The Movie Book Gary Jennings,1963 History of motion pictures presenting historical summaries of early inventions, the star system, film spectacles, comedies, westerns, cartoons, etc.

The Road Movie Book Steven Cohan,Ina Rae Hark,2002-01-04 The Road Movie Book is the first comprehensive study of an enduring but ever-changing Hollywood genre, its place in American culture, and its legacy to world cinema. The road and the cinema both flourished in the twentieth century, as technological advances brought motion pictures to a mass audience and the mass produced automobile opened up the road to the ordinary American. When Jean Baudrillard equated modern American culture with 'space, speed, cinema, technology' he could just as easily have added that the road movie is its supreme emblem. The contributors explore how the road movie has confronted and represented issues of nationhood, sexuality, gender, class and race. They map the generic terrain of the road movie, trace its evolution on American television as well as on the big screen from the 1930s through the 1980s, and, finally, consider road movies that go off the road, departing from the US landscape or travelling on the margins of contemporary American culture. Movies discussed include: * Road classics such as It Happened One Night, The Grapes of Wrath, The Wizard of Oz and the Bob Hope-Bing Crosby Road to films * 1960's reworkings of the road movie in Easy Rider and Bonnie and Clyde * Russ Meyer's road movies: from Motorpsycho! to Faster Pussycat! Kill! Kill! * Contemporary hits such as Paris Texas, Rain Man, Natural Born Killers and Thelma and Louise * The road movie, Australian style, from Mad Max to the Adventures of Priscilla, Queen of the Desert.

It's Only a Movie Charlotte Chandler,2008-12-09 IT'S ONLY A MOVIE is as close to an autobiography by Alfred Hitchcock that you could ever have. Drawn from years of interviews with her subject, his friends and the actors who worked with him on such classics as THE BIRDS, PSYCHO and REAR VIEW WINDOW, Charlotte Chandler has created a rich, complex, affectionate and honest picture of the man and his milieu. This is Hitchcock in his own voice and through the eyes of those who knew him better than anyone could.

I Hated, Hated, Hated This Movie Roger Ebert,2000-04 I Hated, Hated, Hated This Movie is a collection of more than 200 of Ebert's most biting and entertaining reviews of films receiving a mere star or less from the only film critic to win the Pulitzer Prize. Ebert has no patience for these atrocious movies and minces no words in skewering the offenders.Witness:Armageddon * (1998) - The movie is an assault on the eyes, the ears, the brain, common sense, and the human desire to be entertained. No matter what they're charging to get in, it's worth more to get out.The Beverly Hillbillies* (1993) - Imagine the dumbest half-hour sitcom you've ever seen, spin it out to ninety-three minutes by making it even more thin and shallow, and you have this movie. It's appalling.North no stars (1994) - I hated this movie. Hated hated hated hated hated this movie. Hated it. Hated every simpering stupid vacant audience-insulting moment of it. Hated the sensibility that thought anyone would like it. Hated the implied insult to the audience by its belief that anyone would be entertained by it.Police Academy no stars (1984) - It's so bad, maybe you should pool your money and draw straws and send one of the guys off to rent it so that in the future, whenever you think you're sitting through a bad comedy, he could shake his head, chuckle tolerantly, and explain that you don't know what bad is.Dear God * (1996) - Dear God is the kind of movie where you walk out repeating the title, but not with a smile.The movies reviewed within I Hated, Hated, Hated This Movie are motion pictures you'll want to distance yourself from, but Roger Ebert's creative and comical musings on those films make for a book no movie fan should miss.

Hedy's Folly Richard Rhodes,2012-08-07 Pulitzer Prize-winning author Richard Rhodes delivers a remarkable story of science history: how a ravishing film star and an avant-garde composer invented spread-spectrum radio, the technology that made wireless phones, GPS systems, and many other devices possible. Beginning at a Hollywood dinner table, Hedy's Folly tells a wild story of innovation that culminates in U.S. patent number 2,292,387 for a secret communication system. Along the way Rhodes weaves together Hollywood's golden era, the history of Vienna, 1920s Paris,

weapons design, music, a tutorial on patent law and a brief treatise on transmission technology. Narrated with the rigor and charisma we've come to expect of Rhodes, it is a remarkable narrative adventure about spread-spectrum radio's genesis and unlikely amateur inventors collaborating to change the world.

Plutopia Kate Brown, 2013-03-15 While many transnational histories of the nuclear arms race have been written, Kate Brown provides the first definitive account of the great plutonium disasters of the United States and the Soviet Union. In *Plutopia*, Brown draws on official records and dozens of interviews to tell the extraordinary stories of Richland, Washington and Ozersk, Russia--the first two cities in the world to produce plutonium. To contain secrets, American and Soviet leaders created plutopias--communities of nuclear families living in highly-subsidized, limited-access atomic cities. Fully employed and medically monitored, the residents of Richland and Ozersk enjoyed all the pleasures of consumer society, while nearby, migrants, prisoners, and soldiers were banned from plutopia--they lived in temporary staging grounds and often performed the most dangerous work at the plant. Brown shows that the plants' segregation of permanent and temporary workers and of nuclear and non-nuclear zones created a bubble of immunity, where dumps and accidents were glossed over and plant managers freely embezzled and polluted. In four decades, the Hanford plant near Richland and the Maiak plant near Ozersk each issued at least 200 million curies of radioactive isotopes into the surrounding environment--equaling four Chernobyls--laying waste to hundreds of square miles and contaminating rivers, fields, forests, and food supplies. Because of the decades of secrecy, downwind and downriver neighbors of the plutonium plants had difficulty proving what they suspected, that the rash of illnesses, cancers, and birth defects in their communities were caused by the plants' radioactive emissions. *Plutopia* was successful because in its zoned-off isolation it appeared to deliver the promises of the American dream and Soviet communism; in reality, it concealed disasters that remain highly unstable and threatening today. An untold and profoundly important piece of Cold War history, *Plutopia* invites readers to consider the nuclear footprint left by the arms race and the enormous price of paying for it.

The Negro Motorist Green Book Victor H. Green, The idea of *The Green Book* is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Off the Road Jack Hitt, 2005-03 *Off the Road* is a delightfully irreverent tour of the 500-mile pilgrimage route from France to Santiago de Compostela, Spain--sights people believe God once touched. Harper's contributing editor Jack Hitt writes of the many colorful pilgrims he met along the way, in this offbeat journey through landscape and belief.

The Ritual Adam Nevill, 2012-02-14 A horror debut by one of Britain's most celebrated up-and-coming writers, in which four friends get lost in a forest in Sweden, to find their lives are in mortal peril... as something evil lurks.

Movie Censorship and American Culture Francis G. Couvares, 2006 From the earliest days of public outrage over indecent nickelodeon shows,

Americans have worried about the power of the movies. The eleven essays in this book examine nearly a century of struggle over cinematic representations of sex, crime, violence, religion, race, and ethnicity, revealing that the effort to regulate the screen has reflected deep social and cultural schisms. In addition to the editor, contributors include Daniel Czitrom, Marybeth Hamilton, Garth Jowett, Charles Lyons, Richard Maltby, Charles Musser, Alison M. Parker, Charlene Regester, Ruth Vasey, and Stephen Vaughn. Together they make it clear that censoring the movies is more than just a reflex against indecency, however defined. Whether censorship protects the vulnerable or suppresses the creative, it is part of a broader culture war that breaks out recurrently as Americans try to come to terms with the market, the state, and the plural society in which they live.
