment and the actual usage of educated, literate but non-expert speaker-writers of current Hebrew is constantly on the rise.

The International Photojournalism Industry Jonathan Ilan, 2018-07-17 How are events turned into news pictures that define them for the audience? How do events become commodified into pictures that both capture them and reiterate the values of the agencies that sell them? This book looks at every stage of the production of news photographs as

they move to and from the ground and are sold around the world. Based on extensive fieldwork at a leading international news agency that includes participant observation with photographers in the field, at the agency's local and global picture desks in Israel, Singapore, and the UK, in-depth interviews with pictures professionals, and observations and in-depth interviews at The Guardian's picture desk in London, the findings in this book point to a wide cultural production infrastructure hidden from – and yet also nurtured and thus very much determined by – the consumer's eye.

War of the Spark: Forsaken (Magic: The Gathering) Greg Weisman, 2019-11-12
Return to the multiverse of Magic: The Gathering as the hunt for Liliana Vess is on in the aftermath of the War of the Spark. The Planeswalkers have defeated Nicol Bolas and saved the Multiverse—though at grave cost. The living have been left to pick up the pieces and mourn the dead. But one loss is almost too great to bear: Gideon Jura, champion of justice and shield of the Gatewatch, is gone. As his former comrades Jace and Chandra struggle to rebuild from this tragedy, their future, like the future of the Gatewatch, remains uncertain. As the Gatewatch's newest member, Kaya aims to help write that future. In joining, she pledged an oath to protect the living and the dead, but now that oath will be tested. The grieving guild masters of Ravnica have tasked her with a grave mission suited to her talents as a hunter and assassin—a mission she is ordered to keep secret from the Gatewatch. She must track down and exact retribution on the traitor Liliana Vess. But Liliana Vess has no interest in being found. Forsaken by her friends, she fled Ravnica after the defeat of Bolas. She was hostage to his wicked will, forced to assist in his terrible atrocities on pain of death—until Gideon, the last one who believed in her goodness, died in her place. Haunted

by Gideon's final gift, and hunted by former allies, Liliana now returns to a place she'd thought she'd never see again, the only place she has left: home.
